This report on Form 10-K contains forward-looking statements that are based on assumptions and may describe future plans, strategies and expectations of BCB Bancorp, Inc. and subsidiaries. This document may include forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. These forward-looking statements, which are based on certain assumptions and describe future plans, strategies, and expectations of the Company, are generally identified by use of the words "anticipate," "believe," "estimate," "expect," "intend," "plan," "project," "seek," "strive," "try," or future or conditional verbs such as "will," "would," "should," "could," "may," or similar expressions. Although we believe that our plans, intentions and expectations, as reflected in these forward-looking statements are reasonable, we can give no assurance that these plans, intentions or expectations will be achieved or realized. By dentifying these statements for you in this manner, we are alerting you to the possibility that our actual results and financial condition may differ, possibly materially, from the anticipated results and financial condition indicated in these forward-looking statements. Important factors that could cause our actual results and financial condition to differ from those indicated in the forward-looking tatements include, among others, those discussed below and under "Risk Factors" in Part I, Item 1A of this Annual Report on Form 10-K. You should not place undue reliance on these forward-looking statements, which reflect our expectations only as of the date of this report. We do not assume any obligation to revise forward-looking statements except as may be required by law.

## PART I

## ITEM 1.

BUSINESS

## BCB Bancorp. Inc.

BCB Bancorp, Inc. (the "Company") is a New Jersey corporation, and is the holding company parent of BCB Community Bank (the "Bank"). The Company has not engaged in any significant business activity other than owning all of the outstanding common stock of BCB Community Bank. Our executive office is located at 104-110 Avenue C, Bayonne, New Jersey 07002 . Our telephone number is (201) $823-0700$. At D
$\$ 968.7$ million in deposits and $\$ 100.1$ million in consolidated stockholders' equity. The Company is subject to extensive regulation by the Board of Governors of the Federal Reserve System.

## BCB Community Bank

BCB Community Bank opened for business on November 1, 2000 as Bayonne Community Bank, a New Jersey chartered commercial bank. We changed our name from Bayonne Community Bank to BCB Community Bank in April of 2007. At December 31, 2013, we operated through eleven branches in Bayonne, Jersey City, Hoboken, Monroe Township, South Orange, and Woodbridge, New Jersey and through our executive office located at $104-110$ Avenue C and our administrative office located at 591-595 Avenue C, Bayonne, New Jersey 07002 . Our deposit are insured by the Federal Deposit Insurance Corporation (FDIC) and we are a member of the Federal Home Loan Bank System.

We are a community-oriented financial institution. Our business is to offer FDIC-insured deposit products and to invest funds held in deposit accounts at the Bank, together with funds generated from operations, in investment securities and loans. We offer our customers:

- loans, including commercial and multi-family real estate loans, one- to four-family mortgage loans, home equity loans, construction loans, consumer loans and commercial business loans. In recent years the primary growth in our - loan portfolio has been in loans secured by commercial real estate and multi-family properties
retail and

## Significant Event s

retail and commercial banking services including wire transfers, money orders, traveler's checks, safe deposit boxes, a night depository, bond coupon redemption and automated teller services.

On October 30, 2013, the Company amended its Restated Certificate of Incorporation to revise Article V to amend powers, preferences, and rights of the shares of each such series and any qualifications, limitations or restrictions thereof. Such amendment to the Restated Certificate of Incorporation was approved by the directors of BCB Bancorp, Inc. on February 20 , powers.
2013.

On October 31, 2013, the Company closed a private placement of Series B Noncumulative Perpetual Preferred Stock, resulting in the issuance of 401 shares of Series B $6 \%$ Non-Cumulative Perpetual Preferred Shares for gross proceeds of
illion. The costs associated with the private placement were approximately $\$ 24,000$. The shares issued are callable by the Company after October 31,2016 , at $\$ 10,000$ per share (liquidation preference value). There is no ability to convert the $\$ 4.01$ million. The costs associated with the private placemente were approximately $\$ 24,000$. The shares istued Pare callable
preferred shares to common shares. Dividend on the preferred shares, if and when declared, will be paid quarterly in arrears.

At December 31, 2012, the Company closed a private placement of its Series A noncumulative perpetual preferred stock, par value $\$ 0.01$ per share ("preferred stock"). The Company sold $\$ 8.65$ million to certain investors at a purchase price of At December 31, 2012, the Company closed a private placement of its Series A noncumulative perpetual preferred stock, par value
$\$ 10,000$ per share. The net proceeds of the private placement are expected to be used primarily to support the capital of BCB Community Bank

On October $29^{\text {th }}$ and $30^{\text {th }}, 2012$, Hurricane Sandy struck the Northeast section of the country. The Company's market area was significantly impacted by the storm which resulted in widespread flooding, wind damage and power outages. The torm temporarily disrupted our branch network and our ability to service our customers, however within one week, all of our offices were fully functional. In 2012 , the Company conducted a quantitative analysis identifying 122 loans with outstanding principal loan balances totaling approximately $\$ 38.0$ million. At December 31,2013 , borrowers of $\$ 30.5$ million of the loans have either fully completed the restoration process or have paid the loan in full. The remaining $\$ 7.5$ million are at various stages
of completion and are continually monitored by the Company. Based on this updated, current analysis, the Company which had initially established an additional Hurricane Sandy related provision for loan losses totaling $\$ 500,000$ to mitigate any potential losses has reduced this provision to $\$ 34,000$ at December 31, 2013. The Company will continue to monitor the ongoing status of the Hurricane Sandy impacted loans to determine if the established provision requires additional adjustment.

## Business Strategy

Our business strategy is to operate as a well-capitalized, profitable and independent community-oriented financial institution dedicated to providing quality customer service. Management's and the Board of Directors' extensive knowledge of the markets we serve helps to differentiate us from our competitors. Our business strategy incorporates the following elements: maintaining a community focus, focusing on profitability, continuing our growth, concentrating on real estate based lending,
capitalizing on market dynamics, providing attentive and personalized service and attracting highly qualified and experienced personnel. These attributes coupled with our desire to seek out under-served markets for banking products and services facilitate our ambition to continue to grow our franchise footprint organically and synergistically.

Maintaining a community focus. Our management and Board of Directors have strong ties to the communities we serve. Many members of the management team are New Jersey natives and are active in the communities we serve through nonprofit board membership, local business development organizations, and industry associations. In addition, our board members are well established profe
interested in making a lasting contribution to these communities and have succeeded in attracting deposits and loans through attentive and personalized service.
Strengthening our balance sheet while returning to profitability. For the year ended December 31, 2013, our return on average equity was $10.18 \%$ and our return on average assets was $0.80 \%$. Our earnings per diluted share was $\$ 1.06$ for the year ale of non performing facilitating a $\$ 98.0$ million or $10.6 \%$ increase in net loans in 2013 . Management remains committed to strengthening the Bank's statements of financial condition and maintaining profitability by diversifying the products, pricing and services we offer. As a result of our efforts, our loans delinquent over 90 days have decreased from $\$ 39.6$ million at December 31, 2011 to $\$ 14.8$ million at December 31, 2012, to $\$ 7.0$ million at December 31, 2013 .

Concentrating on real estate-based lending. A primary focus of our business strategy is to originate loans secured by commercial and multi-family properties. Such loans provide higher returns than loans secured by one- to four-family real estate. As a result of o
increased level of risk.

Capitalizing on market dynamics. The consolidation of the banking industry in Hudson County, New Jersey has provided a unique opportunity for a customer focused banking institution, such as the Bank. We believe our local roots and community focus provides the Bank with an opportunity to capitalize on the consolidation in our market area. This consolidation has moved decision making away from local, community-based banks to much larger banks headquartered outside of New Jersey. We Providing attentive and personalized service. Management believes that providing attentive and personalized service is the key to gaining deposit and loan relationships in the markets we serve and their surrounding communities. Since we began operations, our branches have been open seven (7) days a week.

Attracting highly experienced and qualified personnel. An important part of our strategy is to hire bankers who have prior experience in the markets we serve, as well as pre-existing business relationships. Our management team has an verage of over 27 years of banking experience, while our lenders and branch personnel have significant prior experience at community banks and regional banks throughout New Jersey. Management believes that its knowledge of these markets has bee critical element in the success of BCB Community Bank. Management's extensive knowledge of the local communities has allowed us to develop and implement a highly focused and disciplined approach to lending and has enabled the Bank to attract a high percentage of low cost deposits.

## Our Market Area

We are located in the City of Bayonne, Jersey City and Hoboken in Hudson County, Monroe Township and Woodbridge in Middlesex County, and South Orange in Essex County, New Jersey. The Bank's locations are easily accessible and provide convenient services to businesses and individuals throughout our market area

Our market area includes the City of Bayonne, Jersey City, portions of Hoboken, South Orange, Woodbridge, and Monroe Township, New Jersey. These areas are all considered "bedroom" or "commuter" communities to Manhattan. Our market are is well-served by a network of arterial roadways including Route 440 and the New Jersey Turnpike.

Our market area has a high level of commercial business activity. Businesses are concentrated in the service sector and retail trade areas. Major employers in our market area include certain medical centers and local boards of education. As a result of Hurricane Sandy, a significant number of businesses in our market area sustained losses which resulted in reduced economic activity during the last two months of 2012 and into 2013.

## Competition

The banking business in New Jersey is extremely competitive. We compete for deposits and loans with existing New Jersey and out-of-state financial institutions that have longer operating histories, larger capital reserves and more established ustomer bases. Our competition includes large financial service companies and other entities in addition to traditional banking institutions such as savings and loan associations, savings banks, commercial banks and credit unions. Our larger competitor have a greater ability to finance wide-ranging advertising campaigns through their greater capital resources. Our marketing efforts depend heavily upon referrals from officers, directors, stockholders, selective advertising in local media and direct mail solicitations. We compete for business principally on the basis of personal service to customers, customer access to our officers and directors and competitive interest rates and fees.

In the financial services industry in recent years, intense market demands, technological and regulatory changes and economic pressures have eroded industry classifications that were once clearly defined. Banks have diversified their service competitively priced their deposit products and become more cost effective as a result of competition with one another and with new types of financial service companies, including non-banking competitors. Some of the results of these market dynamic the financial services industry have been a number of new bank and non-bank competitors, increased merger activity, and increased customer awareness of product and service differences among competitors

Analysis of Loan Portfolio . Set forth below is selected data relating to the composition of our loan portfolio by type of loan as a percentage of the respective portfolio.

Commercial and Multi-family Real Estate Loans. Our commercial and multi-family real estate loans are secured by commercial real estate (for example, shopping centers, medical buildings, retail offices) and multi-family residential units, consisting of five or more units. Permanent loans on commercial and multi-family properties are generally originated in amounts up to $75 \%$ of the appraised value of the property. Our commercial real estate loans are secured by improved property such as
 secured by commercial property and was performing in accordance with its terms on that date. Our largest multi-family loan had a principal balance of $\$ 6.5$ million at December 31,2013 . This loan was performing in accordance with its terms on that date.

Loans secured by commercial and multi-family real estate are generally larger and involve a greater degree of risk than one- to four-family residential mortgage loans. The borrower's creditworthiness and the feasibility and cash flow potential of Loans secured by commercial and multi-family real estate are generally larger and involve a greater degree of risk than one- to four-family residential mortgage loans. The borrower's creditworthiness and the feasisility and cash flow potential of
the project is of primary concern in commercial and multi-family real estate lending. Loans secured by income properties are generally larger and involve greater risks than residential mortgage loans because payments on loans secured by income properties are often dependent on the successful operation or management of the properties. We intend to continue emphasizing the origination of loans secured by commercial real estate and multi-family properties.

One- to Four-Family Lending. Our one- to four-family residential mortgage loans are secured by property located primarily in the State of New Jersey. We generally originate one- to four-family residential mortgage loans in amounts up to $80 \%$ of
隹 the lesser of the appraised value or selling price of the mortgaged property without requiring mortgage insurance. We will originate loans with loan to value ratios up to $90 \%$ provided the borrowers obtain private mortgage insurance. We originate both fixed rate and adjustable rate loans. One-to four-family loans may have terms of up to 30 years. The majority of one- to four-family loans we originate for retention in our portfolio have terms no greater than 15 years. We offer adjustable rate loans with
fixed rate periods of up to five years, with principal and interest calculated using a maximum 30 -year amortization period. We offer these loans with a fixed rate for the first five years with repricing every year after the initial period. Adjustable rate loans may adjust up to 200 basis points annually and 600 basis points over the term of the loan. We also broker for a third party lender one- to four-family residential loans, which are primarily fixed rate loans with terms of 30 years. Our loan brokerage activities permit us to offer customers longer-term fixed rate loans we would not otherwise originate while providing a source of fee income. During 2013, we originated for sale $\$ 18.1$ million in one- to four-family loans and recognized gains of $\$ 408,000$ from the sale of such loans.

Property appraisals on real estate securing our single-family residential loans are made by state certified and licensed independent appraisers approved by our Board of Directors. Appraisals are performed in accordance with applicable regulations and policies. As a result of Hurricane Sandy, we anticipate that appraised home values in our market area will be significantly lower than would otherwise be the case. At our discretion, we obtain either title insurance policies or attorneys' certificates of charge a fee equal to a percentage of the loan amount commonly referred to as points.

Construction Loans. We offer loans to finance the construction of various types of commercial and residential property. Construction loans to builders generally are offered with terms of up to eighteen months and interest rates are tied to the prime rate plus a margin. These loans generally are offered as adjustable rate loans. We will originate residential construction loans for individual borrowers and builders, provided all necessary plans and permits are in order. Construction loan funds are isbursed as the project progresses. As or December 3 , 20 , our largest construction loan was $\$ 11.0$ million, of which $\$ 3.4$ million was disbursed. This loan has been made for the construction of a 3 -story commercial property built to suit the Cow

Construction financing is generally considered to involve a higher degree of risk of loss than long-term financing on improved, occupied real estate. Risk of loss on a construction loan is dependent largely upon the accuracy of the initial estimate of the property's value at completion of construction and development and the estimated cost (including interest) of construction. During the construction phase, a number of factors could result in delays and cost overruns. If the estimate of construction maturity of the loan, with a project having a value which is insufficient to assure full repayment.

Home Equity Loans and Home Equity Lines of Credit. We offer home equity loans and lines of credit that are secured by the borrower's primary residence. Our home equity loans can be structured as loans that are disbursed in full at closing or as lines of credit. Home equity loans and lines of credit are offered with terms up to 15 years. Virtually all of our home equity loans are originated with fixed rates of interest and home equity lines of credit are originated with adjustable interest rates tied to the prime rate. Home equity loans and lines of credit are underwritten under the same criteria that we use to underwrite one- to four-family loans. Home equity loans and lines of credit may be underwritten with a loan-to-value ratio of $80 \%$ when
combined with the principal balance of the existing mortgage loan. At the time we close a home equity loan or line of credit, we file a mortgage to perfect our security interest in the underlying collateral. At December 31,2013 , the outstanding balances combined with the principal balance of the existing mortgage loan. At the time we clo
of home equity loans and lines of credit totaled $\$ 56.1$ million, or $5.41 \%$ of total loans.

Commercial Business Loans. Our commercial business loans are underwritten on the basis of the borrower's ability to service such debt from income. Our underwriting standards for commercial business loans include a review of the applicant's tax returns, financial statements, credit history and an assessment of the applicant's ability to meet existing obligations and payments on the proposed loan based on cash flow generated by the applicant's business. Commercial business loans are generally made to small and mid-sized companies located within the State of New Jersey. In most cases, we require collateral of real estate, equipment, accounts receivable, inventory, chattel or other assets before making a commercial business loan. Our largest loans generally have higher rates and shorter terms than one- to four-family residential loans, but they may also involve higher average balances and a higher risk of default since their repayment generally depends on the successful operation of the orrower's business. As a result of Hurricane Sandy, economic activity in our market area has been disrupted and many of our commercial business borrowers have had their businesses impaired. Until our business borrowers recover from the effects of Hurricane Sandy we may experience higher than customary levels of delinquencies and losses.

Consumer Loans. We make various types of secured and unsecured consumer loans and loans that are collateralized by new and used automobiles. Consumer loans generally have terms of three years to ten years.
Consumer loans are advantageous to us because of their interest rate sensitivity, but they also involve more credit risk than residential mortgage loans because of the higher potential for default, the nature of the collateral and the difficulty in disposing of the collateral.

Loan Approval Authority and Underwriting. We establish various lending limits for executive management and also maintain a loan committee. The loan committee is comprised of the Chairman of the Board, the President, the Senior Lending ffficer and a minimum of five non-employee members of the Board of Directors. The President or the Senior Lending Officer, together with one other loan officer, have authority to approve applications for real estate loans up to $\$ 500,000$, other secure ans up to $\$ 500,000$ and unsecured loans up to $\$ 25,000$. The loan committee considers all applications in excess of the above lending limits and the entire board of directors ratifies all such loans.

Upon receipt of a completed loan application from a prospective borrower, a credit report is ordered. Income and certain other information is verified. If necessary, additional financial information may be requested. An appraisal is required for the underwriting of all one- to four-family loans.
appraisers approved by the Board of Directors.

An attorney's certificate of title is required on all newly originated real estate mortgage loans. In connection with refinancing and home equity loans or lines of credit in amounts up to $\$ 250,000$, we will obtain a record owner's search in lieu of a An attorney's certificate of titte is required on atr newly originated real estate mortgage loans. In connection with refinancing and home equity loans or lines of credit in a

Loan Commitments. Written commitments are given to prospective borrowers on all approved real estate loans. Generally, we honor commitments for up to 90 days from the date of issuance. At December 31,2013 , our outstanding loan origination commitments totaled $\$ 30.9$ million, standby letters of credit totaled $\$ 2.0$ million, outstanding construction loans in progress totaled $\$ 46.3$ million and undisbursed lines of credit totaled $\$ 64.3$ million.

Loan Delinquencies. We send a notice of nonpayment to borrowers when their loan becomes 15 days past due. If such payment is not received by month end, an additional notice of nonpayment is sent to the borrower. After 60 days, if payment is till delinquent, a notice of right to cure default is sent to the borrower giving 30 additional days to bring the loan current before foreclosure is commenced. If the loan continues in a delinquent status for 90 days past due and no repayment plan is in effect real estate portfolios. These reports stress test declining property values up to and including a $25 \%$ value deprecation to the original appraised value to determine our potential exposure.

Loans are reviewed and are placed on a non-accrual status when the loan becomes more than 90 days delinquent or when, in our opinion, the collection of additional interest is doubtful. Once placed on non-accrual status, the accrual of interes come is discontinued. Income is subsequently recognized only to the extent that cash payments are received until delinquency status is reduced to less than ninety days, in which case the loan is returned to accrual status. At December 31,2013 , we ha $\$ 20.6$ million in non-accruing loans. Our largest exposure of non-performing loans consisted of a relationship with one borrowing entity in which the loan is collateralized by a two story office building an a a 1 \& 2 story industrial building whose balance December 31, 2013 was $\$ 2.2$ million.

A loan is considered impaired when it is probable the borrower will not repay the loan according to the original contractual terms of the loan agreement. We have determined that first mortgage loans on one- to four-family properties and all and collect all amounts due including interest accrued at the contractual interest rate for the period of delay. We independently evaluate all loans identified as impaired. We estimate credit losses on impaired loans based on the present value of expected cas flows or the fair value of the underlying collateral if the loan repayment will be derived from the sale or operation of such collateral. Impaired loans, or portions of such loans, are charged off when we determine a realized loss has occurred. Until such me, an allowance for loan losses is maintained for estimated losses. Cash receipts on impaired loans are applied first to accrued interest receivable unless otherwise required by the loan terms, except when an impaired loan is also a nonaccrual loan, allowances totaling $\$ 2.6$ million have been established. During 2013 , interest income of $\$ 2.1$ million was recognized on impaired loans during the time of impairment.

Accruing loans delinguent more than 90 days:

For the year ended December 31, 2013 , gross interest income which would have been recorded had our non-accruing loans been current in accordance with their original terms amounted to $\$ 1.36$ million. We received and recorded $\$ 769,000$ in interest income for such loans for the year ended December 31, 2013.
-

Classified Assets. Our policies provide for a classification system for problem assets. When we classify problem assets, we may establish general allowances for loan losses in an amount deemed prudent by management. General allowances represent loss allowances which have been established to recognize the inherent risk associated with lending activities, but which, unlike specificic allowances, have not been allocated to particular problem assets. A portion of general loss allowances established to cover possible losses related to assets classified as substandard or doubtful may be included in determining our regulatory capital. Specific valuation allowances for loan losses generally do not qualify as regulatory capital. At December 31
2013 . we had $\$ 5.2$ million in assets classified as doubtul, of which $\$ 5.2$ million were classified as impaired, $\$ 17.6$ million in assets classified as substandard, of which $\$ 17.6$ million were classified as impaired and $\$ 22$. million in assets 2013 , we had $\$ 5.2$ million in assets classified as doubful, of which $\$ 5.2$ million were classified as impaired, $\$ 17.6$ million in assets classified as substandard, of which $\$ 17.6$ million were classified as impaired and $\$ 22.5$ million in asset classified as special mention, of which $\$ 13.9$ million were classified as impaired. The loans classified as substandard represent primarily commercial loans secured either by residential real estate, commercial real e
that have been classified substandard were classified as such primarily because either updated financial information has not been timely provided, or the collateral underlying the loan is in the process of being revalued.

The Company's internal credit risk grades are based on the definitions currently utilized by the banking regulatory agencies. The grades assigned and definitions are as follows, and loans graded excellent, above average, good and watch list (risk ratings 1-4) are treated as "pass" for grading purposes:

5 - Special Mention- Loans currently performing but with potential weaknesses including adverse trends in borrower's operations, credit quality, financial strength, or possible collateral deficiency
6 - Substandard - Loans that are inadequately protected by current sound worth, paying capacity, and collateral support. Loans on "nonaccrual" status. The loan needs special and corrective attention.

- Doubtful - Weaknesses in credit quality and collateral support make full collection improbable, but pending reasonable factors remain sufficient to defer the loss status.
- Loss - Continuance as a bankable asset is not warranted. However, this does not preclude future attempts at partial recovery

Allowances for Loan Losses. A provision for loan losses is charged to operations based on management's evaluation of the losses that may be incurred in our loan portfolio. In addition, our determination of the amount of the allowance for an losses is subject to review by the New Jersey Department of Banking and Insurance and the FDIC, as part of their examination process. After a review of the information available, our reguators might require the estabishment of an addition harged against earnings in an amount necessary to maintan the allowance at a level that is adequate based on management's assessment of probable estimated losses. The Company's methodology for assessing the adequacy of the allowance for loa losses consists of several key elements. These elements include a general allocated allowance for impaired loans, a specific allowance for impaired loans, and an unallocated portion.

The Company consistently applies the following comprehensive methodology. During the quarterly review of the allowance for loan losses, the Company considers a variety of factors that include:
General economic conditions.
rends in charge-offs
Trends and levels of delinquent loans.
Trends and levels of non-performing loans, including loans over 90 days delinquent.
Trends in volume and terms of loans.
Levels of allowance for specific classified loans.
Credit concentrations
The methodology includes the segregation of the loan portfolio into two divisions. Loans that are performing and loans that are impaired. Loans which are performing are evaluated homogeneously by loan class or loan type. The allowance of erforming loans is evaluated based on historical loan experience, including consideration of peer loss analysis, with an adjustment for qualitative factors due to economic conditions in the market. Impaired loans are loans which are more than 60 day delinquent or troubled debt restructured. These loans are individually evaluated for loan loss either by current appraisal, estimated economic factor, or net present value. Management reviews the overall estimate for feasibility and bases the loan los
provision accordingly. As of December 31, 2013 , non-accrual loans differed from the amount of total loans past due greater than 90 days due to troubled debt restructuring of loans which are maintained on non-accrual status for a minimum of six provision accordingly. As of December 31,2013 , non-accrual loans differed from the amount of total loans past due greater than 90 days due to troubled debt restructuring of loans which are maintained on non-accrual status for a minimum of si
months until the borrower has demonstrated their ability to satisfy the terms of the restructured loan. The Company also maintains an unallocated allowance. The unallocated allowance is used to cover any factors or conditions which may cause potential loan loss but are not specifically identifiable. It is prudent to maintain an unallocated portion of the allowance because no matter how detailed an analysis of potential loan losses is performed, these estimates lack some element of precision. Management must make estimates using assumptions and information that is often subjective and subject to change

The following table sets forth an analysis of the Bank's allowance for loan losses.

Investment Securities. We are required under federal regulations to maintain a minimum amount of liquid assets that may be invested in specified short-term securities and certain other investments. The level of liquid assets varies depending upon several factors, including: (i) the yields on investment alternatives, (iii) our judgment as to the attractiveness of the yields then available in relation to other opportunities, (iii) expectation of future yield levels, and (iv) our projections as to the short-term
demand for funds to be used in loan origination and other activities. Investment securities, including mortgage-backed securities, are classified at the time of purchase, based upon management's intentions and abilities, as securities held-to-maturity or securities available for sale. Debt securities acquired with the intent and ability to hold to maturity are classified as held-to-maturity and are stated at cost and adjusted for amortization of premium and accretion of discount, which are computed using the level yield method and recognized as adjustments of interest income. All other debt and equity securities are classified as available for sale to serve principally as a source of liquidity.

Current regulatory and accounting guidelines regarding investment securities require us to categorize securities as held-to-maturity, available for sale or trading. As of December 31,2013 , the amortized cost of securities classified as held-tomaturity was $\$ 114.2$ million. We had $\$ 1.1$ million in securities classified as available for sale, and no securities classified as trading. Securities classified as available for sale are reported for financial reporting purposes at the fair value with net
changes in the fair value from period to period included as a separate component of stockholders' equity, net of income taxes. As of December 31, 201 3, our securities classified as held-to-maturity had a fair value of $\$ 115.1$ million. Changes in the fair changes in the fair value from period to period included as a separate component of stockholders equity, net of income taxes. As of December 31, 2013, our securities classified as held-to-maturity had a fair value of $\$ 115.1$ million. Changes in the fair
value of securities classified as held-to-maturity or available for sale do not affect our income, unless we determine there to be an other-than-temporary impairment for those securities in an unrealized loss position. As of December 31 , 2013 management concluded that all unrealized losses were temporary in nature since they are related to interest rate fluctuations rather than any underlying credit quality of the issuers. Additionally, the Company has no plans to sell these securities and he ane provided that a substantial portion (at least $85 \%$ ) of the principal balance has been amortized prior to the sale. During the year ended December 31, 201 3, proceeds from sales of securities held to maturity totaled approximately $\$ 9.5$ million and resulte gross gains of \$ 401,000 and gross losses of \$ 23,000

As of December 31, 2013 , our investment policy allowed investments in instruments such as: (i) U.S. Treasury obligations; (ii) U.S. federal agency or federally sponsored agency obligations; (iii) mortgage-backed securities; and (iv) certificates of government agency securities.

As a source of liquidity and to supplement our lending activities, we have invested in residential mortgage-backed securities. Mortgage-backed securities generally yield less than the loans that underlie such securities because of the cost of
 securities, to investors, like us. The government-sponsored enterprises guarantee the payment of principal and interest to investors and include Freddie Mac, Ginnie Mae, and Fannie Mae.

Mortgage-backed securities typically are issued with stated principal amounts. The securities are backed by pools of mortgage loans that have interest rates that are within a set range and have varying maturities. The underlying pool of mortgages can be composed of either fixed rate or adjustable rate mortgage loans. Mortgage-backed securities are generally referred to as mortgage participation certificates or pass-through certificates. The interest rate risk characteristics of the underlying pool of ortgages contractual maturities due to scheduled repayments and because borrowers may have the right to call or prepay obligations with or without prepayment penalties.

The following table shows our securities held-to-maturity purchase sale and repayment activities for the periods indicated.

 2013 by contractual maturity. The following table does not take into consideration the effects of scheduled repayments or the effects of possible prepayments.

December 31, 2013

Our major external source of funds for lending and other investment purposes are deposits. Funds are also derived from the receipt of payments on loans, prepayment of loans, maturities of investment securities and mortgage-backed securities and borrowings. Scheduled loan principal repayments are a relatively stable source of funds, while deposit inflows and outflows and loan prepayments are significantly influenced by general interest rates and market conditions.
 accounts. Deposit account terms vary according to the minimum balance required, the time period the funds must remain on deposit, and the interest rate.

The interest rates paid by us on deposits are set at the direction of our senior management. Interest ra tes are determined based on our liquidity requirements, interest rates paid by our competitors, our growth goals, and applicable regulatory restrictions and requirements. As of December 31, 2013 and December 31, 2012 we had $\$ 8.5$ million and $\$ 6.8$ million in brokered deposits, respectively,

Deposit Accounts. The following table sets forth the dollar amount of deposits in the various types of deposit programs we offered as of the dates indicated.

## Employees

At December 31, 2013 , we had 174 full-time equivalent and 75 part-time employees. None of our employees is represented by a collective bargaining group. We believe that our relationship with our employees is good

## $\frac{\text { Subsidiaries }}{\text { We have }}$

 in October 2012 for the purpose of holding and investing in various loan products and investing in securities. For the period ended December 31,2013 , there was no activity related to this subsidiary

## Supervision and Regulation

Bank holding companie addressed, and is not intended to be a complete description of such statutes and regulations and their effects on the Company or the Bank.

As further described below under the heading "The Dodd-Frank Act", the Dodd-Frank Wall Street Reform and Consumer Protection Act ("Dodd-Frank Act"), will significantly change the current bank regulatory structure described in this section and will
 prospects of the Company and the Bank.

 Reserve") to supervise and regulate all savings and loan holding companies.

The Dodd-Frank Act requires the Federal Reserve to set minimum capital levels for bank holding companies that are as stringent as those required for insured depository institutions, and the components of Tier 1 capital would be restricted to capital

 requirements within 18 months. These new leverage and capital requirements must take into account off-balance sheet activities and other risks, including risks relating to securitized products and derivative

 and gives the state attorneys general the ability to enforce applicable federal consumer protection laws.

The Dodd- Frank Act also broadens the base for FDIC insurance assessments. In accordance with the Dodd-Frank Act, the FDIC has promulgate d rules under which assessments are based on the average consolidated total assets less tangible equity capital of

 rules prohibiting excessive compensation paid to bank holding company executives, regardless of whether the company is publicly traded.

## Bank Holding Company Regulation

As a bank holding company registered under the Bank Holding Company Act of 1956, as amended, the Company is subject to the regulation and supervision applicable to bank holding companies by the Federal Reserve. The Company is also subject to the
 Commissioner regarding its business operations and those of its subsidiaries.

 mergers.

The Bank Holding Company Act generally prohibits a bank holding company, with certain limited exceptions, from (i) acquiring or retaining direct or indirect ownership or control of more than $5 \%$ of the outstanding voting stock of any company which is not a bank or
 banking or managing or controlling banks as to be properly incident thereto.

 activities not permissible for banks.
解 relinquish control of

The Federal Reserve has adopted risk-based capital guidelines for bank holding companies. The risk-based capital guidelines are designed to make regulatory capital requirements more sensitive to differences in risk profile among banks and bank holding companies, to
 percentage of total risk-weighted assets and off-balance sheet items.

The Federal Reserve may set higher capital requirements for holding companies whose circumstances warrant it. For example, holding companies experiencing internal growth or making acquisitions are expected to maintain strong capital positions substantially above the minimum supervisory levels, without significant reliance on intangible assets.

As noted above, the Dodd-Frank Act requires the Federal Reserve to set minimum capital levels for bank holding companies that are as stringent as those required for insured depository institutions, and the components of Tier 1 capital would be restricted to capital
 instruments that are currently considered to be Tier I capital sor
 Jersey Banking Act, as well as Federal law, no person may acquire control of the Company or the Bank without first obtaining approval of such acquisition of control from the Federal Reserve and the Commissioner.

## Bank Regulation

 and the Commissioner impact virtually all of our activities, including the minimum level of capital we must maintain, our ability to pay dividends, our ability to expand through new branches or acquisitions and various other matters.
 $\$ 250,000$ for self-directed retirement accounts.
 specified adjustments with higher assessments applying to institutions deemed most risky

As part of its plan to restore the Deposit Insurance Fund in the wake of the large number of bank failures following the financial crisis, the FDIC imposed a special assessment of 5 basis points for the second quarter of 2009. In addition, the FDIC required all insured
 effective January 1, 2011. As of December 31, 2012 our prepaid FDIC premium assessment was full y utilized.

In February 2011, the FDIC published a final rule under the Dodd-Frank Act to reform the deposit insurance assessment system. The rule redefine d the assessment base used for calculating deposit insurance assessments effective April 1 , 2011. Under the new

 by the FDIC. We do not currently know of any practice, condition or violation that may lead to termination of our deposit insurance
 the former Federal Savings and Loan Insurance Corporation. The bonds issued by the FICO are due to mature in 2017 through 2019. For the year ended December 31, 201 3, we paid $\$ 68$,000 in FICO assessments.

 items. These rules are substantially similar to the Federal Reserve rules discussed above.
 capital to risk-weighted assets was $13.66 \%$. Our Tier 1 capital to risk-weighted assets was $12.41 \%$, and our Tier 1 capital to average assets was $8.70 \%$.

As noted above, the Dodd-Frank Act establishes a floor for capital of insured depository institutions that cannot be lower than the standards in effect today, and directs the federal banking regulators to implement new leverage and capital requirements within 18
 Dodd-Frank Act's directives as well as recommendations of the international Basel Committee on B
based requirement, and certain increased risk weights. It is not known when the rule will be finalized.

Transactions with Affiliates. Transactions between banks and their related parties or affiliates are limited by Sections 23A and 23B of the Federal Reserve Act. An affiliate of a bank is any company or entity that controls, is controlled by or is under common control with

 insiders over other employees. Loans to executive officers are further limited by specific categories.

The Dodd-Frank Act requires that the Federal Reserve make certain changes to the regulations governing transactions with affiliates described above. It is uncertain when such changes will become effective.
Dividends. The Bank may pay dividends as declared from time to time by the Board of Directors out of funds legally available, subject to certain restrictions. Under the New Jersey Banking Act of 1948 , as amended, the Bank may not pay a cash dividend unless,
 Federal Securities Laws
 Exchange Act of 1934 .

Under the Exchange Act, we are required to conduct a comprehensive review and assessment of the adequacy of our existing financial systems and controls. For the year ended December 31,2013 , our auditors are required to audit our internal control over financial reporting.

## Sarbanes-Oxley Act of 2002

 company to its chief executive officer or its chief legal officer, and, if such officer does not appropriately respond, to report such evidence to the audit committee or other similar committee of the board of directors or the board itself.

 business days of the change

 misleading. Sarbanes-Oxley also requires the Securities and Exchange Commission to prescribe rules requiring inclusion of any internal control
report and assessment by management in the annual report to shareholders. Sarbanes-Oxley requires the company's registered public accounting firm that issues the audit report to report on the company's internal control over financial planning.
Under Section 404 of the Sarbanes-Oxley Act of 2002, we are required to conduct a comprehensive review and assessment of the adequacy of our existing financial systems and controls.
AVAILABILITY OF ANNUAL REPORT
Our Annual Report is available on our website, www.bcbbancorp.com. We will also provide our Annual Report on Form 10-K free of charge to shareholders who write to the Corporate Secretary at 104-110 Avenue C, Bayonne, New Jersey 07002 .
ITEM 1A. RISK FACTORS
Our loan portfolio consists of a high percentage of loans secured by commercial real estate and multi-family real estate. These loans are riskier than loans secured by one-to four-family properties.

 one- to four-family residential mortgage loan.
We may not be able to successfully maintain and manage our growth
 acquisitions and complete such acquisitions.
 earnings and shareholder returns.

If our allowance for loan losses is not sufficient to cover actual loan losses, our earnings could decrease.
Our loan customers may not repay their loans according to the terms of their loans, and the collateral securing the payment of their loans may be insufficient to assure repayment. We may experience significant credit losses, which could have a material adverse

 portfolio at the date of the financial statements. Material additions to our allowance would materially decrease our net income. At December 31, 201 3, our allowance for loan losses totaled \$ 14.3 million, representing $1.38 \%$ of total loans.
 we had $\$ 22.8$ million, or $1.89 \%$ of total assets consisting of non-performing assets at December 31,2013 , it is difficult to assess the fut
our non-performing loans will not increase or that our non-performing or delinquent loans will not adversely affect our future performance.

In addition, federal and state regulators periodically review our allowance for loan losses and may require us to increase our allowance for loan losses or recognize further loan charge-offs. Any increase in our allowance for loan losses or loan charge-offs as required by these regulatory agencies could have a material adverse effect on our results of operations and financial condition.

We depend primarily on net interest income for our earnings rather than fee income
 ended December 31, 201 3and 2012, our net interest income was $\$ 46.8$ million and $\$ 41.7$ million, respectively. The amount of our net interest income is influenced by the overall interest rate environment, competition, and the amoun amount of interest-bearing liabilities. In the event that one or more of these factors were to result in a decrease in our net interest income, we do not have significant sources of fee income to make up for decreases in net interest income.

If Our Investment in the Federal Home Loan Bank of New York is Classified as Other-Than-Temporarily Impaired, Our Earnings and Stockholders' Equity Could Decrease.
 fair value of our FHLBNY common stock as of December 31, 2013 was $\$ 7.8$ million based on its par value. There is no market for our FHLBNY common stock.
 capitalization of a Federal Home Loan Bank, including the FHLBNY, could be substantially diminished or reduced to zero. Consequently, we believe that there is a risk that our investment in FHLBNY common stock could be

## Fluctuations in interest rates could reduce our profitability.

We realize income primarily from the difference between the interest we earn on loans and investments and the interest we pay on deposits and borrowings. The interest rates on our assets and liabilities respond differently to changes in market interest rates, which
 that reprice in response to these interest rate changes may work against us, and our earnings may be negatively affected.

We are unable to predict fluctuations in market interest rates, which are affected by, among other factors, changes in the following

- inflation rates;
- business activity levels;
- money supply; and
- domestic and foreign financial markets.

The value of our investment portfolio and the composition of our deposit base are influenced by prevailing market conditions and interest rates. Our asset-liability management strategy, which is designed to mitigate the risk to us from changes in market interest rates, may not prevent changes in interest rates or securities market downturns from reducing deposit outflow or from having a material adverse effect on our results of operations, our financial condition or the value of our investments.
Adverse events in New Jersey, where our business is concentrated, could adversely affect our results and future growth.
 regulations in New Jersey, could impact the credit quality of our assets, the business of our customers and our ability to expand our business.
 negatively affected. In addition, the economies of the communities in which we operate are substantially dependent on the growth of the economy in the State of New Jersey. To the extent that economic conditions in New Jerse
projected, the economy in our market area would be adversely affected. Moreover, we cannot give any assurance that we will benefit from any market growth or favorable economic conditions in our market area if they do occur.

 increased loan delinquencies, which could result in a higher provision for loan losses and incre
adversely affect the value of our assets, revenues, results of operations and financial condition.

## We operate in a highly regulated environment and may be adversely affected by changes in federal, state and local laws and regulations.

We are subject to extensive regulation, supervision and examination by federal and state banking authorities. Any change in applicable regulations or federal, state or local legislation could have a substantial impact on us and our operations. Additional legislation

Like other bank holding companies and financial institutions, we must comply with significant anti-money laundering and anti-terrorism laws. Under these laws, we are required, among other things, to enforce a customer identification program and file currency
 in the highly urbanized greater Newark/New York City metropolitan area, we may be at greater risk of scrutiny by government regulators for compliance with these laws.
 and/or result in a loss of investor confidence in our financial reports, which could in turn have a material adverse effect on our business and stock price.

Under rules of the Securities and Exchange Commission promulgated under Section 404 of the Sarbanes-Oxley Act of 2002, we were required to furnish a report by our management on our internal control over financial reporting in our Annual Report on Form 10-K
 connection with the preparation of 201 audited consolidated financial statements and our Annual eeport on Form $10-\mathrm{K}$, we identified a material weakness in our internal control over fion
place with respect to outside service organizations, and that (ii) we failed to test the operating effectiveness of such controls as of December 31, 2011. The Company did test the operating

 of our financial reports, which in turn could have a material adverse effect on our stock price, and, if such weaknesses are not properly remediated, could adversely affect our ability to report our financial results on a timely basis.

As a result of the foregoing our independent registered public accounting firm identified a material weakness in the Company's internal controls and procedures citing the Company's failure to document monitoring controls over the use of outside service
ions and to test the operating effectiveness of such controls as of December 31, 2011. The material weakness was considered in determining the nature, timing and extent of audit tests applied in the independent public accounting firm's audit of our 2011 consolidated
 financial statements. Consequently, our independent registered public accounting firm concluded that the Company did not maintain effective internal control over financial reporting as of December 31, 2011 .

## ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

General
This discussion, and other written material, and statements management may make, may contain certain forward-looking statements regarding the Company's prospective performance and strategies within the meaning of Section 27 A of the Securities Act of 1933 ,
 as amended, and Section 21 E of the Securities Exchange Act of 1934, as amende
1995, and is including this statement for purposes of said safe harbor provisions.

Forward-looking information is inherently subject to risks and uncertainties, and actual results could differ materially from those currently anticipated due to a number of factors, which include, but are not limited to, factors discussed in the Company's Annual
 results or the actual effects of its plans or strategies is inherently uncertain. Accordingly, actual results may differ materially from anticipated results.

Factors that could have a material adverse effect on the operations of the Company and its subsidiaries include, but are not limited to, changes in market interest rates, general economic conditions, legislation, and regulation; changes in monetary and fiscal policies of the

 services.

Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date of this discussion. Although the Company believes that the expectations reflected in the forward-looking statements are reasonable, the Company
 cannot guarantee future results, lev
which such statements were made.

## Critical Accounting Policies

Critical accounting policies are those accounting policies that can have a significant impact on the Company's financial position and results of operations that require the use of complex and subjective estimates based upon past experiences and management's judgment.
 estimates and assumptions. For additional accounting policies, see Note 2 of "Notes to Consolidated Financial Statements."

Allowance for Loan Losses
Loans receivable are presented net of an allowance for loan losses and net deferred loan fees. In determining the appropriate level of the allowance, management considers a combination of factors, such as economic and industry trends, real estate market

 our earnings.

Other-than-Temporary Impairment of Securities
If the fair value of a security is less than its amortized cost, the security is deemed to be impaired. Management evaluates all securities with unrealized losses quarterly to determine if such impairments are "temporary" or "other-than-temporary" in accordance with Accounting Standards Codification ("ASC") Topic 320 Investments - Debt and Equity Securities

Accordingly, temporary impairments are accounted for based upon the classification of the related securities as either available for sale or held to maturity. Temporary impairments on available for sale securities are recognized, on a tax-effected basis, through Other
 and duration of temporary impairments on both available for sale and held to maturity securities is generally disclosed in the notes to the consolidated financial statements.

Other-than-temporary impairments are accounted for based upon several considerations. First, other-than-temporary impairments on debt securities that the Company has decided to sell as of the close of a fiscal period, or will, more likely than not, be required to sell

 unrealized loss that is deemed other-than-temporary are written down to fair value with the write-down recognized in earnings.

Deferred Income Taxes
The Company records income taxes using the asset and liability method. Accordingly, deferred tax assets and liabilities: (i) are recognized for the expected future tax consequences of events that have been recognized in the consolidated financial statements or the
 consolidated and separate entity tax returns; (ii) are attributable to differences
years when those temporary differences are expected to be recovered or settled.

In assessing the realizability of deferred tax assets, management considers whether it is more likely than not that some portion of the deferred tax assets will not be realized. In making this assessment, management considers the profitability of current core operations,
 and liabilities of a change in tax rates is recognized in income tax expense in the period of enactment. The valuation allowance is adjusted, by a charge or credit to income tax expense, as changes in facts and circumstances warrant.

Fair Value Measurements

## Financial Condition

 secondary market that provide

 previously discussed, consistent with generally accepted accounting principles.

 resulted in historically low short term market rates that have further resulted in low time deposit account yields which in turn has had the effect of decreasing interest expense
 of the borrowings reflects the use of long term and short term Federal Home Loan Bank advances to augment deposits as the Company's funding source for originating loans and investing in GSE investment securities.

Net interest income is the difference between interest income on interest-earning assets and interest expense on interest-bearing liabilities. Net interest income depends on the relative amounts of interest-earning assets and interest-bearing liabilities and the interest rates earned or paid on them, respectively

The following tables set forth balance sheets, average yields and costs, and certain other information for the periods indicated. All average balances are daily average balances. The yields set forth below include the effect of deferred fees, discounts and premiums, which are included in interest income.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

## Management of Market Risk

Qualitative Analysis. The majority of our assets and liabilities are monetary in nature. Consequently, one of our most significant forms of market risk is interest rate risk. Our assets, consisting primarily of mortgage loans, have longer maturities than our liabilities,

 by the Board of Directors, meets as needed to review our asset/liability policies and interest rate risk position.

Quantitative Analysis. The following table presents the Company's net portfolio value ("NPV"). These calculations were based upon assumptions believed to be fundamentally sound, although they may vary from assumptions utilized by other financial

| Change in calculation | Net Portfolio Value |  | \$ Change from PAR |  | \% Change from PAR |  | NPV as a \% of Assets |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  |  | NPV Ratio |  |  |  | Change |  |
| +300bp | \$ | 82,866 |  |  | \$ | $(55,288)$ | \$ | (40.02) | 7.45 | \% | (381) | bps |
| +200bp |  | 109,937 |  | $(28,217)$ |  | (20.42) | 9.53 |  | (173) | bps |
| +100bp |  | 129,385 |  | $(8,769)$ |  | (6.35) | 10.85 |  | (41) | bps |
| PAR |  | 138,154 |  | - |  | - | 11.26 |  | - | bps |
| -100bp |  | 155,523 |  | 17,369 |  | 12.57 | 12.36 |  | 110 | bps |

$\overline{\text { bp-basis points }}$

The table above indicates that at December 31, 2013 , in the event of a 100 basis point increase in interest rates, we would experience a $6.35 \%$ decrease in NPV.
Certain shortcomings are inherent in the methodology used in the above interest rate risk measurement. Modeling changes in NPV require making certain assumptions that may or may not reflect the manner in which actual yields and costs respond to changes in

 and do not provide a precise forecast of the effect of changes in market interest rates on our net interest income, and will differ from actual results.
ITEM 8.
FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA
The financial statements identified in Item 15(a)(1) hereof are included as Exhibit 13 and are incorporated hereunder.
ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE
The required disclosure is incorporated by reference to the BCB Bancorp, Inc. Proxy Statement for the 2014 Annual Meeting of Stockholders.

ITEM 9A. (T) CONTROLS AND PROCEDURES
(a) Evaluation of disclosure controls and procedures.

Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13 - 15
 in timely alerting them to the material information relating to us (or our consolidated subsidiaries) required to be included in our periodic SEC filings.
(b) Management's Annual Report on Internal Control over Financial Reporting

Management of BCB Bancorp, Inc., and subsidiaries (the "Company") is responsible for establishing and maintaining adequate internal control over financial reporting. The Company's system of internal control is designed under the supervision of management,
our Chief Executive Officer and Chief Financial Officer, to provide reasonable assurance regarding the reliability of our financial reporting and the preparation of the Company's consolidated financial statements for external reporting purposes in accordance with
 accounting principles generally accepted in the United States of America ("GAAP").

Our internal control over financial reporting includes policies and procedures that pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect transactions and dispositions of assets; provide reasonable assurances that transactions are

As of December 31, 2013 , management assessed the effectiveness of the Company's internal control over financial reporting based upon the framework established in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Based upon its assessment, management believes that the Company's internal control over financial reporting as of December 31, 2013 is effective using these criteria.

Notes to Consolidated Financial Statement
Note 2 - Summary of Significant Accounting Policies
Basis of Consolidated Financial Statement Presentation
The consolidated financial statements which include the accounts of the Company and its wholly-owned subsidiaries, the Bank, the Investment Company and Pamrapo Service Corporation, have been prepared in conformity with accounting principles generally accepted
in the United States of America. All significant intercompany accounts and transactions have been eliminated in consolidation
n preparing the consolidated financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities as of the date of the consolidated statement of financial condition and revenues and expenses for the periods then ended. Material estimates that are particularly susceptible to significant change relate to the determination of the allowance for loan losses, the identification of other-than-temporary impairment of securities, the determination as to whether deferred tax assets n amount which is more-likely-than-ne rair value of financial instruments. Management believes that the allowance for loan losses is adequate; no securities in unrealized loss positions are other-than-temporarily impaired; net deferred tax assets have been reduaced of hanges in economic conditions in the market area. Management's assessment regarding impairment of securities is based on future projections of cash flow which are subject to change. The realizability of deferred tax assets is partially based on projections of future axable income, which is subject to change. The determination of fair value requires the use of various inputs which are subject to frequent and ongoing changes.
n addition, various regulatory agencies, as an integral part of their examination process, periodically review the Bank's allowance for loan losses. Such agencies may require the Bank to recognize additions to the allowance based on their judgments about information vallable to them at the time of their examination.
In preparing these consolidated financial statements, the Company evaluated the events that occurred between December 31, 2013 and the date these consolidated financial statements were issued
Cash and cash equivalents include cash and amounts due from depository institutions and interest-bearing deposits in other banks having original maturities of three months or less.
Securities Available for Sale and Held to Maturity
Investments in debt securities that the Company has the positive intent and ability to hold to maturity are classified as held to maturity securities and reported at amortized cost. Debt and equity securities that are bought and held principally for the purpose of selling them in the near term are classified as trading securities and reported at fair value, with unrealized holding gains and losses included in earringss. Debt and equity securities not classified as trading securities or as held to maturity securities are classified as available efor sor sale securities ("AFS") and reported at fair value, with unrealized holding gains or losses, ne
are recorded on the trade date and are determined using the specific identification method
If the fair value of a security is less than its amortized cost, the security is deemed to be impaired. Management evaluates all securities with unrealized losses quarterly to determine if such impairments are "temporary" or "other-than-temporary" in accordance with Accounting Standards Codification ("ASC") Topic 320 , Investments - Debt and Equity Securities. Accordingly, temporary impairments are accounted for based upon the classification of the related securities as either available for sale or held to maturity. Temporary mpairments on available for sale securities are recognized, on a tax-effected basis, through Other Comprehensive Income ("OCl") with offsetting entries adjusting the carrying value of the securities and the balance of deferred taxes. Conversely, the carrying values
held to maturity securities are not adjusted for temporary impairments. Information concerning the amount and duration of temporary impairments on both available for sale and held to maturity securities is disclosed in the notes to the consolidated financial statements.

Other-than-temporary impairments are accounted for based upon several considerations. First, other-than-temporary impairments on debt securities that the Company has decided to sell as of the close of a fiscal period, or will, more likely than not, be required to sell prior o the full recovery of fair value to a level equal to or exceeding amortized cost, are recognized in earnings. If neither of these conditions regarding the likelihood of the sale of debt securities are applicable, then the other-than-temporary impairment is bifurcated into represents the remaining portion of the impairment not otherwise designated as credit-related. Credit-related, other-than-temporary impairments are recognized in earnings and noncredit-related, other-than-temporary impairments are recognized in OCI. Equity securities on which there is an unrealized loss that is deemed other-than-temporary impaired are written down to fair value with the write-down recognized in earnings.
Premiums and discounts on all securities are amortized/accreted to maturity using the interest method. Interest and dividend income on securities, which includes amortization of premiums and accretion of discounts, are recognized in the consolidated financial statements when earned. Gains or losses on sales are recorded on the trade date and are determined using the specific identification method

Loans held for sale consist primarily of residential mortgage loans intended for sale and are carried at the lower of cost or estimated fair market value using the aggregate method. These loans are generally sold with servicing rights released. Gains and losses recognized on
loan sales are based upon the cash proceeds received and the cost of the related loans sold.

Loans receivable are stated at unpaid principal balances, less net deferred loan origination fees and the allowance for loan losses. Loan origination fees and certain direct loan origination costs are deferred and amortized/accreted, as an adjustment of yield, over the contractual lives of the related loans.
The accrual of interest on loans that are contractually delinquent more than ninety days is discontinued and the related loans placed on nonaccrual status. All payments received while in nonaccrual status, are applied to principal until the loan has performed as expected Acquired Loans
Loans that were acquired in acquisitions are recorded at fair value with no carryover of the related allowance for credit losses. Determining the fair value of the loans involves estimating the amount and timing of principal and interest cash flows expected to be collected and discounting those cash flows at a market rate of interest.
The excess of cash flows expected at acquisition over the estimated fair value is referred to as the accretable discount and is recognized into interest income over the remaining life of the loan. The difference between contractually required payments at acquisition and the valuation to determine the need for an allowance for credit losses. Subsequent improvements in expected cash flows result in the esteversal fot dure credit losses expected to be inccured ove the or the loan. Subsequent decreases to the expected cash fows require an interest income over the remaining life of the loan using the interest method. The evaluation of the amount of future cash flows that is expected to be collected is performed in a similar manner as that used to determine our allowance for credit losses. Charge-offs of the principal amount on acquired loans would be first applied to the nonaccretable discount portion of the fair value adjustmen.
Acquired loans that met the criteria for nonaccrual of interest prior to the acquisition may be considered performing upon acquisition, regardless of whether the customer is contractually delinquent, if we can reasonably estimate the timing and amount of the expected cash determined that we cannot reasonably estimate future cash flows on any such acquired loans that are past due 90 days or more and continue to treat them as non-accrual
Allowance for Loan Losses
The allowance for loan losses is increased through provisions charged to operations and by recoveries, if any, on previously charged-off loans and reduced by charge-offs on loans which are determined to be a loss in accordance with Bank policy.
The allowance for loan losses is maintained at a level considered adequate to absorb loan losses. Management, in determining the allowance for loan losses, considers the risks inherent in its loan portfolio and changes in the nature and volume of its loan activities, along with the general economic and real estate market conditions. The Bank utilizes a two tier approach: (1) identification of impaired loans and establishment of specific loss allowances on such loans; and (2) establishment of general valuation allowances on the remainder
of its loan portfolio. The Bank maintains a loan review system which allows for a periodic review of its loan portfolio and the early identification of potentially impaired loans. Such a system takes into consideration, but is not limited to, delinquency status, size of loans, ypes and value of collateral, and financial condition of the borrowers. Specific loan loss allowances are established for impaired loans based on a review of such information and/or appraisals of the underlying collateral. General loan loss allowances are based upon a combination of factors including, but not limited to, actual loan loss experience, composition of the loan portfolio, current economic conditions, and management's judgment.
Although management believes that adequate specific and general allowances for loan losses are established, actual losses are dependent upon future events and, as such, further additions to the level of specific and general loan loss allowances may be necessary.
Impaired loans are measured based on the present value of expected future cash flows discounted at the loan's effective interest rate, or as a practical expedient, at the loan's observable market price or the fair value of the collateral if the loan is collateral dependent. A oan evaluated for impairment is deemed to be impaired when, based on current information and events, it is probable that the Bank will be unable to collect all amounts due according to the contractual terms of the loan agreement. All loans identified as impaired are Concentration of Risk

Financial instruments which potentially subject the Company and its subsidiaries to concentrations of credit risk consist of cash and cash equivalents, investment and mortgage-backed securities and loans.
Cash and cash equivalents include amounts placed with highly rated financial institutions. Securities include securities backed by the U.S. Government and other highly rated instruments. The Bank's lending activity is primarily concentrated in loans collateralized by real estate in the State of New Jersey. As a result, credit risk related to loans is broadly dependent on the real estate market and general economic conditions in the State.

BCB Bancorp, Inc. and Subsidiaries
Notes to Consolidated Financial Statements
Note 2 - Summary of Significant Accounting Policies (Continued
Premises and Equipment
Land is carried at cost. Buildings, building improvements, leasehold improvements and furniture, fixtures and equipment are carried at cost, less accumulated depreciation and amortization. Significant renovations and additions are charged to the property and equipment account. Maintenance and repairs are charged to expense in the period incurred. Depreciation charges are computed on the straight-line method over the following estimated useful lives of each type of asset.

|  | Years |
| :--- | :---: |
| Buildings | 40 |
| Building improvements | $7-40$ |
| Furniture, fixtures and equipment | $3-5$ |
| Leasehold improvements | Shorter of useful life or |
| term of lease |  |

Federal Home Loan Bank ("FHLB") of New York Stock
Federal law requires a member institution of the FHLB system to hold stock of its district FHLB according to a predetermined formula. Such stock is carried at cost.
Management evaluates the FHLB of New York stock for impairment in accordance with guidance on accounting by entities that lend to or finance the activities of others. Management's determination of whether this investment is impaired is based on their assessment of the ultimate recoverability of their cost rather than by recognizing temporary declines in value. The determination of whether a decline affects the ultimate recoverability of their cost is influenced by criteria such as (1) the significance of the decline in net assets of the
FHLB of New York as compared to the capital stock amount for the FHLB of New York and the length of time this situation has persisted, (2) commitments by the FHLB of New York to make payments required by law or regulation and the level of such payments in relation to the operating performance of the FHLB of New York, and (3) the impact of legislative and regulatory changes on institutions and, accordingly, on the customer base of the FHLB of New York

No impairment charges were recorded related to the FHLB of New York stock during 2013, 2012, or 2011
Other Real Estate Owned
Assets acquired through, or in lieu of, loan foreclosures are held for sale and are initially recorded at fair value less cost to sell at the date of foreclosure, establishing a new cost basis. Subsequent to foreclosure, valuations are periodically performed by management and

Income Taxes

The Company and its subsidiaries file a consolidated federal income tax return. Income taxes are allocated to the Company and its subsidiaries based upon their respective income or loss included in the consolidated income tax return. Separate state income tax returns The Company and its subsidiaries file a conss
are filed by the Company and its subsidiaries.
 reporting purposes. The tax effect of these temporary differences is accounted for as deferred taxes applicable to future periods. Deferred income tax expense or (benefitt) is determined by recognizing deferred tax assets and liabilities for the estimated future tax
consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the
years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in earnings in the period that includes the enactment date. The realization of deferred tax assets is assessed and a valuation allowance provided, when necessary, for that portion of the asset which is not more likely than not to be realized.

BCB Bancorp, Inc. and Subsidiaries
Notes to Consolidated Financial Statements
Note 2 - Summary of Significant Accounting Policies (Continued
The Company accounts for uncertainty in income taxes recognized in the consolidated financial statements in accordance with ASC Topic 740, Income Taxes, which prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return, and also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition. A tax position is recognized as a benefit only if it is
"more likely than not" that the tax position would be sustained in a tax examination, with a tax examination being presumed to occur. The amount recognized is the largest amount of tax benefit that has a likelihood of being realized on examination of more than 50 "more likely than not" that the tax position would be sustained in a tax examination, with a tax examination being presumed to occur. The amount recognized is the largest amount of tax benefit that has a likelihood of being realized on examination of more than 50
percent. For tax positions not meeting the "more likely than not" test, no tax benefit is recorded. Under the "more-likely-than-not" threshold guidelines, the Company believes no significant uncertain tax positions exist, either individually or in the aggregate, that would give rise to the non-recognition of an existing tax benefit. The Company recognizes interest and penalties on unrecognized tax benefits in income taxes expense in the Consolidated Statement of Operations. The Company did not recognize any interest in 2011 , however
he Company did recognize $\$ 11,000$ for penalties assessed during an audit of prior periods. The Company did not recognize any interest and penalties for the years ended December 31,2013 and 2012 . The tax years subject to examination by the Federal taxing authority he Company did recognize $\$ 11,000$ for penalties assessed during an audit of prior periods. The Company did not recognize any interest and penalties for the years ended December 31, 2013 and 2012.
are the years ended December $31,2012,2011$ and 2010 . The tax years subject to examination by the State taxing authority are the years ended December 31, 2012, 2011,2010 and 2009 .
Net Income (Loss) per Common Share
Basic net income (loss) per common share is computed by dividing net income (loss) less dividends on preferred stock by the weighted average number of shares of common stock outstanding. The diluted net income (loss) per common share is computed by adjusting the weighted average number of shares of common stock outstanding to include the effects of outstanding stock options, if dilutive, using the treasury stock method. Dilution is not applicable in periods of net loss. For the years ended December 31 , 2013 and 2012 , the
difference in the weighted average number of basic and diluted common shares was due solely to the effects of outstanding stock options. No adjustments to net income (loss) were necessary in calculating basic and diluted net income (loss) per share. For the years ended difference in the weighted average number of basic and diluted common shares was due solely to the effects of outstanding stock optio
December 31, 2013 and 2012 , the weighted average number of outstanding options considered to be anti-dilutive was 213,482 , and 0 .

## Stock-Based Compensation Plans

The Company, under plans approved by its stockholders in 2011,2003 and 2002, has granted stock options to employees and outside directors. See note 12 for additional information as to option grants. Compensation expense recognized for all option grants is net of estimated forfeitures and is recognized over the awards' respective requisite service periods. The fair values relating to all options granted are estimated using a Black-Scholes option pricing model. Expected volatilities are based on historical volatility of our stock and
other factors, such as implied market volatility using this options expected term. The Company used the mid-point of the original vesting period and original option life to estimate the options' expected term, which represents the period of time that the options granted are expected to be outstanding. The risk-free rate for periods within the contractual life of the option is based on the U.S. Treasury yield curve in effect at the time of grant. The Company recognizes compensation expense for the fair values of these option awards, which have graded vesting, on a straight-line basis over the requisite service period of these awards.
Benefit Plans

The Company acquired through the merger with Pamrapo Bancorp, Inc. a non-contributory defined benefit pension plan covering all eligible employees of Pamrapo Savings Bank. Effective January 1 , 2010 , the defined benefit pension plan (the Pension Plan), was rozen by Pamrapo Savings Bank. All benefits for eligible participants accrued in the "Pension Plan" to the freeze date have been retained. The benefits are based on years of service and employee's compensation. The defined benefit plan is funded in conformity with funding requirements of applicable government regulations. Prior service costs for the defined benefit plan generally are amortized over the estimated remaining service periods of employees. Additionally, with the merger with Pamrapo Bancorp, Inc., certain former employees of Pamrapo Bank are covered under a Supplemental Executive Retirement Plan ("SERP"), an unfunded non-qualified deferred retirement plan. Participants who retire at the age of 65 (the "Normal Retirement Age"), are entitled to an annual retirement benefit
equal to $55 \%$ of compensation reduced by their retirement plan annual benefits. Participants retiring before the Normal Retirement Age receive the same benefits reduced by a percentage based on years of service to the Company and the number of years prior to the Normal Retirement Age that participants retire.
Comprehensive Income (Loss)
The Company records unrealized gains and losses, net of deferred income taxes, on securities available for sale in accumulated other comprehensive income (loss). Realized gains and losses, if any, are reclassified to non-interest income upon sale of the related securities

## Reclassification

Certain amounts as of and for the years ended December 31, 2012 and 2011 have been reclassified to conform to the current year's presentation. These changes had
no effect on the Company's results of operations or financial position.

The Financial Accounting Standards Board ("FASB") has issued ASU No. 2014-04, Receivable-Troubled Debt Restructurings by Creditors (Sub-Topic 310-40): Reclassification of Residential Real Estate Collateralized Consumer Mortgage Loans upon Foreclosure. The

 agreement. The amendments in this ASU are effective for annual periods and interim periods within those annual pe
pronouncement, when adopted, will have a material impact on the Company's results of operations or financial position.

The Financial Accounting Standards Board ("FASB") has issued ASU No. 2013-11, Income Taxes (Topic 740): Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists. The
 the disallowance of a tax position or the tax law of the applicable jurisdiction does not require the entity to use, and the entity does not intend to use, the deferred tax asset for such purpose, the unrecognized tax benefit should be presented in the financial statements as a ASU are effective for fiscal years, and interim periods within those years, beginning after December 15, 2013. Early adoption is permitted. The amendments should be applied prospectively to all unrecognized tax benefits that exist at the effective date. Retrospective application is permitted. The Company does not believe this pronouncement, when adopted, will have a material impact on the Company's results of operations or financial position.
The Financial Accounting Standards Board ("FASB") has issued Accounting Standards Update ("ASU") 2013-02, Comprehensive Income (Topic 220): Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income. This ASU is intended to mprove the reporting of reclassifications out of accumulated other comprehensive income. The ASU requires an entity to report, either on the face of the statement where net income is presented or in the notes to the financial statements, the effect of significant reclassifications out of accumulated other comprehensive income on the respective line items in net income if the amount being reclassified is required under U.S. GAAP to be reclassified in their entirety to net income. For other amounts that are not required under U.S,
GAAP to be reclassified in their entirety to net income in the same reporting period, an entity is required to cross-reference other disclosures required under U.S. GAAP that provide additional detail about those amounts. The amendments in this ASU apply to all entities hat issue financial statements that are presented in conformity with U.S. GAAP and that report items of other comprehensive income. For public entities, the amendments in this ASU are effective prospectively for reporting periods beginning after December 15 , 2012. The Company adopted this ASU on January 1, 2013 by including the required disclosures in the notes included on the consolidated statements of comprehensive income. The adoption of ASU 2013-02 did not have a significant impact on the Company's financial condition, results of operations, or cash flows.

## Note 3 - Related Party Transaction

The Bank leases a property from NEW BAY LLC (" NEW BAY"), a limited liability corporation $100 \%$ owned by a majority of the Directors and officers of the Bank. In conjunction with the lease, NEW BAY substantially removed the pre-existing structure on the site
and constructed a new building suitable to the Bank for its banking operations. Under the terms of the lease, the cost of this project was reimbursed to NEWBAY by the Bank. The amount reimbursed, which occurred during the year 2000 , was $\$ 943,000$, and is included and constructed a new building suitable to the Bank for its banking operations. Under the

 occupancy expense of premises. The rent shall be reset every five years thereafter at the fair market rental value at the end of each preceding five year period. The Bank expects to pay NEW BAY $\$ 165,000$ for the year 2014 .

On February 8, 2012, the Bank entered into a two year lease of a warehouse with a Director of the Bank. The purpose of the lease is to store documents, consumable supplies, equipment, and furniture not currently in use by the Bank. The Bank paid $\$ 20,400$ in the year 2013, which is reflected in the 2013 Consolidated Statement of Operations within occupancy expense of premises. The Bank expects to pay $\$ 20,400$ for the year 2014.
The Bank leases a property in Woodbridge, New Jersey from ACB Development LLC, a portion of which is owned by two Directors. During 2013, the total lease payments of $\$ 165,106$ were made to the limited liability company. Payments under the lease currently total $\$ 13,953$ per month. The Bank paid $\$ 114,000$ in rent in the year 2013 , which is reflected in the 2013 Consolidated Statement of Operations within occupancy expense of premises. The Bank expects to pay $\$ 120,000$ for the year 2014 .

## Allowance for Loan Losses

Management reviews the adequacy of the allowance on at least a quarterly basis to ensure that the provision for loan losses has been charged against earnings in an amount necessary to maintain the allowance at a level that is adequate based on management's assessment of probable es
an unallocated

The Company consistently applies the following comprehensive methodology. During the quarterly review of the allowance for loan losses, the Company considers a variety of factors that include: General economic conditions.

Trends in charge-offs.
Trends and levels of delinquent loans.
Trends and levels of non-performing loans, including loans over 90 days delinquent.
Trends in volume and terms of loans.
Levels of allowance for specific classified loans.
Credit concentrations.

The methodology includes the segregation of the loan portfolio into two divisions. Loans that are performing and loans that are impaired. Loans which are performing are evaluated homogeneously by loan class or loan type. The allowance of performing loans is evaluated based on historical loan experience, including
consideration of peer loss analysis, with an adju stment for qualitative factors due to economic conditions in the market. Impaired loans are loans which are more than 90 by current appraisal, estimated economic factor, or net present value. Management reviews the overall estimate for feasibility and bases the loan loss provision accordingly

The loan portfolio is segmented into the following loan classes, where the risk level for each class is analyzed when determining the allowance for loan losses :
Residential single family real estate loans involve certain risks such as interest rate risk and risk of non-repayment. Adjustable-rate residential family real estate loans decreases the interest rate risk to the Bank that is associated with changes in interest rates but
 by higher interest rates. Repayment risk may be affected by a number of factors including, but not necessarily limited to, job loss, divorce, illness and personal bankruptcy of the borrower.

BCB Bancorp, Inc. and Subsidiaries Notes to Consolidated Financial Statement
Note 6 - Loans Receivable and Allowance for Loan Losses (Continued)

 additional risks because of the inherent difficulty in estimating both a property's value at completion of the project and the estimated cost (including interest) of the project. The nature
speculative construction loans to a builder are not necessarily pre-sold and thus pose a greater potential risk to the Bank than construction loans to individuals on their personal residence.

Commercial and multi-family real estate lending entails significant additional risks as compared with residential family property lending. Such loans typically involve large loan balances to single borrowers or groups of related borrowers. The payment experience on such loans is typically dependent on the successful operation of the real estate project. The success of such projects is sensitive to changes in supply and demand conditions in the market for commercial real estate as well as economic conditions generally.

Commercial business lending , including lines of credit, is generally considered higher risk due to the concentration of principal in a limited number of loans and borrowers and the effects of general economic conditions on the business. Commercial business loans are primarily secured by inventories and other business assets. In most cases, any repossessed collateral for a defaulted commercial business loans will not provide an adequate source of repayment of the outstanding loan balance.

Home equity lending entails certain risks such as interest rate risk and risk of non-repayment. The marketability of the underlying property may be adversely affected by higher interest rates, decreasing the collateral securing the loan. Repayment risk can be affected

Other c onsumer loans generally have more credit risk because of the type and nature of the collateral and, in certain cases, the absence of collateral. Consumer loans generally have shorter terms and higher interest rates than other lending. In addition, consumer lending collections are dependent on the borrower's
adequate source of repayment of the outstanding loan

The Company also maintains an unallocated allowance. The unallocated allowance is used to cover any factors or conditions which may cause a potential loan loss but are not specifically identifiable. It is prudent to maintain an unallocated portion of the allowance because no matter how detailed an analysis of potential loan losses is performed, these estimates lack some element of precision. Management must make estimates using assumptions and information that is often subjective and changing rapidly.

Classified Assets. Our policies provide for a classification system for problem assets. Under this classification system, problem assets are classified as "substandard," "doubtful," "loss" or "special mention." An asset is considered substandard if it is inadequately

 special mention because of potential weaknesses that do not currently warrant classification in one of the aforementioned categories

When we classify problem assets, we may establish general allowances for loan losses in an amount deemed prudent by management. General allowances represent loss allowances which have been established to recognize the inherent risk associated with lending

 revalued.

The Company's internal credit risk grades are based on the definitions currently utilized by the banking regulatory agencies. The grades assigned and definitions are as follows, and loans graded excellent, above average, good and watch list (risk ratings $1-4$ ) are treated as "pass" for grading purposes:

5 - Special Mention-Loans currently performing but with potential weaknesses including adverse trends in borrower's operations, credit quality, financial strength, or possible collateral deficiency
6 - Substandard - Loans that are inadequately protected by current sound worth, paying capacity, and collateral support. Loans on "nonaccrual" status. The loan needs special and corrective attention
7 - Doubtful - Weaknesses in credit quality and collateral support make full collection improbable, but pending reasonable factors remain sufficient to defer the loss status.
8 - Loss - Continuance as a bankable asset is not warranted. However, this does not preclude future attempts at partial recovery.
 The following table sets forth the activity in the Bank's allowance for loan losses for the year ended December 31, 2013 and recorded investment in

## Plan Assets

Investment Policies and Strategies
 commitment).
 tolerance and long-term objectives for the Plan. These parameters will be reviewed on a regular basis and subject to change following discussions between the Bank and the Trustee.
 circumstances. Any such fundamental amendments in strategy will be discussed between the Bank and the Trustee prior to implementation.
Based on the above considerations, the following asset allocation ranges will be implemented:

| Asset Allocation Parameters by Asset Class |  |  |  |
| :---: | :---: | :---: | :---: |
|  | Minimum | Target | Maximum |
| Equity |  |  |  |
| Large-Cap U.S. |  | 10\% |  |
| Mid/Small-Cap U.S. |  | 20\% |  |
| Asset Blend- U.S. |  | 25\% |  |
| Non-U.S. |  | 5\% |  |
| Total-Equity | 40\% | 60\% | 60\% |
| Fixed Income |  |  |  |
| Long Duration |  | 38\% |  |
| Money Market/Certificates of Deposit |  | 2\% |  |
| Total-Fixed Income | 40\% | 40\% | 60\% |

 allowing the underlying investments to fluctuate within the stated policy ranges. The Plan will maintain a cash equivalents component (not to exceed $3 \%$ under normal circumstances) within the fixed income allocation for liquidity purposes.
 changing risk/return opportunities of the respective asset classes.

## Determination of Long-Term Rate-of Return

| Money Market | \$ | 77,231 | \$ | 77,231 | \$ | $\cdots$ | \$ |
| Total | \$ | 7,812,064 | \$ | 7,812,064 | \$ | $=$ | \$ |

a) Large-value portfolios invest primarily in big U.S. companies that are less expensive or growing more slowly than other large-cap stocks. Stocks in the top $70 \%$ of the capitalization of the U.S. equity market are defined as large cap. Value is defined based on low
b) Some mid-cap value portfolios focus on medium-size companies while others land here because they own a mix of small-, mid-, and large-cap stocks. All look for U.S. stocks that are less expensive or growing more slowly than the market. The U.S. mid-cap rang for market capitalization typically falls between $\$ 1$ billion and $\$ 8$ billion and represents $20 \%$ of the total capitalization of the U.S. equity market. Value is defined based on low valuations (low price ratios and high dividend yields) and slow growth (low growth rates for earnings, sales, book value, and cash flow
price ratios and high dividend yields) and slow growth (low growth rates for earnings, sales, book value, and cash flow).
Foreign large-growth portfolios focus on high-priced growth stocks, mainly outside of the United States. Most of these portfolios divide their assets among a dozen or more developed markets, including Japan, Britain, France, and Germany. These portfolios primarily invest in stocks that have market caps in the top $70 \%$ of each economically integrated market (such as Europe or Asia ex-Japan). Growth is defined based on fast growth (high growth rates for earnings, sales, book value, and cash flow) and high valuations (high price ratios and low dividend yields). These portfolios typically will have less than $20 \%$ of assets invested in U.S. stocks.
World-bond portfolios invest $40 \%$ or more of their assets in foreign bonds. Some world-bond portfolios follow in
developed or emerging markets. Some portfolios invest exclusively outside the U.S., while others regularly invest in both U.S. and non- favoring high-quality bonds from developed markets. Others are more adventurous and own some lower-quality bonds from

g) Inflation-protected bond portfolios invest primarily in debt securities that adjust their principal values in line with the rate of inflation. These bonds can be issued by any organization, but the U.S. Treasury is currently the largest issuer for these types of securities
cypically have $20 \%$ to $50 \%$ of assets in equities and $50 \%$ to $80 \%$ of assets in fixed income and cash.
i) World-allocation portfolios seek to provide both capital appreciation and income by investing in three major areas: stocks, bonds, and cash. While these portfolios do explore the whole world, most of them focus on the U.S., Canada, Japan, and the larger markets in

The Company expects to contribute, based upon actuarial estimates, approximately $\$ 500,000$ to the pension plan in 2014.

Benefit payments are expected to be paid for the years ended December 31 as follows (In thousands):

| 2014 | $\mathbf{5 9 6}$ |  |
| :--- | ---: | ---: |
| 2015 | $\mathbf{5}$ | $\mathbf{5 9 1}$ |
| 2016 | $\mathbf{6 0 1}$ |  |
| 2017 | $\mathbf{5 9 5}$ |  |
| 2018 | $\mathbf{6 1 0}$ |  |
| $2019-2023$ | $\mathbf{2 , 9 6 3}$ |  |

price ratios and high dividend yields) and slow growth (low growth rates for earnings, sales, book value, and cash flow).
d) Foreign large-growth portfolios focus on high-priced growth stocks, mainly outside of the United States. Most of these portfolios Foreign large-growth portfolios focus on high-priced growth stocks, mainly outside of the United States. Most of these portfolios divide their assets among a dozen or more developed markets, including Japan, Britain, France, and Germany. These portfolio primarily invest in stocks that have market caps in the top $70 \%$ of each economically integrated market (such as Europe or Asia ex-len) Gre shat a (high price ratios and low dividend yields). These portfolios typically will have less than $20 \%$ of assets invested in U.S. stocks.
World-bond portfolios invest $40 \%$ or more of their assets in foreign bonds. Some world-bond portfolios follow a conservativ.
developed or emerging markets. Some portfolios invest exclusively outside the U.S., while others regularly invest in both U.S. and non- U.S. bonds. Intermediate-government portfolios have at least $90 \%$ of their bond holdings in bonds backed by the U.S. government or by government-linked agencies. This backing minimizes the credit risk of these portfolios, as the U.S. government is unlikely to default on its
debit. These portfolios have durations typically between 3.5 and 6.0 years. Consequently, the group's performance-and its level of volatility- tends to fall between that of the short government and long government bond categories. Inflation-protected bond portfolios invest primarily in debt securities that adjust their principal values in line with the rate of inflation. These bonds can be issued by any organization, but the U.S. Treasury is currently the largest issuer for these types of securities. Conservative-allocation portfolios seek to provide both capitau appreciation and income by investing in three major areas: stocks, bonds, and cash. These portfolios tend to hold smaller positions in stocks than moderate-allocation portfolios. These portfolios
typically have $20 \%$ to $50 \%$ of assets in equities and $50 \%$ to $80 \%$ of assets in fixed income and cash. World-allocation portfolios seek to provide both capital appreciation and income by investing in three major areas: stocks, bonds, and cash. While these portfolios do explore the whole world, most of them focus on the U.S., Canada, Japan, and the larger markets in Europe. It is rare for such portfolios to invest more than $10 \%$ of their assets in emerging markets. These portfolios typically have at least $10 \%$ of assets in bonds, less than $70 \%$ of assets in stocks, and at least $40 \%$ of assets in non-U.S. stocks or bonds.

| Standby letters of credit |  | 1,957 |  | 2.414 |
| Construction loans in process |  | 46,262 |  | 3,774 |
| Unused lines of credit |  | 64,264 |  | 41,824 |
|  | \$ | 143,394 |  | 97,105 |

 the commitments are expected to expire without being drawn upon, total commitment amounts do not necessarily represent future cash requirements. The Bank evaluates each customer's creal
necessary by the Bank upon extension of credit, is based on management's credit evaluation of the counterparty. Collateral held varies but primarily includes residential real estate properties.
The Company and its subsidiaries also have, in the normal course of business, commitments for services and supplies. Management does not anticipate losses on any of these transactions.
 statements. As of December 31, 201 3, the Company and its subsidiaries were not parties to any material litigation.

BCB Bancorp, Inc. and Subsidiaries
Notes to Consolidated Financial Statements
Note 17 - Fair Value Measurements and Fair Values of Financial Instruments
 indicative of the amounts the Company could have realized in a sales transaction on the dates indicated. The estimated fair value amounts have been measured as of their respective year-ends and have not been re-evaluated
financial statements subsequent to those respective dates. As such, the estimated fair values of these financial instruments subsequent to the respective reporting dates may be different than the amounts reported at each year-end.
 or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are as follows:

Level 1 : Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.
Level 2: Quoted prices in markets that are not active, or inputs that are observable either directly or indirectly, for substantially the full term of the asset or liability
Level 3: Prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable (i.e., supported with little or no market activity).
An asset's or liability's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement.
For assets and liabilities measured at fair value on a recurring basis, the fair value measurements by level within the fair value hierarchy are as follows:

BCB Bancorp, Inc. and Subsidiaries
Notes to Consolidated Financial Statements
Note 17 - Fair Value Measurements and Fair Values of Financial Instruments (Continued)

|  | Total |  | (Level 1) (Level 2) |  |  |  |  |  |

|  |  |  | Quoted Prices in |  | Significant |  | (Level 3) |  |
|  |  |  | Active Markets |  | Other |  | Significant |  |
|  |  |  | for Identical |  | Inputs |  | Inputs |  |
| As of December 31, 2013: |  |  |  |  |  |  |  |  |
| Securities available for sale - Equity Securities | \$ | 1,104 | \$ | 1,104 | \$ | - | \$ | - |
| As of December 31, 2012: |  |  |  |  |  |  |  |  |
| Securities available for sale - Equity Securities | \$ | 1,240 | \$ | 1,240 | \$ | - | \$ | - |

For assets and liabilities measured at fair value on a nonrecurring basis, the fair value measurements by level within the fair value hierarchy are as follows:

|  | Total |  |  | vel 1) | (Level 2) |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  |  | Quoted Prices in Active Markets |  | Significant |  | (Level 3) |  |
|  |  |  |  | her |  | Significant |
|  |  |  | for Identical | Observable <br> Inputs |  | UnobservableInputs |  |
| Description |  |  |  |  |  | sets |
| As of December 31, 2013: |  |  |  |  |  |  |  |  |
| Impaired loans | \$ | 22,038 |  |  | \$ |  |  | - | \$ | - | \$ | 22,038 |
| As of December 31, 2012: |  |  |  |  |  |  |  |  |
| Impaired loans | \$ | 21,338 | \$ | - | \$ | - | \$ | 21,338 |
| Other Real estate owned | \$ | 2,215 | \$ | - | \$ | - | \$ | 2,215 |

The following table presents additional quantitative information about assets measured at fair value on a nonrecurring basis and for which the Company has utilized adjusted Level 3 inputs to determine fair value, (Dollars in thousands):

|  |  | Fair Value <br> Estimate | Valuation <br> Techniques | Unobservable Input | Range |
| :---: | :---: | :---: | :---: | :---: | :---: |
| December 31, 2013: |  |  |  |  |  |
| Impaired Loans | \$ | 22,038 | Appraisal of collateral (1) | Appraisal adjustments (2) | 0\%-10\% |
|  |  |  |  | Liquidation expenses (3) | 0\%-10\% |

|  |  | Fair Value <br> Estimate | Valuation <br> Techniques | Unobservable Input | Range |
| :---: | :---: | :---: | :---: | :---: | :---: |
| December 31, 2012: |  |  |  |  |  |
| Impaired Loans | \$ | 21,338 | Appraisal of collateral (1) | Appraisal adjustments (2) | 0\%-10\% |
|  |  |  |  | Liquidation expenses (3) | 0\%-10\% |
| Other Real Estate Owned | \$ | 2,215 | Appraisal of collateral (1) | Appraisal adjustments (2) | 0\%-20\% |

(1) Fair value is generally determined through independent appraisals of the underlying collateral, which generally include various level 3 inputs which are not identifiable.
(2) Appraisals may be adjusted by management for qualitative factors such as economic conditions and estimated liquidation expenses. The range of liquidation expenses and other appraisal adjustments are presented as a percent of the appraisal.
(3) Includes qualitative adjustments by management and estimated liquidation expenses.

BCB Bancorp, Inc. and Subsidiaries
Notes to Consolidated Financial Statements
Note 17 - Fair Value Measurements and Fair Values of Financial Instruments (Continued)
 subjectivity used in making the
December 31, 2013 and 2012 :
Cash and Cash Equivalents (Carried at Cost)
The carrying amounts reported in the consolidated statements of financial condition for cash and short-term instruments approximate those assets' fair values.
Securities

Loans Held for Sale (Carried at Lower of Cost or Fair Value)
The fair value of loans held for sale is determined, when possible, using quoted secondary-market prices. If no such quoted prices exist, the fair value of a loan is determined using quoted prices for a similar loan or loans, adjusted for specific attributes of that loan. Loans held for sale are carried at their cost.
Loans Receivable (Carried at Cost)
The fair values of loans, except for certain impaired loans, are estimated using discounted cash flow analyses, using market rates at the balance sheet date that reflect the credit and interest rate-risk inherent in the loans. Projected future cash flows are calculated based upon contractual maturity or call dates, projected repayments and prepayments of principal. Generally, for variable rate loans that reprice frequently and with no significant change in credit risk, fair values are based on carrying values.
Impaired Loans (Generally Carried at Fair Value)

FHLB of New York Stock (Carried at Cost)
The carrying amount of restricted investment in bank stock approximates fair value, and considers the limited marketability of such securities.

## Interest Receivable and Payable (Carried at Cost)

The carrying amount of interest receivable and interest payable approximates its fair value.

## Deposits (Carried at Cost)

 Tertificates of deposit are estimated using a discounted cash flow calculation that applies interest rates currently being offered in the market on certificates to a schedule of aggregated expected monthly maturities on time deposits.

## Long-Term Debt (Carried at Cost)

Off-Balance Sheet Financial Instruments (Disclosed at Cost)

The carrying values and estimated fair values of financial instruments were as follows at December 31, 2013 and 2012 :

| As of December 31, 2013 |  |  |  |  |  |  |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
