Last year's financial results reflect the ups and downs we faced in a year of exciting advancement, reinforcing our position as a leading casino entertainment company.

There's no question 2007 wasn't without challenges. In northwest Indiana, our Blue Chip Casino Hotel was significantly impacted by the opening of a new competitor. The closure of the Stardust in 2006 impacted last year's financial results, as did the continued normalization of results at Treasure Chest Casino.

At the same time, a number of encouraging trends developed last year despite these challenges. Our Downtown Las Vegas properties continued to out-

perform the Downtown market. Our Las Vegas Locals business remained resilient in the face of a weakening economy toward the end of the year, posting three consecutive quarters of year-over-year growth beginning in the second quarter 2007. Borgata remained the leader in Atlantic City, even while the market lost ground in the face of new competition in Pennsylvania.

Although the weakening economy impacted customer behavior late in the year, our results from 2007 showed the effectiveness of our strategy of geographic diversification. And in spite of multiple challenges, several of our operations showed year-over-year growth, which

is indicative of our strong operating base and experienced management team. We see much brighter days ahead, as two key growth initiatives are expected to be completed in 2008.

BUILDING A GREAT COMPANY

From our earliest beginnings in the 1970s, we made a commitment to our shareholders and our employees to create an operating style built around family. This style has come to set our business apart from the rest of the field. In a highly competitive industry, our Boyd Style of hospitality has come to define us in a most unique way.

The proof is in the 395 "Best of" awards Boyd Gaming properties earned in 2007 from *Casino Player* and *Strictly Slots* magazines, including more than 150 first-place nods. We were particularly proud of this recognition because they're based directly on the votes of casino customers across the country.

Leadership is also an integral part of our Boyd Style of hospitality. As successful as the past decades have been, our Company continues to grow and evolve, and we saw this year as the ideal moment to begin a transition in leadership. In that regard, we announced several strategic changes at the highest levels of our management team in 2007.

In July, we announced that Bill Boyd would step aside as Chief Executive Officer at the end of the year, allowing him to focus on one of his favorite aspects of our business, interacting with the employees and customers of Boyd Gaming. That transition occurred on January 1, 2008, as Bill moved into the newly established position of Executive Chairman and turned over the Chief Executive reins to long-time Company veteran Keith Smith. Keith was succeeded as Chief Operating Officer by Paul Chakmak, formerly our Chief Financial Officer; replacing Paul as Chief Financial Officer was Josh Hirsberg, who brings 17 years of financial experience in the gaming industry.

LETTER

3

LETTER

As our new Chief Executive, Keith has an ambitious task ahead... lead Boyd Gaming in a period of unprecedented growth, as we bring a number of ambitious new projects to fruition in key gaming markets.

The most exciting of these new developments is on the Las Vegas Strip, where in 2007 we commenced construction on what promises to be one of our greatest achievements in our history... Echelon.

As our most ambitious and upscale destination to date, Echelon will span 87 acres, including 22 acres available for future development. It will include five distinct hotels, an extensive array of dining, night-life, shopping and entertainment experiences, and more than 750,000 square feet of meeting and convention space. Assisting us in bringing this exciting vision to life are some of the most powerful and respected strategic partners from around the globe, including Morgans Hotel Group, Shangri-La Hotels and Resorts, AEG Live and General Growth Properties.

In December, Echelon launched The Meeting Center, our 650,000 square-foot convention center scheduled to open with Echelon in the third quarter 2010. The launch of our meeting and convention sales effort at Echelon is a key milestone, as it represents the earliest signs of life for a resort experience that is still under construction.

The demographic trends of Las Vegas are expanding to include more upscale leisure and business travelers. According to industry statistics, vacationers seeking luxury experiences are currently underserved in Las Vegas, while convention visitors have increased at nearly three times the rate of leisure visitors since 1990.

Echelon is aimed squarely at these market segments. With this resort, we will be able to offer upscale visitors a wide range of fun and unique entertainment experiences. No two visits to Echelon need be the same, an advantage we believe will compel loyalty and repeat visitation among the broadest possible range of upscale travelers.

In both Indiana and New Jersey, we face heightened competition, but we anticipated that dynamic by planning to expand those operations with projects that we believe will strengthen our competitive positions in these markets.

We remain optimistic about our long-term prospects in northwest Indiana, as construction continues on a \$130 million expansion project at Blue Chip in Michigan City. This project will add a dramatic 22-story, 300-room hotel tower to Blue Chip that will transform the Michigan City skyline when it opens in December 2008.

Our investment in Atlantic City is growing as well, as we ready to open The Water Club at Borgata. This \$400 million, 800-room hotel will be Atlantic City's first boutique hotel experience and is expected to further solidify Borgata's position as a premiere destination resort. Set for completion in June 2008, The Water Club will feature five swimming pools, a dramatic "Spa in the Sky," and additional meeting and retail space.

“We are creating a destination resort that will be seen for miles, and yet, be accessible within feet. With Echelon, we are making the most of our extraordinary and highly-visible Las Vegas Strip site by building five hotels with world class amenities, in one dramatic phase.”

William S. Boyd
Executive Chairman

BUILDING FOR THE FUTURE

Success rarely happens without challenges, and the story of our Company is highlighted by triumph in the face of adversity time and time again. Our decades-long track record speaks volumes about our ability to persevere and succeed under the most extreme circumstances. The current period of challenge and transition is no different, and we are building the foundation today for a much stronger Boyd Gaming, well-positioned for what we believe will be a period of substantial, sustained growth.

Ready access to capital is the lifeblood of any growing company, and our credit position is as strong as ever. In May, we secured a new \$4 billion revolving credit facility that provides us capital at extremely attractive rates, an important advantage in what has become an increasingly difficult credit market.

After nearly a year of strategic planning, we have begun the rollout of our One Card branding initiative, with a nationwide, consolidated players club program central to our effort. We believe that

the introduction of our One Card is a key step forward for our Company, and one that will unify our casinos and drive cross-property visitation nationwide. The first phase began in January 2008 when our four Las Vegas Locals casinos... Sam's Town, Suncoast, The Orleans and Gold Coast... were unified under a new Club Coast players card program.

Now underway is the second phase of the rollout. The **B** Connected program introduces a single players club program for our six casino properties in the Midwest and South. Once the rollout is complete, players will be able to use their cards at Boyd Gaming properties in five states: Nevada, Illinois, Indiana, Louisiana and Mississippi.

Forging ahead in the coming year, we will remain focused on our three main goals... improving our operating performance, continuing to execute on our current growth strategy, and rolling out our branding initiatives. We remain confident in the strength of our Company to successfully meet whatever challenges lie ahead.

Our milestone moments from the last year are the threads of success shaping our future, one we believe is bright and promising. Our employees have been central to our success, and much like the first three decades of our Company, we are charting a course, leading us to a bright future.

Thank you for your support. We look forward to sharing more with you as we build for the next era of growth.

Sincerely,

William S. Boyd

THE WATER CLUB

ON SCHEDULE FOR JUNE OPENING

Opening June 2008, The Water Club – a signature hotel by Borgata – will introduce a new brand of hospitality to Atlantic City. The Water Club will offer a unique personality of its own, while offering direct access to and from the entertainment, nightlife and dining experiences of Borgata Hotel Casino and Spa.

Shortly after we opened Borgata, we announced our plans for The Water Club, recognizing the high consumer demand for a second hotel under the Borgata brand of hospitality. The Water Club will continue Borgata's efforts in redefining Atlantic City as a travel destination by introducing a new, uncharted hotel experience to the market.

Glass-enclosed Italian marble showers, high-definition flat-panel televisions, 400-thread-count Egyptian cotton sheets, and his-and-hers bathrobes and slippers are just a handful of the luxuries that will be found in each of The Water Club's 800 finely-appointed guestrooms and suites. But the pampering and amenities won't stop there.

The 43-story, \$400 million hotel will also feature a two-story "spa in the sky," 18,000 square feet of meeting space; three chic Residences; five heated pools (both indoor and outdoor), each offering a distinct experience; and six designer retail outlets.

Conceived as an exclusive extension to the sophisticated, international style that already defines Borgata, The Water Club will offer a serenely cosmopolitan setting, blending high design and modern amenities within an intimate and highly-personalized guest experience. The element of water will introduce the notion of vitality and set the overall aesthetic tone.

The debut of The Water Club will complete Borgata's \$1.7 billion master plan development and allow more guests than ever before to experience the luxury lifestyle that defines Borgata.

BLUE CHIP CASINO HOTEL Receives Economic Development Award

In February 2008, Blue Chip Casino Hotel was recognized for outstanding leadership in economic development by the Michigan City Area Chamber of Commerce.

Blue Chip offers exhilarating casino excitement in a comfortable, customer-friendly setting. Located an hour's drive east of Chicago in Michigan City, Indiana, Blue Chip features a 65,000-square-foot, single-level casino, a 102,000-square-foot pavilion with three restaurants, a coffee bar, gift shop, entertainment lounge and a 184-room hotel. In early 2007, construction began on a \$130 million expansion that will include a 22-story, 300-room hotel tower, a spa and fitness center, additional meeting and convention facilities and new nightlife and dining experiences.

Chamber of Commerce President Tim Bietry presented the 2007 President's Award in honor of the \$300 million investment Blue Chip has made to Michigan City's North End. This investment includes \$170 million for its new casino, which opened in 2006, and the current hotel expansion project. The custom award-winning design depicts Blue Chip's new hotel tower, which is currently under construction. When finished in December 2008, the Blue Chip Hotel will be one of the tallest structures in the northwest Indiana region.

Echelon Launches The Meeting Center

In December, Echelon began accepting group bookings for The Meeting Center, a 650,000-square-foot convention center scheduled to open in the third quarter 2010.

The launch of our meeting and convention sales effort is a key milestone in the development of Echelon. We conducted extensive qualitative and quantitative research to understand the needs of meeting planners in order to craft a beautifully designed, highly versatile meeting and convention facility.

Conceived from the beginning as an integral element of the master-planned Echelon, The Meeting Center will feature both dedicated entrances and convenient access to a diverse array of entertainment, dining, nightlife, shopping and lodging experiences. The Meeting Center's immediate proximity to the five premium hotels of Echelon will help to minimize the waiting and walking that has become synonymous with other large-scale megaresorts. The Meeting Center design focuses on technology, superior access, versatility, proximity, and flexibility.

The creation of a fully integrated environment for meetings and conventions, one that will operate in complete harmony with the other elements of Echelon, has been central to our vision from the outset.

EXTRAS

NEW LAUNDRY FACILITY IS Clean & Green

We have completed construction of a full-service Boyd Gaming laundry facility on the Boulder Strip – just south of Sam's Town – which is serving all of Boyd Gaming's Las Vegas and Henderson, Nevada properties.

Boyd Linen and Uniform Service not only improves operating efficiency among the properties, it makes a significant environmental contribution to the community. It is a candidate for LEED Silver Certification, pending final review. The Leadership in Energy and Environmental Design (LEED) Green Building Rating System™ is the nationally accepted benchmark for the design, construction and operation of high-performance green buildings.

We hope it will set an example for our industry and others that operate similar facilities, and it is already garnering attention. Boyd Gaming received a 2007 Henderson (Nevada) Economic Development Award for the new facility.

When Echelon opens, the 100,000-square-foot facility has been designed to handle more than 140,000 pounds of laundry per day.

ENVIRONMENTALLY-FRIENDLY ASPECTS OF THE NEW LAUNDRY FACILITY INCLUDE:

- Natural enzyme-based detergents that are gentler on the environment than chemical-based products, emitting fewer toxins in wastewater.
- Specially selected detergents allow for lower-temperature washing, conserving significant energy on water heating.
- Approximately 75 percent of the water used is recycled, saving more than 20 million gallons of water each year in a drought-stricken region.
- Recycled materials can be found throughout the facility, including reprocessed concrete, fixtures, furniture and clothing hangers.
