☒ Annual Report pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934

For the fiscal year ended July 31, 2015

OR

☐ Transition report pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934

For the transition period from _____ to _____

Commission File Number 0-21180

INTUIT INC.

(Exact name of registrant as specified in its charter)

Delaware
(State of incorporation)

77-0034661
(IRS Employer Identification No.)

2700 Coast Avenue, Mountain View, CA 94043
(Address of principal executive offices, including zip code)

(650) 944-6000
(Registrant's telephone number, including area code)

Securities registered pursuant to Section 12(b) of the Act:

| <u>Title of Each Class</u> | <u>Name of Exchange on Which Registered</u> |
|--------------------------------|---|
| Common Stock, \$0.01 par value | NASDAQ Global Select Market |

Securities registered pursuant to Section 12(g) of the Act: None.

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes ☒
No ☐

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or 15(d) of the Act. Yes ☐ No ☒

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports); and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate website, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes ☒ No ☐

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K. ☒

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See definition of “large accelerated filer,” “accelerated filer,” and “smaller reporting company” in Rule 12b-2 of the Exchange Act. (Check one)

Large accelerated filer ☒ Accelerated filer ☐ Non-accelerated filer ☐ Smaller reporting company ☐
(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes ☐ No ☒

The aggregate market value of Intuit Inc. outstanding common stock held by non-affiliates of Intuit as of January 30, 2015, the last business day of our most recently completed second fiscal quarter, based on the closing price of \$86.82 reported by the NASDAQ Global Select Market on that date, was \$23.2 billion.

There were 277,306,606 shares of Intuit voting common stock outstanding as of August 24, 2015.

DOCUMENTS INCORPORATED BY REFERENCE

Portions of the registrant’s definitive proxy statement for its Annual Meeting of Stockholders to be held on January 21, 2016 are incorporated by reference in Part III of this Annual Report on Form 10-K.

PART I

ITEM 1 BUSINESS

CORPORATE BACKGROUND

General

Intuit Inc. creates business and financial management solutions that help simplify the business of life for small businesses, consumers, and accounting professionals. With flagship products and services that include QuickBooks and TurboTax, we help customers solve important business and financial management problems such as running a small business, paying bills, and filing income taxes. ProSeries and Lacerte are Intuit’s leading tax preparation offerings for professional accountants. We had revenue of \$4.2 billion in our fiscal year ended July 31, 2015, with approximately 7,700 employees in major offices in the United States, Canada, India, the United Kingdom, Singapore, Australia, and other locations at that time.

Intuit was incorporated in California in March 1984. We reincorporated in Delaware and completed our initial public offering in March 1993. Our principal executive offices are located at 2700 Coast Avenue, Mountain View, California, 94043, and our main telephone number is 650-944-6000. Our corporate website, www.intuit.com, provides materials for investors and information relating to Intuit’s corporate governance. The content on any website referred to in this filing is not incorporated by reference into this filing unless expressly noted otherwise. When we refer to “we,” “our” or “Intuit” in this Annual Report on Form 10-K, we mean the current Delaware corporation (Intuit Inc.) and its California predecessor, as well as all of our consolidated subsidiaries.

Available Information

We file reports required of public companies with the Securities and Exchange Commission (SEC). These include annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, proxy statements and other reports, and amendments to these reports. The public may read and copy the materials we file with or furnish to the SEC at the SEC’s Public Reference Room at 100 F Street, N.E., Washington, D.C. 20549. The public may obtain information on the operation of the Public Reference Room by calling the SEC at 1-800-SEC-0330. The SEC also maintains a website at www.sec.gov that contains reports, proxy and information statements, and other information regarding issuers that file electronically with the SEC. We make available free of charge on the Investor Relations section of our corporate website all of the reports we file with or furnish to the SEC as soon as reasonably practicable after the reports are filed or furnished. Copies of this Annual Report on Form 10-K may also be obtained without charge by contacting Investor Relations, Intuit Inc., P.O. Box 7850, Mountain View, California 94039-7850 or by calling 650-944-6000.

BUSINESS OVERVIEW

Intuit’s Mission

We seek to be a premier innovative growth company that improves our customers’ financial lives so profoundly they can’t imagine going back to the old way.

Our customers include consumers and small businesses, and the accounting professionals who serve and advise them. We help simplify the business of life in four ways:

- Improving financial strength – Helping consumers make and save money and small businesses to grow and profit.
- Increasing productivity – Turning drudgery into time for what matters most.
- Maintaining compliance – Helping customers comply with regulations.
- Building confidence – Sharing the wisdom and experience of others.

As emerging technology and market trends change the way people live and work, we change, too. We’ve adapted our product line, moving from the desktop to the Internet and mobile devices. By offering many services online, we’re connecting customers to our solutions and with each other in ways that add more value to our products and services.

Our growth strategy is described below and focuses on two key outcomes:

- To be the operating system behind small business success.
- To do the nations' taxes in the United States and Canada.

We apply this vision globally, helping our customers expand their business to domestic and global markets, creating and selling our own products internationally, and extending our recruiting efforts to new countries to find best-in-class talent.

Our Business Portfolio

We organize our businesses into three reportable segments – Small Business, Consumer Tax, and Professional Tax.

Small Business: This segment targets small businesses and the accounting professionals who serve them and includes QuickBooks financial and business management online services and desktop software, payroll solutions, and payment processing solutions.

Consumer Tax: This segment targets consumers and includes TurboTax income tax preparation products and services.

Professional Tax: This segment targets professional accountants in the U.S. and Canada and includes Lacerte, ProSeries, ProFile, and Intuit Tax Online professional tax products and services.

Recent Developments. In the fourth quarter of fiscal 2015, management approved a divestiture plan and an organizational realignment to increase our focus on the two strategic outcomes described in “*Intuit’s Mission*” above. The divestiture plan included our Demandforce and QuickBase businesses, which were part of the Small Business segment, and our Quicken business, which was part of the Consumer Ecosystem product line in the former Consumer segment. As a result, we classified these three businesses as discontinued operations in the fourth quarter of fiscal 2015 and have not included them in the description of our portfolio of businesses above. The remaining components of the Consumer Ecosystem product line are now included in the Small Business segment and the former Consumer segment is now called the Consumer Tax segment.

Our Growth Strategy

Based on our assessment of key technology and demographic trends – an increasingly borderless world, the prevalence of mobile devices, and the scalability of the cloud – we see significant opportunities to drive future growth by continuing to solve the unmet needs of consumers, small businesses, and accounting professionals. Our evolving growth strategy includes three key elements:

- *Focus on the product – we call it “Delivering awesome product experiences.”* Computing devices are moving to the palm of our hands in the form of tablets and smart phones. Our TurboTax solutions, for example, let customers prepare and file their entire tax returns online, via tablet, mobile phone or desktop computer. We also believe that a key factor in growing our customer base is delivering an amazing first-use experience so our customers can get the value they expect from our offerings as quickly and easily as possible.
- *Creating network effect platforms – we call it “Enabling the contributions of others.”* We expect to solve problems faster and more efficiently for our growing customer base by moving to more open platforms with application programming interfaces that enable the contributions of end users and third-party developers. One example of this is QuickBooks Online, which allows small business customers all over the world to localize, configure, and add value to the offering.
- *Leveraging our data for our customers’ benefit – we call it “Using data to create delight.”* Our customers generate valuable data that we seek to appropriately use to deliver better products and breakthrough benefits by eliminating the need to enter data, helping them make better decisions, and improving transactions and interactions.

This strategy recognizes the emergence and influence of the digital generation, the increasing relevance of social networks, and customers’ growing reliance on the Internet, mobile devices and information-based technology to manage important financial tasks. It also acknowledges the potential of new market opportunities around the world. The result is a global market that is shifting from traditional services that are paper-based, human-produced, and brick-and-mortar bound, to one where people understand, demand, and embrace the benefits of connected services.

We continue to make significant progress in this environment. Connected services (total service and other revenue) generated \$3.0 billion or 73 percent of our total revenue in fiscal 2015, compared with about 50 percent of our total revenue seven years ago.

Summary

As the way we live and work evolves, we adapt our strategy to meet and lead these changes. Yet our commitment remains consistent: developing an ecosystem of innovative products and services that are so convenient and easy to use that customers actively recommend them to others. It's been our success formula for more than 30 years as we've worked to solve people's important business and financial management problems. And we'll maintain that commitment as we continue to evolve, working to help people solve each other's problems, connecting people to people and to solutions, wherever they are, whenever they want them, and on any device they choose.

PRODUCTS AND SERVICES

During fiscal 2015 we offered our products and services in the three segments described in "Business Overview" above. The following table shows the classes of similar products or services that accounted for 10% or more of total net revenue within the last three fiscal years.

| | Fiscal 2015 | Fiscal 2014 | Fiscal 2013 |
|------------------|------------------------|------------------------|------------------------|
| Small Business | 50% | 51% | 50% |
| Consumer Tax | 43% | 39% | 40% |
| Professional Tax | 7% | 10% | 10% |

Our products and services are described below. International total net revenue was less than 5% of consolidated total net revenue for fiscal 2015, fiscal 2014, and fiscal 2013. See Item 1A, "Risk Factors and Forward-Looking Statements – Our international operations are subject to increased risks which may harm our business, operating results, and financial condition," for a discussion of risks relating to our international operations.

For financial information about our segments, see "Management's Discussion and Analysis of Financial Condition and Results of Operations" in Item 7 and Note 14 to the financial statements in Item 8 of this Annual Report.

Small Business

Our Small Business segment includes online ecosystem and desktop ecosystem solutions that allow small businesses and the accounting professionals who serve them to save time and grow their businesses.

Small Business Online Ecosystem Solutions

QuickBooks Online. Our QuickBooks Online offerings bring small business users and accounting professionals financial management tools that are designed to be easy to use and are accessible from personal computers and mobile devices. QuickBooks Online users can track income and expenses, create invoices and estimates, manage and pay bills, and review a variety of financial reports. Our online offerings for small businesses include QuickBooks Self Employed, for independent contractors and solo entrepreneurs; QuickBooks Online Simple Start, for smaller, less complex businesses; and QuickBooks Online Essentials and QuickBooks Online Plus, for progressively larger and more complex businesses. Our online offering for accounting professionals is QuickBooks Online Accountant, which provides the tools and file-sharing capabilities they need to efficiently complete bookkeeping and financial reporting tasks.

Our QuickBooks ProAdvisor Program to support online clients is a subscription-based membership for professional accountants that provides Quickbooks Online Accountant and QuickBooks Online Payroll services, technical support, training, product certification, access to marketing tools, and discounts on Intuit products and services purchased on behalf of clients.

Online Payroll Solutions. We offer two online payroll solutions that are sold on a subscription basis and seamlessly integrate with our Quickbooks Online and QuickBooks desktop offerings. QuickBooks Online Payroll includes online payroll processing, direct deposit of employee paychecks, payroll reports, electronic payment of federal and state payroll taxes, and electronic filing of federal and state payroll tax forms. QuickBooks Full Service Payroll provides comprehensive payroll services to QuickBooks customers who prefer not to perform payroll tasks themselves.

Intuit Online Payroll provides small business payroll services that do not require the use of QuickBooks. This offering is sold on a subscription basis and includes online payroll tax calculation, direct deposit of employee paychecks, payroll reports, electronic payment of federal and state payroll taxes, and federal and state payroll tax forms. We also offer an Intuit Online Payroll mobile app for smartphones.

Intuit Full Service Payroll provides comprehensive payroll services to customers who prefer not to perform payroll tasks themselves and does not require the use of QuickBooks. This offering is sold on a subscription basis and includes processing of

payrolls based on information submitted online by the payroll customer, direct deposit of employee paychecks, electronic payment of federal and state payroll taxes, electronic filing of federal and state payroll tax forms, and preparation and issuance of year end W-2 forms.

Online Payments Solutions. We offer a full range of merchant services to small businesses that include credit card, debit card, electronic benefits, and gift card processing services; check verification, check guarantee, and electronic check conversion, including automated clearing house (ACH) capabilities; and Web-based transaction processing services for online merchants. In addition to transaction processing services, we provide a full range of support for our clients that includes customer service, merchant and consumer collections, chargeback and retrieval support, and fraud and loss prevention screening.

We also offer e-invoicing, which allows small businesses to email invoices directly from QuickBooks with a Pay Now link and enables customers to pay instantly online or from their mobile device.

GoPayment allows users to accept credit card payments using a smartphone or tablet device. They can enter the credit card information manually or use a card swiper that attaches to the phone to capture the information. They can also send electronic receipts to their customers via e-mail or text message.

Intuit Developer Group. The Intuit Developer Group provides the tools developers need to create online and mobile applications that add value to QuickBooks. The platform allows developers to build applications that integrate with QuickBooks data and solve the unique needs of our customers. Developers can create applications using any development platform they choose, and must pass a standards and security check before offering their programs to customers. All applications are available through the Intuit App Center at apps.com. Here QuickBooks users can find, buy and use applications connected to the platform. A growing number of companies offer applications built for the platform, including PayPal, Shopify, Square, and Bill.com.

Small Business Desktop Ecosystem Solutions

QuickBooks. Our desktop software offerings include QuickBooks Pro and QuickBooks Desktop for Mac, which provide accounting functionality for small businesses, and QuickBooks Premier, which provides small businesses with advanced accounting functionality and business planning tools. QuickBooks Pro Plus and QuickBooks Premier Plus are subscription versions of these offerings. QuickBooks Enterprise Solutions is designed for larger businesses. Our Premier and Enterprise products provide industry-specific reports and features for a range of industries, including Contractor, Manufacturing and Wholesale, Nonprofit, and Retail.

Our offerings for accounting professionals include QuickBooks Accountant desktop software and QuickBooks Accountant Plus subscriptions. They provide the tools and file-sharing capabilities needed to efficiently complete bookkeeping and financial reporting tasks. Our QuickBooks ProAdvisor Program Desktop Add-On is a subscription-based membership for professional accountants that provides QuickBooks Accountant Plus, QuickBooks Enterprise Solutions Accountant, QuickBooks Desktop for Mac, QuickBooks Point of Sale Multi Store, technical support, training, product certification, access to marketing tools, and discounts on Intuit products and services purchased on behalf of clients.

Desktop Payroll Solutions. QuickBooks Payroll is a family of products sold on a subscription basis to small businesses that use QuickBooks desktop software and prepare their own payroll or want some assistance with preparing their payroll. It is also sold to accountants who use QuickBooks desktop software and help their clients manage their payrolls. The product family includes:

- QuickBooks Basic Payroll, which provides payroll tax tables, direct deposit of employee paychecks, and payroll reports;
- QuickBooks Enhanced Payroll, which provides payroll tax tables, direct deposit of employee paychecks, payroll reports, federal and state payroll tax forms, and eFile & Pay for federal and state payroll taxes; and
- QuickBooks Enhanced Payroll for Accountants, which has several accountant-specific features in addition to the features in QuickBooks Enhanced Payroll.

We also offer QuickBooks Assisted Payroll, through which we provide the back-end aspects of payroll processing, including tax payments and filings, for customers who process their payrolls using QuickBooks desktop software.

Desktop Payments Solutions. We offer a full range of merchant services to small businesses that include credit card, debit card, electronic benefits, and gift card processing services; check verification, check guarantee, and electronic check conversion, including automated clearing house (ACH) capabilities. In addition to transaction processing services, we provide a full range of support for our clients that includes customer service, merchant and consumer collections, chargeback and retrieval support, and fraud and loss prevention screening.

We also offer e-invoicing, which allows small businesses to email invoices directly from QuickBooks with a Pay Now link and enables customers to pay instantly online or from their mobile device.

We offer Basic, Pro, and Multi Store versions of QuickBooks Point of Sale, which helps retailers process sales using barcodes, track inventory and customer purchases, and integrates with QuickBooks Pro, Premier, and Enterprise Solutions. The Point of Sale Pro version has advanced inventory and employee commission tracking capabilities. The Point of Sale Multi Store version provides all of the features of the Point of Sale Pro version and the ability to manage multiple stores from a single office. We sell these software products with or without the accompanying hardware and technical support.

QuickBooks Technical Support. We offer several technical support options to all of our QuickBooks customers. These include support plans that are sold separately and priced based on the length of the plan. We also offer a limited amount of free technical support assistance to customers, a free self-help information section on our QuickBooks.com website and free access to the QuickBooks Community, an online forum where QuickBooks users can share information with each other.

Financial Supplies. We offer a range of financial supplies designed for small businesses and individuals that use QuickBooks. These include standard paper checks and Secure Plus checks with CheckLock™ fraud protection features; envelopes, invoices and deposit slips; and business identity products such as business cards and stationery. We also offer tax forms, tax return presentation folders and other supplies for professional tax preparers.

Consumer Tax

Our TurboTax products and services are designed to enable individuals to prepare and file their own federal and state personal income tax returns quickly and accurately. They are designed to be easy to use, yet sophisticated enough for complex tax returns. Most of these offerings are available on mobile devices such as smartphones and tablets.

Tax Return Preparation Offerings. For the U.S. 2014 tax season we offered a range of software products and services that included TurboTax Basic, for simple returns; TurboTax Deluxe, for taxpayers who itemize deductions; TurboTax Premier, for taxpayers who own investments or rental property; and TurboTax Home and Business, for small business owners. We also offered TurboTax Free Edition for the simplest returns. We offered live tax advice from U.S.-based tax professionals to TurboTax customers during the 2014 tax season. TurboTax Answer Exchange is an online forum where participants can learn from and share information with other users while preparing their income tax returns. Our TurboTax Canada offerings consist of desktop, online, and mobile offerings.

Electronic Filing and Other Services. Our desktop, online, and mobile tax preparation customers can electronically file their federal and state income tax returns through our electronic filing center. For the 2014 tax season our online tax preparation and filing services were offered through the websites of thousands of financial institutions, electronic retailers, and other online merchants, and on Yahoo!® Finance Tax Center, MSN Money® Tax Center, and AOL DailyFinance Tax Center. Financial institutions can offer our online tax preparation and filing services to their customers through a link to TurboTax Online. For the 2014 tax season we also offered TurboTax customers the option to receive their income tax refunds on a prepaid debit card that we provided through a partner.

Intuit Tax Freedom Project. Under the Intuit Tax Freedom Project, we provide online federal and state income tax return preparation and electronic filing services at no charge to eligible taxpayers. For the 2014 tax season we provided approximately 1.1 million free federal returns under this initiative. We are a member of the Free File Alliance, a consortium of private sector companies that has entered into an agreement with the federal government to provide free online federal tax preparation and filing services to eligible taxpayers. See also “*Competition – Consumer Tax Segment*” later in this Item 1 for more information on the Free File Alliance.

Professional Tax

Our Professional Tax offerings enable accountants to accurately and efficiently complete a full range of consumer, small business and commercial federal and state tax returns with both desktop and online offerings. Lacerte is designed for full service accounting firms who handle more complex returns. We offer two versions of our ProSeries software: ProSeries Professional Edition, designed for year-round tax practices handling moderately complex tax returns, and ProSeries Basic Edition, designed for the needs of smaller and seasonal tax practices. Intuit Tax Online is our cloud-based solution which is designed for year-round practices who prepared moderately complex consumer and small business returns and integrates with our QuickBooks Online offerings. ProFile is our Canadian tax offering which serves year-round full service accounting firms for both consumer and business tax returns. We offer a variety of tax-related services that compliment the tax return preparation process including year-round document storage and access, collaboration services, e-signature, bank products, and options for consumers to receive their tax refund on a debit card provided through a partner.

PRODUCT DEVELOPMENT

Since the markets for software and related services are characterized by rapid technological change, shifting customer needs and frequent new product introductions and enhancements, a continuous high level of investment is required to innovate and quickly develop new products and services as well as enhance existing offerings. Our product development efforts are becoming more important than ever as we pursue our connected services strategy, which reflects a world where people and businesses are increasingly connected by technology and expect access to services at any time in any place.

We develop many of our products and services internally. We have a number of United States and foreign patents and pending applications that relate to various aspects of our products and technology. We supplement our internal development efforts by acquiring or licensing products and technology from third parties, and establishing other relationships that enable us to enhance or expand our offerings more rapidly. We expect to expand our third party technology relationships as we continue to pursue our connected services strategy.

Our traditional desktop software products – QuickBooks, TurboTax, Lacerte, and ProSeries – tend to have predictable annual development and product release cycles. We also develop innovative new offerings, including mobile applications, for which development cycles are often more rapid. Developing consumer and professional tax software and services presents unique challenges because of the demanding development cycle required to accurately incorporate federal and state tax law and tax form changes within a rigid timetable. The development timing for our small business payroll and merchant payment processing services offerings varies with business needs and regulatory requirements and the length of the development cycle depends on the scope and complexity of each project.

We continue to make substantial investments in research and development, and we expect to focus our future research and development efforts on enhancing existing products and services and on developing new products and services, including new mobile and global offerings. We also expect to continue to focus significant research and development efforts on ongoing projects to update the technology platforms for several of our offerings. Our research and development expenses were \$798 million or 19% of total net revenue in fiscal 2015; \$714 million or 17% of total net revenue in fiscal 2014; and \$647 million or 17% of total net revenue in fiscal 2013.

SEASONALITY

Our Consumer Tax, Professional Tax, and QuickBooks offerings have significant and distinct seasonal patterns. As a result, our total net revenue is usually highest during our second quarter ending January 31 and third quarter ending April 30. We typically report losses in our first quarter ending October 31 and fourth quarter ending July 31, when our total net revenue is lower but core operating expenses such as research and development continue at relatively consistent levels. Although the seasonal patterns for all three of our reporting segments continue to evolve as described below, we expect the overall seasonality of our business to continue to have a significant impact on our quarterly financial results in the future.

Our Consumer Tax and Professional Tax offerings are highly seasonal. Sales of income tax preparation products and services are heavily concentrated from November through April. In addition, an increasing proportion of our Consumer Tax revenue has been shifting to later in this seasonal period and we expect that trend to continue in the future. This is due in part to the growth in sales of TurboTax Online, for which we recognize revenue toward the end of the tax preparation process, when tax returns are printed or electronically filed. The seasonality of our Consumer Tax and Professional Tax revenue is also affected by the timing of the availability of tax forms from taxing agencies and the ability of those agencies to receive electronic tax return submissions. Delays in the availability of tax forms or the ability of taxing agencies to receive submissions can cause Consumer Tax and Professional Tax revenue to shift between our fiscal quarters. In fiscal 2015 we began delivering ongoing enhancements and certain connected services for our Professional Tax desktop software offerings. As a result of this change, we recognize revenue for these offerings as services are provided through the end of each calendar year.

In our Small Business segment, prior to fiscal 2015 we launched annual releases of our QuickBooks desktop software products each fall and revenue for those products tended to be highest around calendar year end, during our second and third fiscal quarters. Starting with QuickBooks 2015, which was released in the first quarter of fiscal 2015, we began delivering ongoing enhancements and certain connected services for our QuickBooks desktop software products. As a result of this change, we recognize revenue for these QuickBooks desktop products as services are provided over approximately three years. Customers are also increasingly choosing the online and subscription versions of our QuickBooks offerings, for which we recognize revenue as the services are provided. Customer acquisition for these offerings tends to be highest around calendar year end, during our second and third fiscal quarters. For these reasons, the seasonality of our Small Business segment revenue has started to become less pronounced and we expect that trend to continue in the future.

MARKETING, SALES AND DISTRIBUTION CHANNELS

Markets

Our primary target customers are small businesses, consumers, and accounting professionals. The markets in which we compete have always been characterized by rapid technological change, shifting customer needs, and frequent new product introductions and enhancements by competitors. Over the past several years, the widespread availability of the Internet, mobile devices, and the explosion of social media have accelerated the pace of change and revolutionized the way that customers learn about, evaluate, and purchase products and services.

Real-time, personalized online and mobile shopping experiences are rapidly becoming the standard. In addition, many customers now begin shopping in one channel and ultimately purchase in another. This creates a need for integrated, multi-channel, shop-and-buy experiences. Market and industry changes quickly make existing products and services obsolete. Our success depends on our ability to respond rapidly to these changes with new business models, updated competitive strategies, new or enhanced products and services, alternative distribution methods and other changes in the way we do business.

Marketing Programs

To sell our products and services to small businesses, consumers, and accounting professionals, we use a variety of traditional and innovative marketing programs to generate software orders, stimulate demand, and generally maintain and increase customer awareness of our product portfolio. These programs include: Internet marketing and targeted advertising, such as search engine optimization and purchasing keywords from major search engine companies; placing and promoting our mobile applications in proprietary online stores; direct-response mail and e-mail campaigns; telephone solicitations; newspaper, magazine, billboard, radio and television advertising; social media campaigns; and coordinated promotional offers with major retailers. We also use workflow-integrated, in-product discovery in some of our software products to market other related products and services, including third-party products and services. In addition, we create marketing campaigns that attract new users through free promotional offerings that are designed to ultimately convert them to paying customers.

Sales and Distribution Channels

Multi-Channel Shop-and-Buy Experiences. Our consumer and small business customers increasingly use the Internet and mobile devices, such as smartphones and tablets, to research products and services. Some customers buy and use our products and services entirely online or through their mobile devices. Others purchase desktop products and services using the Internet. Still others make their final decision at a retail location. We coordinate our websites, promotions, and retail displays to support this integrated, multi-channel, shop-and-buy model.

Direct Sales Channel. We sell many of our products and services for small businesses, consumers, and accounting professionals directly through our websites and call centers. Telesales continues to be an effective channel for serving customers that want live help to select the products and services that are right for their needs. We also have a direct sales force that calls on U.S. and international accountant firms and seeks to increase their awareness and useage of our Small Business ecosystem solutions.

Retail Channel. We sell our QuickBooks and TurboTax desktop software as well as payroll services and merchant credit card payment processing services at retail locations across the United States. We sell these products and services directly and through distributors to office supply superstores, warehouse clubs, consumer electronics retailers, general mass merchandisers, online retailers, and catalogs. In Canada and other international markets we also rely on distributors and other third parties who sell products into the retail channel. The retail channel provides broad customer reach through retailer-sponsored advertising and exposure to retail foot traffic. This channel also gives us the opportunity to communicate our products, services and messages through multiple touch points and allows us to serve our customers at relatively modest cost.

Online Mobile Application Stores. We distribute many of our offerings for mobile devices through proprietary online stores that provide applications for specific devices. These include the Apple App Store, which provides apps for the Apple iPhone and iPad, and Google's Play Store, which provides apps for Android-compatible smartphones and tablets.

Other Channels. We have strategies to address the alliance partner and solution provider channels. We sell our consumer and small business products and services through selected alliance partners, primarily financial institutions and target partners. These alliance partners help us reach new customers at the point of need and drive growth and market share by extending our online reach. Solution providers combine our products and services with value-added marketing, sales, and technical expertise to deliver a complete solution at the local level. As we expand our mobile and global offerings, we expect that strategic partnerships will become increasingly important to our business.

COMPETITION

Overview

We face intense competition in all of our businesses, both domestically and internationally. Competitive interest and expertise in many of the markets we serve have grown markedly over the past few years and we expect this trend to continue. Some of our existing competitors have significantly greater financial, technical, and marketing resources than we do. In addition, the competitive landscape can shift rapidly as new companies enter markets in which we compete. This is particularly true for online and mobile products and services, where the barriers to entry are lower than they are for desktop software products and services. To attract customers, many online and mobile competitors are offering free or low-priced entry-level products which we must take into account in our pricing strategies.

Our most obvious competition comes from other companies that offer technology solutions similar to ours. However, for many of our products and services, other important competitive alternatives for customers are third party service providers such as professional accountants and seasonal assisted tax preparation businesses. Manual tools and processes, or general-purpose software, are also important competitive alternatives.

Competition Specific to Segments

Small Business Segment. Our QuickBooks desktop product is the leading small business financial management software in the U.S. retail channel. Our small business products and services face competitive challenges from companies such as The Sage Group plc, which offers software and associated services that directly target small business customers. Increasingly, our small business products and services also face competition from newer online accounting offerings from companies such as Xero, free or low-cost online accounting offerings, and free online banking and bill payment services offered by financial institutions and others. In our payroll business we compete directly with Automatic Data Processing, Inc. (ADP), Paychex, and many other companies with payroll offerings, including online payroll offerings. In our merchant services business we compete directly with large financial institutions such as Wells Fargo, JP Morgan Chase, and Bank of America and with many payment processors, including First Data Corporation, Elavon, Global Payments, FIS-Certegy, PayPal, and Square.

Consumer Tax Segment. In our Consumer Tax segment, our future growth depends on our ability to attract new customers to the self-preparation tax category from tax stores and other tax preparers. In the U.S. private sector we face intense competition from H&R Block, which provides tax preparation services in its stores and a competing software offering called H&R Block At Home. We also face competition from several other large tax preparation service providers, from a myriad of small tax preparers, and from numerous online self-preparation offerings, including Blucora's TaxACT. In Canada, our TurboTax Canada offerings face competition from H&R Block, SimpleTax, StudioTax, and U-File. These competing offerings subject us to significant price pressure in both the U.S. and Canada.

We also face competitive challenges from publicly funded government entities that offer electronic tax preparation and filing services at no cost to individual taxpayers. We are a member of the Free File Alliance, a consortium of private sector companies that has entered into an agreement with the federal government. Under this agreement, the member companies provide online federal tax preparation and filing services at no cost to eligible federal taxpayers, and the federal government has agreed not to provide a competing service. Approximately 22 states have also adopted Free File Alliance public-private agreements while approximately 20 other states offer some form of direct government tax preparation and filing services free to qualified taxpayers. We continue to actively work with others in the private and public sectors to advance the goals of the Free File Alliance policy initiative and to support successful public-private partnerships. However, future administrative, regulatory, or legislative activity in this area could harm our Consumer Tax business.

Professional Tax Segment. In the U.S., Lacerte professional tax offerings face competition from competitively-priced tax and accounting solutions that include integration with non-tax functionality. These include CCH's ProSystems fx Office Suite and Thomson Reuters' CS Professional Suite and GoSystems Tax. Our ProSeries professional tax offerings face competition from CCH's ATX and TaxWise offerings, Drake, and other smaller providers. In Canada, our ProFile professional tax offerings face competition from CCH's Cantax and Taxprep offerings and from Thomson Reuters' DTMax and UFile Pro offerings. We also face growing competition from online tax and accounting offerings, which may be marketed more effectively or have lower pricing than our offerings for accounting professionals.

Competitive Factors

We believe the most important competitive factors for our core offerings – QuickBooks, TurboTax, Lacerte, and ProSeries – are ease of use, product features, size of the installed customer base, brand name recognition, value proposition, cost, reliability, and product and support quality. Access to distribution channels is also important for our QuickBooks and TurboTax software products. In addition, support from accounting professionals and the ability for customers to upgrade within product families as

their businesses grow are significant competitive factors for our QuickBooks products. Productivity is an important competitive factor for the full-service accounting firms to which we market our Lacerte software products. We believe we compete effectively on these factors as our QuickBooks and TurboTax products are the leading products in the U.S. for their respective categories.

For our service offerings such as small business payroll and merchant payment processing, we believe the most important competitive factors are functionality, ease of use, high availability, the integration of these products with related software, brand name recognition, effective distribution, quality of support, and cost.

CUSTOMER SERVICE AND TECHNICAL SUPPORT

We provide customer service and technical support by telephone, e-mail, online chat, text messaging, online communities, and our customer service and technical support websites. We have full-time and outsourced customer service and technical support staffs. We supplement these staffs with seasonal employees and additional outsourcing during periods of peak call volumes, such as during the tax return filing season or following a major product launch. We outsource to several firms domestically and internationally. Most of our internationally outsourced consumer and small business customer service and technical support personnel are currently located in India and the Philippines.

We offer free self-help information through our technical support websites for our QuickBooks, TurboTax and Professional Tax software products. Customers can also use our websites to find answers to commonly asked questions and check on the status of orders. Under certain paid support plans, customers can also use our websites to receive product updates electronically. Support alternatives and fees vary by product. We sponsor online user communities such as Intuit Community for small businesses and accounting professionals, and TurboTax Answer Exchange, where consumers can share knowledge and product advice with each other. We also offer live tax advice from U.S.-based tax professionals to TurboTax users.

MANUFACTURING AND DISTRIBUTION

Online Products and Services

Intuit's data centers house most of the systems, networks and databases required to operate and deliver our online products and services. These include QuickBooks Online, online payroll services, merchant payment processing services, TurboTax Online, Intuit Tax Online, and consumer and professional electronic tax filing services. Through our data centers, we connect customers to our products and services and store customer and business information. As our businesses continue to move toward delivering more online and mobile products and services in conjunction with our connected services strategy, we expect that our infrastructure will become even more critical to our business in the future.

Our primary data centers are a facility we own in Washington state and a co-located data center in Nevada. We also have a number of other data centers that are primarily located in the western United States and Canada. We continue to execute on a multi-year plan to transition to fewer data centers in more geographically diverse locations. In addition, we have an enterprise agreement with Amazon Web Services and over time will be hosting an increasing number of our applications and services in their secure online environment.

Desktop Software and Supplies

Although an increasing proportion of our desktop software customers choose to electronically download software, many customers continue to choose to purchase these products in the form of physical media. The key processes in manufacturing desktop software are manufacturing compact discs (CDs) and digital video discs (DVDs), printing boxes and related materials, and assembling and shipping the final products.

For retail manufacturing, we have an agreement with Arvato Digital Services, Inc., a division of Bertelsmann AG, under which Arvato provides a majority of the manufacturing volume for our launches of QuickBooks and TurboTax, as well as for day-to-day replenishment after product launches. Arvato has operations in multiple locations that can provide redundancy if necessary. We also have an agreement with Cinram Corp. under which Cinram provides outsourced manufacturing volume for these launches and for day-to-day replenishment.

For retail distribution, we have an agreement with Arvato under which Arvato handles all logistics services. Our retail product launches are operationally complex. Our model for product delivery for retail launches and replenishment is a hybrid of direct to store deliveries and shipments to central warehouse locations. This allows improved inventory management by our retailers. We also ship products for many of our smaller retail customers through distributors.

Arvato also provides most of the manufacturing volume and distribution services for our direct desktop software orders. We have an exclusive agreement with Harland Clarke, a division of M&F Worldwide Corporation, to fulfill orders for all of our printed checks and most other products for our financial supplies business.

We have multiple sources for all of our raw materials and availability has historically not been a significant problem for us. We continue to see consolidation among CD/DVD suppliers and reduced demand overall for this media type. As a result, we believe CD/DVD media may become more difficult to obtain in the next three to five years.

Backlog is minimal and we typically ship products within a few days of receiving an order.

PRIVACY AND SECURITY OF CUSTOMER INFORMATION AND TRANSACTIONS

We are subject to various federal, state and international laws and regulations and to financial institution and healthcare provider requirements relating to the privacy and security of customer and employee personal information. We are also subject to laws and regulations that apply to the Internet, behavioral tracking and advertising, mobile applications and messaging, telemarketing, e-mail activities, data hosting and retention, financial and health information, and credit reporting. Additional laws in all of these areas are likely to be passed in the future, which could result in significant limitations on or changes to the ways in which we can collect, use, host, store or transmit the personal information and data of our customers or employees, communicate with our customers, and deliver products and services, or may significantly increase our compliance costs. As our business expands to new industry segments and new uses of data that are regulated for privacy and security, or to countries outside the United States that have strict data protections laws, our compliance requirements and costs will increase.

Through a Master Privacy Policy Framework designed to be consistent with globally recognized privacy principles, we comply with United States federal and other country guidelines and practices to help ensure that customers and employees are aware of, and can control, how we use information about them. Our primary websites and online products, such as Intuit.com, QuickBooks and TurboTax, have been certified by TRUSTe, an independent organization that operates a website and online product privacy certification program representing industry standard practices to address users' and regulators' concerns about online privacy. We also use privacy statements to provide notice to customers of our privacy practices, as well as provide them the opportunity to furnish instructions with respect to use of their personal information. We participate in industry groups whose purpose is to develop or shape industry best practices, and to influence public policy for privacy and security.

To address security concerns, we use security safeguards to help protect the systems and the information customers give to us from loss, misuse and unauthorized alteration. Whenever customers transmit sensitive information, such as credit card information or tax return data, through one of our websites or products, we use industry standards to encrypt the data as it is transmitted to us. We work to protect our systems from unauthorized internal or external access using numerous commercially available computer security products as well as internally developed security procedures and practices.

GOVERNMENT REGULATION

Our Consumer Tax and Professional Tax segments are subject to federal and state government requirements, including regulations related to the electronic filing of tax returns, the provision of tax preparer assistance, and the use and disclosure of customer information. In addition, we offer certain other products and services to small businesses and consumers, such as payroll, payments and financing, which are also subject to regulatory requirements. As we expand our products and services, both domestically and internationally, we may become subject to additional government regulation. Further, regulators may adopt new laws or regulations or their interpretation of existing laws or regulations may differ from ours or expand to cover additional products and services. These increased regulatory requirements could impose significant limitations on our business and increase our cost of compliance.

We are subject to federal and state laws and government regulations concerning employee safety and health and environmental matters. The Occupational Safety and Health Administration, the Environmental Protection Agency, and other federal and state agencies have the authority to put regulations in place that may have an impact on our operations.

INTELLECTUAL PROPERTY

Our success depends on the proprietary technology embodied in our offerings. We protect this proprietary technology by relying on a variety of intellectual property mechanisms, including copyright, patent, trade secret and trademark laws, restrictions on disclosure and other methods. For example, we regularly file applications for patents, copyrights and trademarks and service marks in order to protect intellectual property that we believe is important to our business. We hold a growing patent portfolio that we believe is important to Intuit's overall competitive advantage, although we are not materially dependent on any one patent or particular group of patents in our portfolio at this time. We also have a number of registered trademarks that include Intuit, QuickBooks, TurboTax, Lacerte, ProSeries, and Mint. We have registered these and other trademarks and service marks in the United States and, depending on the relevance of each brand to other markets, in many foreign countries. Most registrations can be renewed perpetually at 10-year intervals. We also license intellectual property from third parties for use in our products.

Although our portfolio of patents is growing, the patents that have been issued to us could be determined to be invalid and may not be enforceable against competitive products in every jurisdiction. In addition, third parties have asserted and may, in the future, assert infringement claims against us and our customers. These claims and any litigation may result in invalidation of our proprietary rights or a finding of infringement along with an assessment of damages. Litigation, even if without merit, could result in substantial costs and diversion of resources and management attention. In addition, third party licenses may not continue to be available to us on commercially acceptable terms, or at all.

EMPLOYEES

As of July 31, 2015, we had approximately 7,700 full-time employees in major offices in the United States, Canada, India, the United Kingdom and other locations. We also employ a significant number of seasonal and contract employees during the second and third quarters of our fiscal years to support our consumer tax customers. For example, at the peak of the 2014 tax season we employed approximately 985 seasonal employees. We believe our future success and growth will depend on our ability to attract and retain qualified employees in all areas of our business. We do not currently have any collective bargaining agreements with our employees, and we believe employee relations are generally good. Although we have employment-related agreements with a number of key employees, these agreements do not guarantee continued service. We believe we offer competitive compensation and a good working environment. We were named one of *Fortune* magazine's "100 Best Companies to Work For" in each of the last fourteen years. However, we face intense competition for qualified employees, and we expect to face continuing challenges in recruiting and retention.

ITEM 1A RISK FACTORS

Forward-Looking Statements and Risk Factors

This Annual Report on Form 10-K contains forward-looking statements. All statements in this report, other than statements that are purely historical, are forward-looking statements. Words such as “expect,” “anticipate,” “intend,” “plan,” “believe,” “forecast,” “estimate,” “seek,” and similar expressions also identify forward-looking statements. In this report, forward-looking statements include, without limitation, the following:

- our expectations and beliefs regarding future conduct and growth of the business;
- our beliefs and expectations regarding seasonality, competition and other trends that affect our business;
- our expectation that we will solve problems faster and more efficiently for our growing base of customers by moving to more open platforms with application programming interfaces that enable the contributions of end users and third party developers;
- Our expectation that we will expand our third party technology relationships and strategic partnerships as we continue to pursue our connected services strategy and expand our mobile and global offerings;
- our expectation that we will continue to invest significant resources in our product development, marketing and sales capabilities;
- our expectation that we will continue to invest significant management attention and resources in our information technology infrastructure and in our privacy and security capabilities;
- our expectation that we will work with the broader industry and government to protect our customers from fraud;
- our expectation that we will be able to protect our customers’ data and prevent third parties from using stolen customer information to perpetrate fraud in our tax and other offerings;
- our belief that our recent financial performance has not been materially adversely affected by fraudulent activity or the actions we have taken to combat it;
- our expectation that we will generate significant cash from operations;
- our expectation that connected services revenue as a percentage of our total revenue will continue to grow;
- our expectations regarding the development of future products, services, business models and technology platforms and our research and development efforts;
- the assumptions underlying our critical accounting policies and estimates, including our estimates regarding product rebate and return reserves; the collectability of accounts receivable; stock volatility and other assumptions used to estimate the fair value of share-based compensation; the fair value of goodwill; and expected future amortization of acquired intangible assets;
- our belief that the investments we hold are not other-than-temporarily impaired;
- our belief that we take prudent measures to mitigate investment related risks;
- our belief that our exposure to currency exchange fluctuation risk will not be significant in the future;
- our assessments and estimates that determine our effective tax rate;
- our belief that our income tax valuation allowance is sufficient;
- our belief that it is not reasonably possible that there will be a significant increase or decrease in our unrecognized tax benefits over the next 12 months;
- our intent to permanently reinvest a significant portion of our earnings from foreign operations, and our belief that we will not need funds generated from foreign operations to fund our domestic operations;
- our belief that our cash and cash equivalents, investments and cash generated from operations will be sufficient to meet our seasonal working capital needs, capital expenditure requirements, contractual obligations, debt service requirements and other liquidity requirements associated with our operations for at least the next 12 months;
- our belief that our facilities are suitable and adequate for our near-term needs and that we will be able to locate additional facilities as needed;

- our expectation that we will return excess cash generated by operations to our stockholders through repurchases of our common stock and the payment of cash dividends;
- our assessments and beliefs regarding the future outcome of pending legal proceedings and inquiries by regulatory authorities, the liability, if any, that Intuit may incur as a result of those proceedings and inquiries, and the impact of any potential losses associated with such proceedings or inquiries on our financial statements.

We caution investors that forward-looking statements are only predictions based on our current expectations about future events and are not guarantees of future performance. We encourage you to read carefully all information provided in this report and in our other filings with the SEC before deciding to invest in our stock or to maintain or change your investment. These forward-looking statements are based on information as of the filing date of this Annual Report, and we undertake no obligation to revise or update any forward-looking statement for any reason.

Because forward-looking statements involve risks and uncertainties, there are important factors that may cause actual results to differ materially from those contained in the forward-looking statements. These factors include the following:

We face intense competitive pressures that may harm our operating results.

We face intense competition in all of our businesses, and we expect competition to remain intense in the future. Our competitors and potential competitors range from large and established entities to emerging start-ups. Our competitors may introduce superior products and services, reduce prices, have greater technical, marketing and other resources, have greater name recognition, have larger installed bases of customers, have well-established relationships with our current and potential customers, advertise aggressively or beat us to market with new products and services. In addition, we may face competition from existing companies, with large established consumer user-bases and broad-based platforms, who may change or expand the focus of their business strategies and marketing to target our customers, including small businesses and tax customers. We also face intensified competition from providers of free accounting, tax, payments, and other financial services. In order to compete, we have also introduced free offerings in several categories, but we may not be able to attract customers or effectively monetize all of these offerings, and customers who have formerly paid for Intuit's products and services may elect to use free offerings instead. These competitive factors may diminish our revenue and profitability, and harm our ability to acquire and retain customers.

Our consumer tax business also faces significant competition from the public sector, where we face the risk of federal and state taxing authorities developing software or other systems to facilitate tax return preparation and electronic filing at no charge to taxpayers. These or similar programs may be introduced or expanded in the future, which may cause us to lose customers and revenue. Although the Free File Alliance has kept the federal government from being a direct competitor to Intuit's tax offerings, it has fostered additional online competition and may cause us to lose significant revenue opportunities. The current agreement with the Free File Alliance is scheduled to expire in October 2020. We anticipate that governmental encroachment at both the federal and state levels may present a continued competitive threat to our business for the foreseeable future.

Future revenue growth depends upon our ability to adapt to technological change and successfully introduce new and enhanced products, services and business models.

The software as a service, desktop software and mobile technology industries are characterized by rapidly changing technology, evolving industry standards and frequent new product introductions. As we continue to grow our software as a service, mobile and other offerings, we must continue to innovate and develop new products and features to meet changing customer needs and attract and retain talented software developers. We need to continue to develop our skills, tools and capabilities to capitalize on existing and emerging technologies, which require us to devote significant resources.

A number of our businesses also derive a significant amount of their sales from one-time upfront license fees and rely on customer upgrades and service offerings to generate a significant portion of their revenues. In addition, our consumer and professional tax businesses depend significantly on revenue from customers who return each year to use our updated tax preparation and filing software and services. As our existing products mature, encouraging customers to purchase product upgrades becomes more challenging unless new product releases provide features and functionality that have meaningful incremental value. If we are not able to develop and clearly demonstrate the value of new or upgraded products or services to our customers, our revenues may be harmed. In addition, as we continue to introduce and expand our new business models, including offerings that are subscription-based or that are free to end users, we may be unsuccessful in monetizing or increasing customer adoption of these offerings.

The number of people who access products and services through devices other than personal computers, including mobile phones, smartphones, and handheld computers such as tablets, continues to increase. We have devoted significant resources to

develop products and services for users of these alternative devices, but the versions of our products and services developed for these devices may not be compelling to users. Even if we are able to attract new users through these mobile offerings, the amount of revenue that we derive per user from mobile offerings may be less than the revenue that we have historically derived from users of personal computers. As new devices and new platforms are continually being released, it is difficult to predict the problems we may encounter in developing versions of our products and services for use on these alternative devices and we may need to devote significant resources to the creation, support, and maintenance of such offerings. If we are slow to develop products and technologies that are compatible with these alternative devices, or if our competitors are able to achieve those results more quickly than us, we will fail to capture a significant share of an increasingly important portion of the market for online services, which could adversely affect our business.

In some cases, we may expend a significant amount of resources and management attention on offerings that do not ultimately succeed in their markets. We have encountered difficulty in launching new products and services in the past. If we misjudge customer needs in the future, our new products and services may not succeed and our revenues and earnings may be harmed. We have also invested, and in the future expect to invest, in new business models, geographies, strategies and initiatives. Such endeavors may involve significant risks and uncertainties, including distraction of management from current operations, expenses associated with the initiatives and inadequate return on investments. Because these new initiatives are inherently risky, they may not be successful and may harm our financial condition and operating results.

Business interruption or failure of our information technology and communication systems may impair the availability of our products and services, which may damage our reputation and harm our future financial results.

As we continue to transition our business to more connected services, we become more dependent on the continuing operation and availability of our information technology and communication systems and those of our external service providers, including, for example, third party Internet-based or “cloud” computing services. We do not have redundancy for all of our systems, many of our critical applications reside in only one of our data centers, and our disaster recovery planning may not account for all eventualities. In the event of significant system disruption we may experience loss of data or processing capabilities, which may cause us to lose customers and may materially harm our reputation and our operating results. In addition, we are in the process of updating our customer facing applications and the supporting information technology infrastructure to meet our customers’ expectations for continuous service availability. Any difficulties in upgrading these applications or infrastructure or failure of our systems or those of our third-party service providers may result in interruptions in our service, which may reduce our revenues and profits, cause us to lose customers and damage our reputation. Any prolonged interruptions at any time may result in lost customers, additional refunds of customer charges, negative publicity and increased operating costs, any of which may significantly harm our business, financial condition and results of operations.

We are in the process of migrating our applications and infrastructure to new data centers and to third party hosted environments. If we do not execute the transition to these new environments in an effective manner, we may experience unplanned service disruptions or unforeseen increases in costs which may harm our operating results and our business.

Our business operations, data centers, information technology and communications systems are vulnerable to damage or interruption from natural disasters, human error, malicious attacks, fire, power loss, telecommunications failures, computer viruses, computer denial of service attacks, terrorist attacks and other events beyond our control. The majority of our activities, our corporate headquarters, our principal information technology systems, and other critical business operations are located near major seismic faults. We do not carry earthquake insurance for direct quake-related losses. Our future financial results may be materially harmed in the event of a major earthquake or other natural or man-made disaster.

We rely on internal systems and external systems maintained by manufacturers, distributors and other service providers to take and fulfill customer orders, handle customer service requests and host certain online activities. Any interruption or failure of our internal or external systems may prevent us or our service providers from accepting and fulfilling customer orders or cause company and customer data to be unintentionally disclosed. Our continuing efforts to upgrade and expand our network security and other information systems as well as our high-availability capabilities may be costly, and problems with the design or implementation of system enhancements may harm our business and our results of operations.

We host, collect, use and retain sensitive and personal customer information and data. A security breach resulting in third party access to this information and data could materially disrupt our businesses, result in the disclosure of confidential information, significantly damage our reputation and cause material losses.

We host, collect, use and retain large amounts of sensitive and personal customer information and data, including credit card information, tax return information, bank account numbers and passwords, personal and business financial data and transactions, social security numbers, healthcare information and payroll information. In addition, we collect and maintain

sensitive and personal information of our employees in the ordinary course of our business. The volume of sensitive and personal information that we collect has been increasing and will continue to increase as we further transition our businesses to connected services. We and our vendors use commercially available security technologies to protect this information and data, and we also use security and business controls to limit access to and use of such sensitive and personal customer information and data. However, such measures cannot provide absolute security, and we have experienced instances in the past where criminals, using stolen identity information obtained outside of our systems, have gained unauthorized and illegal access to our customers' data. As the accessibility of stolen identity information increases, we may experience additional instances of unauthorized and illegal access to our systems using our customers' stolen identity information in the future. In addition, third parties may fraudulently induce employees, customers, or users to disclose sensitive information in order to gain access to our data or customers' data. The security measures that we implement may not be able to prevent access to our systems from unauthorized users who have fraudulently obtained our customers' personal information. In addition, because the techniques used to obtain unauthorized access change frequently and may be difficult to detect for long periods of time, we may be unable to anticipate these techniques or implement adequate preventive measures. A major breach of our security measures or those of third parties that provide hosting services or have access to our sensitive and personal customer information may have serious negative consequences for our businesses, including possible fines, penalties and damages, reduced customer demand for our services, material harm to our reputation and brands, further regulation and oversight by federal or state agencies, and loss of our ability to provide financial transaction services or accept and process customer credit card orders or tax returns.

From time to time, we detect, or receive notices from customers or public or private agencies that they have detected, vulnerabilities in our servers, our software or third-party software components that are distributed with our products or fraudulent activity by unauthorized persons utilizing our products with stolen customer identity information. The existence of such vulnerabilities or fraudulent activity, even if they do not result in a security breach, may undermine customer confidence as well as the confidence of government agencies that we rely on to ensure that we can implement our offerings and require substantial resources to address, and we may not be able to discover or remediate such security vulnerabilities before they are exploited. In addition, our technologies, systems, and networks and our customers' devices have been subject to, and are likely to continue to be the target of, cyber attacks, computer viruses, worms, phishing attacks, malicious software programs and other information security breaches that could result in the unauthorized release, gathering, monitoring, misuse, loss or destruction of our customers' sensitive and personal information and data, or otherwise disrupt our or our customers' or other third parties' business operations. Although this is an industry-wide problem that affects software across platforms, it is increasingly affecting our offerings because cybercriminals tend to focus their efforts on well-known offerings that are popular among customers, and we expect them to continue to do so. If these cybercriminals are able to circumvent our security measures, or if we are unable to detect an intrusion into our systems and contain such intrusion in a reasonable amount of time, our customers' sensitive and personal information and data may be compromised.

In addition, our employees, contractors, temporary and seasonal employees may have access to sensitive and personal information of our customers and employees. While we conduct background checks of our employees and these other individuals and limit access to systems and data, it is possible that one or more of these individuals may circumvent these controls, resulting in a security breach. In addition, we rely on third party vendors to host certain of our sensitive and personal information and data. While we conduct due diligence on these third party partners with respect to their security and business controls, we may not have the ability to effectively monitor or oversee the implementation of these controls measures, and, in any event, individuals or third parties may be able to circumvent and/or exploit vulnerabilities that may exist in these security and business controls, resulting in a loss of sensitive and personal customer or employee information and data.

If we are unable to develop, manage and maintain critical third party business relationships, our business may be adversely affected.

Our growth is dependent on the strength of our business relationships and our ability to continue to develop, maintain and leverage new and existing relationships. We rely on various third party partners, including software and service providers, suppliers, vendors, manufacturers, distributors, contractors, financial institutions, core processors, licensing partners and development partners, among others, in many areas of our business in order to deliver our offerings and operate our business. We also rely on third parties to support the operation of our business by maintaining our physical facilities, equipment, power systems and infrastructure. In certain instances, these third party relationships are sole source or limited source relationships and can be difficult to replace or substitute depending on the level of integration of the third party's products or services into, or with, our offerings and/or the general availability of such third party's products and services. In addition, there may be few or no alternative third party providers or vendors in the market. Further, there can be no assurance that we will be able to adequately retain third party contractors engaged to help us operate our business. The failure of third parties to provide acceptable and high quality products, services and technologies or to update their products, services and technologies may result in a disruption to our business operations and our customers, which may reduce our revenues and profits, cause us to lose

customers and damage our reputation. Alternative arrangements and services may not be available to us on commercially reasonable terms or we may experience business interruptions upon a transition to an alternative partner.

In particular, we have relationships with banks, credit unions and other financial institutions that support certain critical services we offer to our customers. If macroeconomic conditions or other factors cause any of these institutions to fail, consolidate, stop providing certain services or institute cost-cutting efforts, our business and financial results may suffer and we may be unable to offer those services to our customers.

We have also started to increasingly utilize the distribution platforms of third parties like Apple's App Store and Google's Play Store for the distribution of certain of our product offerings. Although we benefit from the strong brand recognition and large user base of these distribution platforms to attract new customers, the platform owners have wide discretion to change the pricing structure, terms of service and other policies with respect to us and other developers. Any adverse changes by these third parties could adversely affect our financial results.

Increased government regulation of our businesses may harm our operating results.

The Company is subject to federal, state and local laws and regulations that affect the Company's activities, including, without limitation, areas of labor, advertising, tax, financial services, data privacy and security requirements, digital content, consumer protection, real estate, billing, e-commerce, promotions, quality of services, intellectual property ownership and infringement, import and export requirements, anti-corruption, foreign exchange controls and cash repatriation restrictions, anti-competition, environmental, health and safety. There have been significant new regulations and heightened focus by the government on many of these areas, as well as in areas such as insurance and healthcare (including, for example, the Affordable Care Act). As we expand our products and services and revise our business models, both domestically and internationally, we may become subject to additional government regulation or increased regulatory scrutiny. Further, regulators may adopt new laws or regulations or their interpretation of existing laws or regulations may differ from ours as well as the laws of other jurisdictions in which we operate. These regulatory requirements could impose significant limitations, require changes to our business, require notification to customers or employees of a security breach, restrict our use of personal information, or cause changes in customer purchasing behavior which may make our business more costly, less efficient or impossible to conduct, and may require us to modify our current or future products or services, which may harm our future financial results. For example, as our business continues to expand to new industry segments that may be more highly regulated for privacy and data security, and to countries outside the United States that have more strict data protection laws, our compliance requirements and costs may increase. We have incurred – and may continue to incur – significant expenses to comply with mandatory privacy and security standards and protocols imposed by law, regulation, industry standards or contractual obligations.

The tax preparation industry continues to receive heightened attention from federal and state governments. New legislation, regulation, public policy considerations, changes in the cybersecurity environment, litigation by the government or private entities, or new interpretations of existing laws may result in greater oversight of the tax preparation industry, restrict the types of products and services that we can offer or the prices we can charge, or otherwise cause us to change the way we operate our tax businesses or offer our tax products and services. We may not be able to respond quickly to such regulatory, legislative and other developments, and these changes may in turn increase our cost of doing business and limit our revenue opportunities. In addition, if our practices are not consistent with new interpretations of existing laws, we may become subject to lawsuits, penalties, and other liabilities that did not previously apply. We are also required to comply with a variety of state revenue agency standards in order to successfully operate our tax preparation and electronic filing services. Changes in state-imposed requirements by one or more of the states, including the required use of specific technologies or technology standards, may significantly increase the costs of providing those services to our customers and may prevent us from delivering a quality product to our customers in a timely manner.

If we fail to process transactions effectively or fail to adequately protect against disputed or potential fraudulent activities, our revenue and earnings may be harmed.

Our operations process a significant volume and dollar value of transactions on a daily basis, especially in our payroll and payments businesses. Due to the size and volume of transactions that we handle, effective processing systems and controls are essential to ensure that transactions are handled appropriately. Despite our efforts, it is possible that we may make errors or that funds may be misappropriated due to fraud. The systems supporting our business are comprised of multiple technology platforms that are difficult to scale. If we are unable to effectively manage our systems and processes we may be unable to process customer data in an accurate, reliable and timely manner, which may harm our business. In our payments processing service business if merchants for whom we process payment transactions are unable to pay refunds due to their customers in connection with disputed or fraudulent merchant transactions, we may be required to pay those amounts and our payments may exceed the amount of the customer reserves we have established to make such payments.

If we are unable to effectively combat the increasing amount and sophistication of fraudulent activities by third parties using our offerings, we may lose the confidence of our customers and government agencies and our revenues and earnings may be harmed.

The online tax preparation, payroll administration and online payments industries have been experiencing an increasing amount of fraudulent activities by third parties, and those fraudulent activities are becoming increasingly sophisticated. Although we do not believe that any of this activity is uniquely targeted at our products or business, this type of fraudulent activity may adversely impact our consumer tax, payroll, and payments businesses. In addition to any direct damages and potential fines that may result from such fraud, which may be substantial, a loss of confidence by our customers or by governmental agencies in our ability to prevent fraudulent activity that is perpetrated through our offerings may seriously harm our business and damage our brand. If we cannot adequately combat such fraudulent activity that is perpetrated through our tax offerings, state or federal tax authorities may refuse to allow us to continue to process our customers' tax returns electronically, resulting in a significant adverse impact on our earnings and revenue. As fraudulent activities become more pervasive and increasingly sophisticated, and fraud detection and prevention measures must become correspondingly more complex to combat them across the various industries in which we operate, we may implement risk control mechanisms that could make it more difficult for legitimate customers to obtain and use our products, which could result in lost revenue and negatively impact our earnings.

Third parties claiming that we infringe their proprietary rights may cause us to incur significant legal expenses and prevent us from selling our products.

We may become increasingly subject to infringement claims, including patent, copyright, trade secret, and trademark infringement claims. Litigation may be necessary to determine the validity and scope of the intellectual property rights of others. We have received a number of allegations of intellectual property infringement claims in the past and expect to receive more claims in the future based on allegations that our offerings infringe upon the intellectual property held by third parties. Some of these claims are the subject of pending litigation against us and against some of our customers. These claims may involve patent holding companies or other adverse intellectual property owners who have no relevant product revenues of their own, and against whom our own intellectual property may provide little or no deterrence. The ultimate outcome of any allegation is uncertain and, regardless of outcome, any such claim, with or without merit, may be time consuming to defend, result in costly litigation, divert management's time and attention from our business, require us to stop selling, delay shipping or redesign our products, or require us to pay monetary damages for royalty or licensing fees, or to satisfy indemnification obligations that we have with some of our customers. Our failure to obtain necessary license or other rights, or litigation arising out of intellectual property claims may harm our business.

We rely on third party intellectual property in our products and services.

Many of our products and services include intellectual property of third parties, which we license under agreements that may need to be renewed or renegotiated from time to time. We may not be able to obtain licenses to these third party technologies or content on reasonable terms, or at all. If we are unable to obtain the rights necessary to use this intellectual property in our products and services, we may not be able to sell the affected offerings and customers who are currently using the affected product may be disrupted, which may in turn harm our future financial results, damage our brand, and result in customer loss. Also, we and our customers have been and may continue to be subject to infringement claims as a result of the third party intellectual property incorporated in to our offerings. Although we try to mitigate this risk and we may not be ultimately liable for any potential infringement, pending claims require us to use significant resources, require management attention and could result in loss of customers.

Some of our offerings include third-party software that is licensed under so-called "open source" licenses, some of which may include a requirement that, under certain circumstances, we make available, or grant licenses to, any modifications or derivative works we create based upon the open source software. Although we have established internal review and approval processes to mitigate these risks, we may not be sure that all open source software is submitted for approval prior to use in our products. Many of the risks associated with usage of open source may not be eliminated, and may, if not properly addressed, harm our business.

Our intellectual property rights are valuable, and any inability to protect them could reduce the value of our products, services, and brand.

Our patents, trademarks, trade secrets, copyrights and other intellectual property rights are important assets for us. We aggressively protect our intellectual property rights by relying on federal, state and common law rights in the U.S. and internationally, as well as a variety of administrative procedures. We also rely on contractual restrictions to protect our proprietary rights in products and services. The efforts that we take to protect our proprietary rights may not always be

sufficient or effective. Protecting our intellectual property rights is costly and time consuming and may not be successful in every location. Any significant impairment of our intellectual property rights could harm our business, our brand and our ability to compete.

Policing unauthorized use and copying of our products is difficult, expensive, and time consuming. Current U.S. laws that prohibit copying give us only limited practical protection from software piracy and the laws of many other countries provide very little protection. We frequently encounter unauthorized copies of our software being sold through online marketplaces. Although we continue to evaluate and put in place technology solutions to attempt to lessen the impact of piracy and engage in efforts to educate consumers and public policy leaders on these issues and cooperate with industry groups in their efforts to combat piracy, we expect piracy to be a persistent problem that results in lost revenues and increased expenses.

Because competition for our key employees is intense, we may not be able to attract, retain and develop the highly skilled employees we need to support our planned growth.

Much of our future success depends on the continued service and availability of skilled personnel, including members of our executive team, and those in technical, marketing and staff positions. Experienced personnel in the software, mobile technologies, data science, data security, and software as a service industries are in high demand and competition for their talents is intense, especially in California and India, where the majority of our employees are located. Also, as we strive to continue to adapt to technological change and introduce new and enhanced products and business models, we must be able to secure, maintain and develop the right quality and quantity of engaged and committed talent. Although we strive to be an employer of choice, we may not be able to continue to successfully attract, retain and develop key personnel which may cause our business to suffer.

The nature of our products and services necessitates timely product launches and if we experience significant product quality problems or delays, it may harm our revenue, earnings and reputation.

All of our tax products and many of our non-tax products have rigid development timetables that increase the risk of errors in our products and the risk of launch delays. Our tax preparation software product development cycle is particularly challenging due to the need to incorporate unpredictable tax law and tax form changes each year and because our customers expect high levels of accuracy and a timely launch of these products to prepare and file their taxes by the tax filing deadline. Due to the complexity of our products and the condensed development cycles under which we operate, our products sometimes contain glitches that may unexpectedly interfere with the operation of the software. The complexity of our products may also make it difficult for us to consistently deliver offerings that contain the features, functionality and level of accuracy that our customers expect. When we encounter problems we may be required to modify our code, distribute patches to customers who have already purchased the product and recall or repackage existing product inventory in our distribution channels. If we encounter development challenges or discover errors in our products late in our development cycle it may cause us to delay our product launch date. Any major defects or launch delays may lead to loss of customers and revenue, negative publicity, customer and employee dissatisfaction, reduced retailer shelf space and promotions, and increased operating expenses, such as inventory replacement costs, legal fees or payments resulting from our commitment to reimburse penalties and interest paid by customers due solely to calculation errors in our consumer tax preparation products.

Our businesses are highly seasonal and our quarterly results could fluctuate significantly.

Our Consumer Tax, Professional Tax, and QuickBooks offerings have significant and distinct seasonal patterns. This has caused significant fluctuations in our quarterly financial results. Sales of income tax preparation products and services are heavily concentrated from November through April. Revenue from our QuickBooks offerings tends to be highest around calendar year end, during our second and third fiscal quarters. These seasonal patterns mean that our total net revenue is usually highest during the second and third fiscal quarters ending January 31 and April 30. We typically experience lower total net revenues, and operating losses, in the first and fourth fiscal quarters ending October 31 and July 31. In the near term we expect the seasonality of our overall business to continue. In the longer term we expect the seasonality of certain of our businesses to diminish due to our decision to deliver ongoing enhancements and certain connected services for desktop offerings sold after fiscal 2014 and due to increasing customer preference for online and subscription versions of our offerings, but we expect the seasonality of certain other businesses, particularly our consumer and professional tax businesses, to continue. Our financial results may also fluctuate from quarter to quarter and year to year due to a variety of factors, including factors that may affect the timing of revenue recognition. These include changes to our offerings that result in the inclusion or exclusion of ongoing services; changes in product pricing strategies or product sales mix; the timing of the availability of federal and state tax forms from taxing agencies and the ability of those agencies to receive electronic tax return submissions; changes in consumer behavior; and the timing of our discontinuation of support for older product offerings. Other factors that may affect our quarterly or annual financial results include the timing of acquisitions, divestitures, and goodwill and acquired intangible asset impairment charges. Any fluctuations in our operating results may adversely affect our stock price.

We are frequently a party to litigation and regulatory inquiries which could result in an unfavorable outcome and have an adverse effect on our business, financial condition, results of operation and cash flows.

We are subject to various legal proceedings (including class action lawsuits), claims and regulatory inquiries that have arisen out of the ordinary conduct of our business and are not yet resolved and additional claims and inquiries may arise in the future. The number and significance of these claims and inquiries have increased as our businesses have evolved. Any proceedings, claims or inquiries initiated by or against us, whether successful or not, may be time consuming; result in costly litigation, damage awards, consent decrees, injunctive relief or increased costs of business; require us to change our business practices or products; require significant amounts of management time; result in diversion of significant operations resources; or otherwise harm our business and future financial results.

Adverse global economic conditions could harm our business and financial condition.

Adverse macroeconomic developments could negatively affect our business and financial condition. Adverse global economic events have caused, and could, in the future, cause disruptions and volatility in global financial markets and increased rates of default and bankruptcy, and could impact consumer and small business spending. In particular, because the majority of our revenue is derived from sales within the U.S., economic conditions in the U.S. have an even greater impact on us than companies with a more diverse international presence. Challenging economic times could cause potential new customers not to purchase or to delay purchasing of our products and services, and could cause our existing customers to discontinue purchasing or delay upgrades of our existing products and services, thereby negatively impacting our revenues and future financial results. Decreased consumer spending levels could also reduce credit and debit card transaction processing volumes causing reductions in our payments revenue. Poor economic conditions and high unemployment have caused, and could in the future cause, a significant decrease in the number of tax returns filed, which may have a significant effect on the number of tax returns we prepare and file. In addition, weakness in the end-user consumer and small business markets could negatively affect the cash flow of our distributors and resellers who could, in turn, delay paying their obligations to us, which could increase our credit risk exposure and cause delays in our recognition of revenue or future sales to these customers. Any of these events could harm our business and our future financial results.

We regularly invest resources to update and improve our internal information technology systems and software platforms. Should our investments not succeed, or if delays or other issues with new or existing internal technology systems and software platforms disrupt our operations, our business could be harmed.

We rely on our network and data center infrastructure and internal technology systems for many of our development, marketing, operational, support, sales, accounting and financial reporting activities. We are continually investing resources to update and improve these systems and environments in order to meet existing, as well as the growing and changing requirements of our business and customers. If we experience prolonged delays or unforeseen difficulties in updating and upgrading our systems and architecture, we may experience outages and may not be able to deliver certain offerings and develop new offerings and enhancements that we need to remain competitive. Such improvements and upgrades are often complex, costly and time consuming. In addition such improvements can be challenging to integrate with our existing technology systems, or may uncover problems with our existing technology systems. Unsuccessful implementation of hardware or software updates and improvements could result in outages, disruption in our business operations, loss of revenue or damage to our reputation.

Our international operations are subject to increased risks which may harm our business, operating results, and financial condition.

In addition to uncertainty about our ability to generate revenues from our foreign operations and expand into international markets, there are risks inherent in doing business internationally, including:

- different or more restrictive privacy, data protection and other laws that could require us to make changes to our products, services and operations;
- difficulties in developing, staffing, and simultaneously managing a large number of varying foreign operations as a result of distance, language, and cultural differences;
- stringent local labor laws and regulations;
- credit risk and higher levels of payment fraud;
- profit repatriation restrictions, and foreign currency exchange restrictions;
- geopolitical events, including natural disasters, acts of war and terrorism;

- import or export regulations;
- compliance with U.S. laws such as the Foreign Corrupt Practices Act, and local laws prohibiting corrupt payments to government officials;
- antitrust and competition regulations;
- potentially adverse tax developments;
- economic uncertainties relating to European sovereign and other debt;
- trade barriers and changes in trade regulations;
- political or social unrest, economic instability, repression, or human rights issues; and
- risks related to other government regulation or required compliance with local laws.

Violations of the complex foreign and U.S. laws and regulations that apply to our international operations may result in fines, criminal actions or sanctions against us, our officers or our employees, prohibitions on the conduct of our business and damage to our reputation. Although we have implemented policies and procedures designed to promote compliance with these laws, there can be no assurance that our employees, contractors or agents will not violate our policies. These risks inherent in our international operations and expansion increase our costs of doing business internationally and may result in harm to our business, operating results, and financial condition.

If actual product returns exceed reserves our future financial results may be harmed.

We ship more desktop software products to our distributors and retailers than we expect them to sell, in order to reduce the risk that distributors or retailers may run out of products. This is particularly true for our Consumer Tax products, which have a short selling season and for which returns occur primarily in our fiscal third and fourth quarters. Like many software companies that sell their products through distributors and retailers, we have historically accepted significant product returns. We establish reserves against revenue for product returns in our financial statements based on estimated returns and we closely monitor product sales and inventory in the retail channel in an effort to maintain adequate reserves. In the past, returns have not differed significantly from these reserves. However, if we experience actual returns that significantly exceed reserves, it may result in lower net revenue.

Unanticipated changes in our income tax rates may affect our future financial results.

Our future effective income tax rates may be favorably or unfavorably affected by unanticipated changes in the valuation of our deferred tax assets and liabilities, or by changes in tax laws or their interpretation. In addition, we are subject to the continuous examination of our income tax returns by the Internal Revenue Service and other tax authorities. We regularly assess the likelihood of adverse outcomes resulting from these examinations to determine the adequacy of our provision for income taxes. These continuous examinations may result in unforeseen tax-related liabilities, which may harm our future financial results.

Amortization of acquired intangible assets and impairment charges may cause significant fluctuation in our net income.

Our acquisitions have resulted in significant expenses, including amortization and impairment of acquired technology and other acquired intangible assets, and impairment of goodwill. Total costs and expenses in these categories were approximately \$339 million in fiscal 2015, \$25 million in fiscal 2014, and \$76 million in fiscal 2013. Although under current accounting rules goodwill is not amortized, we may incur impairment charges related to the goodwill already recorded and to goodwill arising out of future acquisitions. We test the impairment of goodwill annually in our fourth fiscal quarter or more frequently if indicators of impairment arise. The timing of the formal annual test may result in charges to our statement of operations in our fourth fiscal quarter that may not have been reasonably foreseen in prior periods. The total costs and expenses for fiscal 2015 and fiscal 2013 included goodwill and intangible asset impairment charges of \$297 million and \$46 million. At July 31, 2015, we had \$1.3 billion in goodwill and \$87 million in net acquired intangible assets on our balance sheet, both of which may be subject to impairment charges in the future. New acquisitions, and any impairment of the value of acquired intangible assets, may have a significant negative impact on our future financial results.

Our acquisition and divestiture activities may disrupt our ongoing business, may involve increased expenses and may present risks not contemplated at the time of the transactions.

We have acquired and may continue to acquire companies, products and technologies that complement our strategic direction. Acquisitions involve significant risks and uncertainties, including:

- inability to successfully integrate the acquired technology and operations into our business and maintain uniform standards, controls, policies, and procedures;
- inability to realize synergies expected to result from an acquisition;
- disruption of our ongoing business and distraction of management;
- challenges retaining the key employees, customers, resellers and other business partners of the acquired operation;
- the internal control environment of an acquired entity may not be consistent with our standards and may require significant time and resources to improve;
- unidentified issues not discovered in our due diligence process, including product or service quality issues, intellectual property issues and legal contingencies;
- failure to successfully further develop an acquired business or technology and any resulting impairment of amounts currently capitalized as intangible assets;
- in the case of foreign acquisitions and investments, the impact of particular economic, tax, currency, political, legal and regulatory risks associated with specific countries.

We have divested and may in the future divest certain assets or businesses that no longer fit with our strategic direction or growth targets. Divestitures involve significant risks and uncertainties, including:

- inability to find potential buyers on favorable terms;
- failure to effectively transfer liabilities, contracts, facilities and employees to buyers;
- requirements that we retain or indemnify buyers against certain liabilities and obligations in connection with any such divestiture;
- the possibility that we will become subject to third-party claims arising out of such divestiture;
- challenges in identifying and separating the intellectual properties to be divested from the intellectual properties that we wish to retain;
- inability to reduce fixed costs previously associated with the divested assets or business;
- challenges in collecting the proceeds from any divestiture;
- disruption of our ongoing business and distraction of management;
- loss of key employees who leave the Company as a result of a divestiture;
- if customers or partners of the divested business do not receive the same level of service from the new owners, our other businesses may be adversely affected, to the extent that these customers or partners also purchase other products offered by us or otherwise conduct business with our retained business.

Because acquisitions and divestitures are inherently risky, our transactions may not be successful and may, in some cases, harm our operating results or financial condition. Although we typically fund our acquisitions through cash available from operations, if we were to use debt to fund acquisitions or for other purposes, our interest expense and leverage would increase significantly, and if we were to issue equity securities as consideration in an acquisition, current shareholders' percentage ownership and earnings per share would be diluted.

We have \$500 million in debt outstanding and may incur other debt in the future, which may adversely affect our financial condition and future financial results.

In fiscal 2007 we issued \$500 million in senior unsecured notes due in March 2017. As the debt matures, we will have to expend significant resources to either repay or refinance these notes. If we decide to refinance the notes, we may be required to do so on different or less favorable terms or we may be unable to refinance the notes at all, both of which may adversely affect our financial condition.

We also have a \$500 million five-year revolving credit facility. We may use the proceeds of any advances against the credit facility for general corporate purposes, including future acquisitions and share repurchases.

This debt may adversely affect our financial condition and future financial results by, among other things:

- increasing our vulnerability to downturns in our business, to competitive pressures and to adverse economic and industry conditions;
- requiring the dedication of a portion of our expected cash from operations to service our indebtedness, thereby reducing the amount of expected cash flow available for other purposes, including capital expenditures and acquisitions; and
- limiting our flexibility in planning for, or reacting to, changes in our businesses and our industries.

Our current revolving credit facility imposes restrictions on us, including restrictions on our ability to create liens on our assets and the ability of our subsidiaries to incur indebtedness, and require us to maintain compliance with specified financial ratios. Our ability to comply with these ratios may be affected by events beyond our control. In addition, our short- and long-term debt includes covenants that may adversely affect our ability to incur certain liens or engage in certain types of sale and leaseback transactions. If we breach any of the covenants under our short- and long-term debt or our revolving credit facility and do not obtain a waiver from the lenders, then, subject to applicable cure periods, any outstanding indebtedness may be declared immediately due and payable.

In addition, changes by any rating agency to our credit rating may negatively impact the value and liquidity of both our debt and equity securities. If our credit ratings are downgraded or other negative action is taken, the interest rate payable by us under our revolving credit facility may increase. In addition, any downgrades in our credit ratings may affect our ability to obtain additional financing in the future and may affect the terms of any such financing.

We are subject to risks associated with information disseminated through our services.

The laws relating to the liability of online services companies for information such as online content disseminated through their services are subject to frequent challenges. In spite of settled law in the U.S., claims are made against online services companies by parties who disagree with the content. Where our online content is accessed on the internet outside of the U.S., challenges may be brought under foreign laws which do not provide the same protections for online services companies as in the U.S. These challenges in either U.S. or foreign jurisdictions may rise to legal claims alleging defamation, libel, invasion of privacy, negligence, copyright or trademark infringement, or other theories based on the nature and content of the materials disseminated through the services. Certain of our services include content generated by users of our online services. Although this content is not generated by us, claims of defamation or other injury may be made against us for that content. Any costs incurred as a result of this potential liability may harm our business.

Our stock price may be volatile and your investment could lose value.

Our stock price is subject to changes in recommendations or earnings estimates by financial analysts, changes in investors' or analysts' valuation measures for our stock, our credit ratings and market trends unrelated to our performance. Furthermore, speculation in the press or investment community about our strategic position, financial condition, results of operations, business or security of our products, can cause changes in our stock price. These factors, as well as general economic and political conditions and the timing of announcements in the public market regarding new products, product enhancements or technological advances by our competitors or us, and any announcements by us of acquisitions, major transactions, or management changes may adversely affect our stock price. Further, any changes in the amounts or frequency of share repurchases or dividends may also adversely affect our stock price. A significant drop in our stock price could expose us to the risk of securities class actions lawsuits, which may result in substantial costs and divert management's attention and resources, which may adversely affect our business.

Our business depends on our strong reputation and the value of our brands.

Developing and maintaining awareness of our brands is critical to achieving widespread acceptance of our existing and future products and services and is an important element in attracting new customers. Adverse publicity (whether or not justified) relating to events or activities attributed to us, our employees or agents may tarnish our reputation and reduce the value of our brands. Damage to our reputation and loss of brand equity may reduce demand for our products and services and thus have an adverse effect on our future financial results, as well as require additional resources to rebuild our reputation and restore the value of the brands.

ITEM 1B UNRESOLVED STAFF COMMENTS

None.

ITEM 2 PROPERTIES

Our principal locations, their purposes and the expiration dates for the leases on facilities at those locations as of July 31, 2015 are shown in the table below. We have renewal options on many of our leases.

| Location | Purpose | Approximate Square Feet | Principal Lease Expiration Dates |
|--|---|-------------------------|----------------------------------|
| Mountain View and Menlo Park, California | Corporate headquarters and principal offices for Small Business segment | 866,000 | 2024 - 2026 |
| San Diego, California | Principal offices for Consumer Tax segment | 466,000 | 2017 |
| Bangalore, India | Principal offices for Intuit India | 359,000 | 2015 - 2022 |
| Quincy, Washington | Primary data center | 240,000 | Owned |
| San Francisco, California | Principal offices for Demandforce business | 216,000 | 2015 - 2025 |
| Woodland Hills, California | Principal offices for Small Business payment solutions business | 168,000 | 2018 |
| Plano, Texas | Principal offices for Professional Tax segment and data center | 166,000 | 2026 |

We own buildings comprising approximately 169,000 square feet of the total square feet shown in the table above for our Mountain View and Menlo Park, California headquarters facility. We also lease or own facilities in a number of smaller domestic locations and internationally in Canada, the United Kingdom, Singapore, Australia, and several other locations. We believe our facilities are suitable and adequate for our current and near-term needs, and that we will be able to locate additional facilities as needed. See Note 9 to the financial statements in Item 8 of this Annual Report for more information about our lease commitments.

ITEM 3 LEGAL PROCEEDINGS

Intuit has been contacted by regulatory authorities, including Congress, the Federal Trade Commission, the SEC, the Department of Justice and certain state Attorneys General, in connection with the increase during the 2015 tax season in attempts by criminals using stolen identity information to file fraudulent tax returns and claim refunds at the state and federal levels. Intuit is cooperating with all such government inquiries, including formal requests for information. In addition, we are the subject of certain actions, including putative class action lawsuits by individuals who claim to have suffered damages in connection with the foregoing events. We believe that the allegations contained within these lawsuits are without merit, and we intend to vigorously defend against them.

Intuit is subject to certain routine legal proceedings, including class action lawsuits like those described above, as well as demands, claims, government inquiries and threatened litigation, that arise in the normal course of our business, including assertions that we may be infringing patents or other intellectual property rights of others. We currently believe that, in addition to any amounts accrued, the amount of potential losses, if any, for any pending claims of any type (either alone or combined) will not have a material impact on our consolidated financial statements. The ultimate outcome of any litigation is uncertain and, regardless of outcome, litigation can have an adverse impact on Intuit because of defense costs, negative publicity, diversion of management resources and other factors. Our failure to obtain necessary license or other rights, or litigation arising out of intellectual property claims could adversely affect our business.

ITEM 4
MINE SAFETY DISCLOSURES

None.

PART II

ITEM 5
MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES

Market Information for Common Stock

Intuit's common stock is quoted on the NASDAQ Global Select Market under the symbol "INTU." The following table shows the range of high and low sale prices reported on the NASDAQ Global Select Market for the periods indicated. The closing price of Intuit's common stock on August 24, 2015 was \$84.25.

| | <u>High</u> | <u>Low</u> |
|--|-------------|------------|
| Fiscal year ended July 31, 2014 | | |
| First quarter | \$71.97 | \$61.50 |
| Second quarter | 77.78 | 70.81 |
| Third quarter | 82.40 | 69.02 |
| Fourth quarter | 83.54 | 73.50 |
| Fiscal year ended July 31, 2015 | | |
| First quarter | \$88.84 | \$77.96 |
| Second quarter | 95.84 | 84.75 |
| Third quarter | 102.17 | 85.77 |
| Fourth quarter | 109.21 | 99.02 |

Stockholders

As of August 24, 2015 we had approximately 535 record holders and approximately 126,000 beneficial holders of our common stock.

Dividends

We declared and paid quarterly cash dividends that totaled \$1.00 per share of outstanding common stock or \$283 million during fiscal 2015; \$0.76 per share of outstanding common stock or \$220 million during fiscal 2014; and \$0.68 per share of outstanding common stock or \$203 million during fiscal 2013. In August 2015 our Board of Directors declared a quarterly cash dividend of \$0.30 per share of outstanding common stock payable on October 19, 2015 to stockholders of record at the close of business on October 12, 2015. We currently expect to continue to pay comparable cash dividends on a quarterly basis in the future; however, future declarations of dividends and the establishment of future record dates and payment dates are subject to the final determination of our Board of Directors.

Recent Sales of Unregistered Securities

None.

Purchases of Equity Securities by the Issuer and Affiliated Purchasers

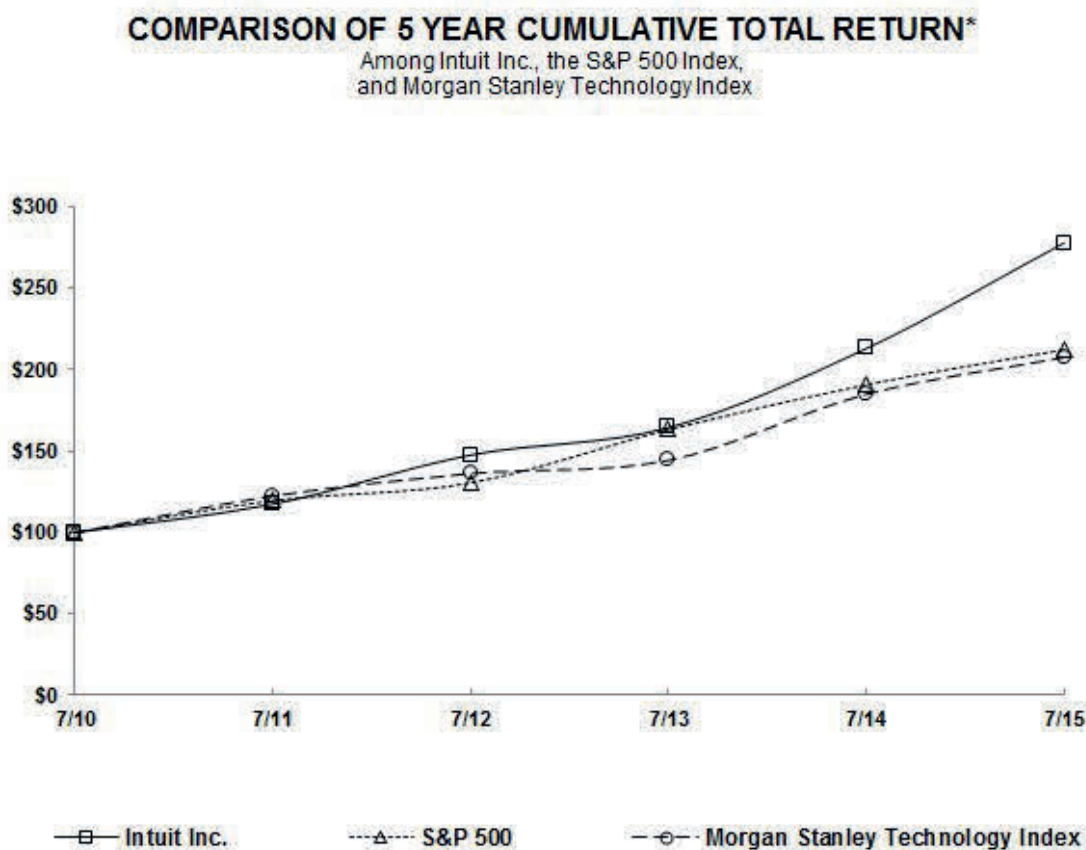

Stock repurchase activity during the three months ended July 31, 2015 was as follows:

| Period | Total Number of Shares Purchased | Average Price Paid per Share | Total Number of Shares Purchased as Part of Publicly Announced Plans | Approximate Dollar Value of Shares That May Yet Be Purchased Under the Plans |
|------------------------------------|--|------------------------------------|--|--|
| May 1, 2015 through May 31, 2015 | 86,141 | \$99.85 | 86,141 | \$2,625,335,758 |
| June 1, 2015 through June 30, 2015 | — | \$— | — | \$2,625,335,758 |
| July 1, 2015 through July 31, 2015 | — | \$— | — | \$2,625,335,758 |
| Total | <u>86,141</u> | <u>\$99.85</u> | <u>86,141</u> | |

Note: All of the shares purchased as part of publicly announced plans during the three months ended July 31, 2015 were purchased under a plan we announced on August 19, 2013 under which we are authorized to repurchase up to \$2 billion of our common stock from time to time over a four-year period ending on August 19, 2017. At July 31, 2015, authorization from our Board of Directors to expend up to \$625 million remained available under that plan. On May 19, 2015 our Board approved a new stock repurchase program under which we are authorized to repurchase up to an additional \$2 billion of our common stock from time to time over a four-year period ending on May 19, 2019.

Company Stock Price Performance

The graph below compares the cumulative total stockholder return on Intuit common stock for the last five full fiscal years with the cumulative total returns on the S&P 500 Index and the Morgan Stanley Technology Index for the same period. The graph assumes that \$100 was invested in Intuit common stock and in each of the other indices on July 31, 2010 and that all dividends were reinvested. Intuit did not pay cash dividends prior to fiscal 2012. The comparisons in the graph below are based on historical data – with Intuit common stock prices based on the closing price on the dates indicated – and are not intended to forecast the possible future performance of Intuit’s common stock.

*\$100 invested on 7/31/10 in stock or index, including reinvestment of dividends.
Fiscal year ending July 31.

ITEM 6

SELECTED FINANCIAL DATA

The following tables show Intuit's selected financial information for the past five fiscal years. The comparability of the information is affected by a variety of factors, including acquisitions and divestitures of businesses, issuance and repayment of long-term debt, share-based compensation expense, amortization of acquired technology and other acquired intangible assets, repurchases of common stock under our stock repurchase programs, and the payment of cash dividends.

In fiscal 2007 we issued \$1 billion in senior notes and in fiscal 2012 we repaid \$500 million of those notes when they became due using cash from operations. The remaining senior notes are due in March 2017. In fiscal 2011 through fiscal 2015 we acquired several companies and we have included the results of operations for each of them in our consolidated results of operations from their respective dates of acquisition.

In fiscal 2013 we completed the sale of our Intuit Websites business and in fiscal 2014 we completed the sales of our Intuit Financial Services and Intuit Health businesses. In the fourth quarter of fiscal 2015 we determined that our Demandforce, QuickBase, and Quicken businesses became long-lived assets held for sale. We accounted for all of these businesses as discontinued operations and have therefore reclassified our statements of operations for all periods presented below to reflect them as such. We have also reclassified our balance sheets for all periods presented below to reflect Intuit Financial Services, Demandforce, QuickBase, and Quicken as discontinued operations. The net assets of Intuit Websites and Intuit Health were not significant, so we have not reclassified our balance sheets for any period presented below to reflect them as discontinued operations.

To better understand the information in these tables, investors should read "Management's Discussion and Analysis of Financial Condition and Results of Operations" in Item 7 of this Annual Report, and the financial statements and related notes in Item 8 of this Annual Report, especially Note 7, "Discontinued Operations."

Consolidated Statement of Operations Data

ITEM 7**MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

Our Management's Discussion and Analysis of Financial Condition and Results of Operations (MD&A) includes the following sections:

- Executive Overview that discusses at a high level our operating results and some of the trends that affect our business.
- Critical Accounting Policies and Estimates that we believe are important to understanding the assumptions and judgments underlying our financial statements.
- Results of Operations that includes a more detailed discussion of our revenue and expenses.
- Liquidity and Capital Resources which discusses key aspects of our statements of cash flows, changes in our balance sheets and our financial commitments.

You should note that this MD&A discussion contains forward-looking statements that involve risks and uncertainties. Please see the section entitled "*Forward-Looking Statements and Risk Factors*" at the beginning of Item 1A for important information to consider when evaluating such statements.

You should read this MD&A in conjunction with the financial statements and related notes in Item 8 of this Annual Report. In fiscal 2014 we acquired Check Inc. We have included their results of operations in our consolidated results of operations from the date of acquisition.

In fiscal 2013 we completed the sale of our Intuit Websites business and in fiscal 2014 we completed the sales of our Intuit Financial Services (IFS) and Intuit Health businesses. In the fourth quarter fiscal 2015 we determined that our Demandforce, QuickBase, and Quicken businesses became long-lived assets held for sale. We accounted for all of these businesses as discontinued operations and have therefore reclassified our statements of operations and balance sheets for all periods presented to reflect them as such. Because the cash flows of these discontinued operations were not material for any period presented, we have not segregated the cash flows of those businesses from continuing operations on our statements of cash flows. See "*Results of Operations – Non-Operating Income and Expense – Discontinued Operations*" later in this Item 7 for more information. Unless otherwise noted, the following discussion pertains to our continuing operations.

Executive Overview

This overview provides a high level discussion of our operating results and some of the trends that affect our business. We believe that an understanding of these trends is important in order to understand our financial results for fiscal 2015 as well as our future prospects. This summary is not intended to be exhaustive, nor is it intended to be a substitute for the detailed discussion and analysis provided elsewhere in this Annual Report on Form 10-K.

*Industry Trends and Seasonality*Industry Trends

The industry in which we operate is dynamic and highly competitive, and we expect it to remain so in the future. The markets for software and related services, especially highly-available connected services, are characterized by rapid technological change, shifting customer needs, and frequent new product introductions and enhancements. Competitive interest and expertise

in many of the markets we serve have grown markedly over the past few years and we expect this trend to continue. There are also large, cloud-based service companies who innovate quickly and serve small businesses and consumers. While today our competition with such companies may be limited, as we and those companies grow, our competition with them may increase. In recent years the widespread availability of the Internet, the emergence of mobile devices, and the explosion of social media have accelerated the pace of change and revolutionized the way that people throughout the world manage important financial tasks. The result is a global market that is shifting from traditional services that are paper-based, human-produced, and brick-and-mortar bound, to one where people understand, demand, and embrace the benefits of connected services. This trend toward connected services is the primary driver of the strategies in all of our businesses.

Seasonality

Our Consumer Tax, Professional Tax, and QuickBooks offerings have significant and distinct seasonal patterns. As a result, our total net revenue is usually highest during our second quarter ending January 31 and third quarter ending April 30. We typically report losses in our first quarter ending October 31 and fourth quarter ending July 31, when our total net revenue is lower but core operating expenses such as research and development continue at relatively consistent levels. Although the seasonal patterns for all three of our reporting segments continue to evolve as described below, we expect the overall seasonality of our business to continue to have a significant impact on our quarterly financial results in the future.

Our Consumer Tax and Professional Tax offerings are highly seasonal. Sales of income tax preparation products and services are heavily concentrated from November through April. In addition, an increasing proportion of our Consumer Tax revenue has been shifting to later in this seasonal period and we expect that trend to continue in the future. This is due in part to the growth in sales of TurboTax Online, for which we recognize revenue toward the end of the tax preparation process, when tax returns are printed or electronically filed. The seasonality of our Consumer Tax and Professional Tax revenue is also affected by the timing of the availability of tax forms from taxing agencies and the ability of those agencies to receive electronic tax return submissions. Delays in the availability of tax forms or the ability of taxing agencies to receive submissions can cause Consumer Tax and Professional Tax revenue to shift between our fiscal quarters. In fiscal 2015 we began delivering ongoing enhancements and certain connected services for our Professional Tax desktop software offerings. As a result of this change, we recognize revenue for these offerings as services are provided through the end of each calendar year.

In our Small Business segment, prior to fiscal 2015 we launched annual releases of our QuickBooks desktop software products each fall and revenue for those products tended to be highest around calendar year end, during our second and third fiscal quarters. Starting with QuickBooks 2015, which was released in the first quarter of fiscal 2015, we began delivering ongoing enhancements and certain connected services for our QuickBooks desktop software products. As a result of this change, we recognize revenue for these QuickBooks desktop products as services are provided over approximately three years. Customers are also increasingly choosing the online and subscription versions of our QuickBooks offerings, for which we recognize revenue as the services are provided. Customer acquisition for these offerings tends to be highest around calendar year end, during our second and third fiscal quarters. For these reasons, the seasonality of our Small Business segment revenue has started to become less pronounced and we expect that trend to continue in the future.

Key Challenges and Risks

Our growth strategy depends upon our ability to initiate and embrace disruptive technology trends, to enter new markets, and to drive broad adoption of the products and services we develop and market. Our future growth also increasingly depends on the strength of our third-party business relationships and our ability to continue to develop, maintain and strengthen new and existing relationships. To remain competitive and continue to grow, we are investing significant resources in our product development, marketing, and sales capabilities, and we expect to continue to do so in the future.

As we continue transitioning to offer more connected services, the ongoing operation and availability of our information technology and communication systems and those of our external service providers is becoming increasingly important. Because we help customers manage their financial lives, we face risks associated with the hosting, collection, use and retention of personal customer information and data. We are investing significant management attention and resources in our information technology infrastructure and in our privacy and security capabilities, and we expect to continue to do so in the future.

During this tax season, state taxing authorities, the IRS, and the tax preparation industry experienced an increase in attempts by criminals using stolen identity information to file fraudulent tax returns and claim refunds at the federal level and expanding into the state level. In the third quarter of fiscal 2015, we and certain states took the precautionary step of suspending the electronic filing of state tax returns for a short period of time to assess this activity and the measures used to combat it. As part of this effort, we implemented additional security measures in our products and began working with state governments to share information regarding suspicious filings while continuing to share such information with the federal government. In addition, as a result of recent events and with the continued focus on the growing industry-wide challenge of cyberfraud during this tax season, Intuit has been contacted by regulatory authorities, including Congress, the Federal Trade Commission, the SEC, the Department of Justice and certain state Attorneys General. As previously disclosed, Intuit is cooperating with all such inquiries,

including formal requests for information. Going forward, we expect to continue to invest in security and to work with the broader industry and government to protect our customers against this type of fraud. While we have experienced negative publicity associated with this industry-wide issue, we do not believe our recent financial performance has been materially adversely impacted by this fraudulent activity or by the actions we have taken to combat it. However, there can be no assurance that our future financial performance will not be adversely impacted.

For a complete discussion of the most significant risks and uncertainties affecting our business, please see “*Forward-Looking Statements and Risk Factors*” in Item 1A of this Report.

Overview of Financial Results

The most important financial indicators that we use to assess our business are revenue growth for the company as a whole, for each reportable segment, and for product lines within each reportable segment; operating income growth and operating income margins for the company as a whole and for each reportable segment; earnings per share; and cash flow from operations. We also track certain non-financial drivers of revenue growth and, when material, identify them in the applicable discussions of segment results below. These non-financial drivers include, for example, customer growth and retention for all of our businesses and transaction volume for our payment processing business. Total credit and debit card transaction volume correlates strongly with the macroeconomic environment and is one of the key drivers of revenue growth in our payment processing business. Customers for our connected services offerings have generally grown faster than those for our traditional desktop software offerings, reflecting our strategic focus on connected services over the past few years. Connected services (total service and other revenue) generated \$3.0 billion or 73% of our total revenue in fiscal 2015, compared with about 50% of our total revenue seven years ago. We expect connected services revenue as a percentage of our total revenue to continue to grow in the future.

Total net revenue for fiscal 2015 was \$4.2 billion, a decrease of 1% compared with fiscal 2014. Total net revenue results were affected by the change to our desktop software offerings described in “*Industry Trends and Seasonality*” above. Revenue in our Small Business segment decreased 2% compared with fiscal 2014 due to the impact of this change on our QuickBooks desktop offerings, which more than offset QuickBooks Online revenue growth. The change to our desktop software offerings also impacted our Professional Tax segment, whose revenue decreased 33% compared with fiscal 2014. Revenue in our Consumer Tax segment increased 8% compared with fiscal 2014 due to 7% growth in U.S. federal TurboTax units.

Operating income from continuing operations decreased 43% in fiscal 2015 compared with fiscal 2014 due to the impact of the change to our desktop software offerings on fiscal 2015 revenue and due to higher expenses for staffing, share-based compensation, and outside services. We also recorded goodwill and intangible asset impairment charges of \$148 million to operating expense in fiscal 2015.

Net income from continuing operations decreased 52% in fiscal 2015 compared with fiscal 2014 due to the decrease in operating income and a higher effective tax rate that related to the goodwill impairment charge in the fiscal 2015 period. Diluted net income per share from continuing operations for fiscal 2015 decreased 51% to \$1.45, in line with the decrease in net income for that period.

We ended fiscal 2015 with cash, cash equivalents and investments totaling \$1.7 billion. In fiscal 2015 we generated cash from operations, net sales of investments, and the issuance of common stock under employee stock plans. During the same period we used cash for the repurchase of shares of our common stock under our stock repurchase programs, the payment of cash dividends, and capital expenditures. At July 31, 2015, we had authorization from our Board of Directors to expend up to an additional \$2.6 billion for stock repurchases through May 19, 2019.

Critical Accounting Policies and Estimates

In preparing our consolidated financial statements in accordance with U.S. generally accepted accounting principles (GAAP), we are required to make estimates, assumptions, and judgments that can have a significant impact on our net revenue, operating income or loss and net income or loss, as well as on the value of certain assets and liabilities on our balance sheet. We believe that the estimates, assumptions, and judgments involved in the following accounting policies have the greatest potential impact on our consolidated financial statements, so we consider these to be our critical accounting policies:

- Revenue Recognition
- Business Combinations
- Goodwill, Acquired Intangible Assets, and Other Long-Lived Assets – Impairment Assessments
- Accounting for Share-Based Compensation Plans
- Legal Contingencies
- Accounting for Income Taxes – Estimates of Deferred Taxes, Valuation Allowances, and Uncertain Tax Positions

Our senior management has reviewed the development and selection of these critical accounting policies and their disclosure in this Annual Report on Form 10-K with the Audit and Risk Committee of our Board of Directors.

Revenue Recognition

We derive revenue from the sale of software subscriptions, hosted services, packaged software products, financial supplies, technical support plans, transaction fees, merchant services hardware, and multiple element arrangements that may include a combination of these items. We follow the appropriate revenue recognition rules for each type of revenue. For additional information, see “*Revenue Recognition*” in Note 1 to the financial statements in Item 8 of this Annual Report. We generally recognize revenue when persuasive evidence of an arrangement exists, we have delivered the product or performed the service, the fee is fixed or determinable and collectibility is probable. However, determining whether and when some of these criteria have been satisfied often involves exercising judgment and using estimates that can have a significant impact on the timing and amount of revenue we report. For example, for multiple element arrangements containing only software and software-related elements, we must exercise judgment and use estimates in order to (1) allocate the total price among the various elements we must deliver; (2) determine whether undelivered services are essential to the functionality of the delivered products and services; (3) determine whether vendor-specific evidence of fair value exists for each undelivered element; and (4) determine whether and when each element has been delivered. For multiple element arrangements containing non-software elements, we must exercise judgment and use estimates in order to (1) determine whether and when each element has been delivered; (2) determine the fair value of each element using the selling price hierarchy of vendor-specific evidence (VSOE) of fair value if available, third-party evidence (TPE) if VSOE is not available, and estimated selling price (ESP) if neither VSOE nor TPE is available; and (3) allocate the total price among the various elements based on the relative selling price method. If we were to change any of these judgments or estimates, it could cause a material increase or decrease in the amount of revenue that we report in a particular period. Amounts for fees collected or invoiced and due relating to arrangements where revenue cannot be recognized are reflected on our balance sheet as deferred revenue and recognized when the applicable revenue recognition criteria are satisfied.

Business Combinations

As described in “*Description of Business and Summary of Significant Accounting Policies – Business Combinations*,” in Note 1 to the financial statements in Item 8 of this Annual Report, under the acquisition method of accounting we generally recognize the identifiable assets acquired, the liabilities assumed, and any noncontrolling interests in an acquiree at their fair values as of the date of acquisition. We measure goodwill as the excess of consideration transferred, which we also measure at fair value, over the net of the acquisition date fair values of the identifiable assets acquired and liabilities assumed. The acquisition method of accounting requires us to exercise judgment and make significant estimates and assumptions regarding the fair values of the elements of a business combination as of the date of acquisition, including the fair values of identifiable intangible assets, deferred tax asset valuation allowances, liabilities related to uncertain tax positions, and contingencies. This method also requires us to refine these estimates over a one-year measurement period to reflect new information obtained about facts and circumstances that existed as of the acquisition date that, if known, would have affected the measurement of the amounts recognized as of that date. If we are required to retroactively adjust provisional amounts that we have recorded for the fair values of assets and liabilities in connection with acquisitions, these adjustments could materially decrease our operating income and net income and result in lower asset values on our balance sheet.

Significant estimates and assumptions that we must make in estimating the fair value of acquired technology, customer lists, and other identifiable intangible assets include future cash flows that we expect to generate from the acquired assets. If the subsequent actual results and updated projections of the underlying business activity change compared with the assumptions and projections used to develop these values, we could record impairment charges. In addition, we have estimated the economic lives of certain acquired assets and these lives are used to calculate depreciation and amortization expense. If our estimates of the economic lives change, depreciation or amortization expenses could be accelerated or slowed.

Goodwill, Acquired Intangible Assets and Other Long-Lived Assets – Impairment Assessments

We estimate the fair value of acquired intangible assets and other long-lived assets that have finite useful lives whenever an event or change in circumstances indicates that the carrying value of the asset may not be recoverable. We test for potential impairment of goodwill and other intangible assets that have indefinite useful lives annually in our fourth fiscal quarter or whenever indicators of impairment arise. The timing of the annual test may result in charges to our statement of operations in our fourth fiscal quarter that could not have been reasonably foreseen in prior periods.

As described in “*Description of Business and Summary of Significant Accounting Policies – Goodwill, Acquired Intangible Assets and Other Long-Lived Assets*,” in Note 1 to the financial statements in Item 8 of this Annual Report, in order to estimate the fair value of goodwill we use a weighted combination of a discounted cash flow model (known as the income approach) and comparisons to publicly traded companies engaged in similar businesses (known as the market approach). The income approach requires us to use a number of assumptions, including market factors specific to the business, the amount and timing of estimated future cash flows to be generated by the business over an extended period of time, long-term growth rates for the business, and a rate of return that considers the relative risk of achieving the cash flows and the time value of money. We evaluate cash flows at the reporting unit level. Although the assumptions we use in our discounted cash flow model are consistent with the assumptions we use to generate our internal strategic plans and forecasts, significant judgment is required to estimate the amount and timing of future cash flows from each reporting unit and the relative risk of achieving those cash flows. When using the market approach, we make judgments about the comparability of publicly traded companies engaged in similar businesses. We base our judgments on factors such as size, growth rates, profitability, risk, and return on investment. We also make judgments when adjusting market multiples of revenue, operating income, and earnings for these companies to reflect their relative similarity to our own businesses. We had a total of \$1.3 billion in goodwill on our balance sheet at July 31, 2015. See Note 5 to the financial statements in Item 8 of this Annual Report for a summary of goodwill by reportable segment.

We estimate the recoverability of acquired intangible assets and other long-lived assets that have finite useful lives by comparing the carrying amount of the asset to the future undiscounted cash flows that we expect the asset to generate. In order to estimate the fair value of those assets, we estimate the present value of future cash flows from those assets. The key assumptions that we use in our discounted cash flow model are the amount and timing of estimated future cash flows to be generated by the asset over an extended period of time and a rate of return that considers the relative risk of achieving the cash flows and the time value of money. Significant judgment is required to estimate the amount and timing of future cash flows and the relative risk of achieving those cash flows. We also make judgments about the remaining useful lives of acquired intangible assets and other long-lived assets that have finite lives. We had a total of \$87 million in net acquired intangible assets on our balance sheet at July 31, 2015.

Assumptions and estimates about future values and remaining useful lives are complex and often subjective. They can be affected by a variety of factors, including external factors such as industry and economic trends, and internal factors such as changes in our business strategy and our internal forecasts. For example, if our future operating results do not meet current forecasts or if we experience a sustained decline in our market capitalization that is determined to be indicative of a reduction in fair value of one or more of our reporting units, we may be required to record future impairment charges for goodwill and acquired intangible assets. Impairment charges could materially decrease our future net income and result in lower asset values on our balance sheet.

During the fourth quarters of fiscal 2015, fiscal 2014, and fiscal 2013 we performed our annual goodwill impairment tests. Using the methodology described in “*Description of Business and Summary of Significant Accounting Policies – Goodwill, Acquired Intangible Assets and Other Long-Lived Assets*,” in Note 1 to the financial statements in Part 8 of this Annual Report, we determined that the estimated fair values of all of our reporting units exceeded their carrying values and that they were not impaired. In addition, during this analysis we concluded that the estimated fair values of all of our reporting units substantially exceeded their carrying values.

During the third quarter of fiscal 2015 there was a significant decline in the revenue and operating income forecast for our Consumer Ecosystem reporting unit. As a result of this development, we performed an interim impairment test of goodwill and acquired intangible assets for that reporting unit. We concluded that the carrying value of goodwill associated with our Consumer Ecosystem reporting unit was impaired and we recorded an impairment charge of \$263 million that reduced the carrying value of goodwill to \$211 million as of April 30, 2015. See “*Fair Value Measurements – Assets and Liabilities*

Measured at Fair Value on a Non-Recurring Basis,” in Note 2 to the financial statements in Item 8 of this Annual Report for more information.

During the fourth quarter of fiscal 2015 management approved a plan to sell our Quicken business, which was part of our Consumer Ecosystem reporting unit, and we accounted for it as discontinued operations. As a result, we reclassified a portion of the goodwill impairment charge that we recorded in the third quarter of fiscal 2015 to discontinued operations based on the relative fair values of Quicken and the remaining components of our Consumer Ecosystem reporting unit.

In March 2013 the largest customer for our Intuit Health business acquired a company that offered similar solutions and competed with us directly in that market space. As a result, we performed an interim impairment test of goodwill and acquired intangible assets during the third quarter of fiscal 2013. We concluded that the carrying amounts of goodwill and certain definite-lived acquired intangible assets associated with our Intuit Health business were impaired and recorded an impairment charge of approximately \$46 million that reduced the carrying value of those assets to zero. See *“Fair Value Measurements – Assets and Liabilities Measured at Fair Value on a Non-Recurring Basis,”* in Note 2 to the financial statements in Item 8 of this Annual Report for more information. In the fourth quarter of fiscal 2013 management approved a plan to sell our Intuit Health business and we accounted for it as discontinued operations. In the first quarter of fiscal 2014 we completed the sale for cash consideration that was not significant. Intuit Health was part of our former Other Businesses reportable segment.

Accounting for Share-Based Compensation Plans

At July 31, 2015, there was \$513 million of total unrecognized compensation cost related to non-vested share-based compensation arrangements granted under all equity compensation plans which we will amortize to expense in the future. Total unrecognized compensation cost will be adjusted for future changes in estimated forfeitures. We expect to recognize that cost over a weighted average vesting period of 2.3 years.

We use a lattice binomial model and the assumptions described in Note 11 to the financial statements in Item 8 of this Annual Report to estimate the fair value of stock options granted. We estimate the expected term of options granted based on implied exercise patterns using a binomial model. We estimate the volatility of our common stock at the date of grant based on the implied volatility of publicly traded one-year and two-year options on our common stock. Our decision to use implied volatility is based upon the availability of actively traded options on our common stock and our assessment that implied volatility is more representative of future stock price trends than historical volatility. We base the risk-free interest rate that we use in our option valuation model on the implied yield in effect at the time of option grant on constant maturity U.S. Treasury issues with equivalent remaining terms. We use an annualized expected dividend yield in our option valuation model. We estimate forfeitures at the time of grant and revise those estimates in subsequent periods if actual forfeitures differ from those estimates. We use historical data to estimate pre-vesting option forfeitures and record share-based compensation expense only for those awards that are expected to vest. We amortize the fair value of options on a straight-line basis over the requisite service periods of the awards, which are generally the vesting periods. We may elect to use different assumptions under our option valuation model in the future, which could materially affect our net income or loss and net income or loss per share.

Restricted stock units (RSUs) granted typically vest based on continued service. We value these time-based RSUs at the date of grant using the intrinsic value method, adjusted for estimated forfeitures. We amortize the fair value of time-based RSUs on a straight-line basis adjusted for estimated forfeitures over the service period. Certain RSUs granted to senior management vest based on the achievement of pre-established performance or market goals. We estimate the fair value of performance-based RSUs at the date of grant using the intrinsic value method and the probability that the specified performance criteria will be met, adjusted for estimated forfeitures. Each quarter we update our assessment of the probability that the specified performance criteria will be achieved and adjust our estimate of the fair value of the performance-based RSUs if necessary. We amortize the fair values of performance-based RSUs over the requisite service period adjusted for estimated forfeitures for each separately vesting tranche of the award. We estimate the fair value of market-based RSUs at the date of grant using a Monte Carlo valuation methodology and amortize those fair values over the requisite service period adjusted for estimated forfeitures for each separately vesting tranche of the award. The Monte Carlo methodology that we use to estimate the fair value of market-based RSUs at the date of grant incorporates into the valuation the possibility that the market condition may not be satisfied. Provided that the requisite service is rendered, the total fair value of the market-based RSUs at the date of grant must be recognized as compensation expense even if the market condition is not achieved. However, the number of shares that ultimately vest can vary significantly with the performance of the specified market criteria. All of the RSUs we grant have dividend rights that are subject to the same vesting requirements as the underlying equity awards, so we do not adjust the intrinsic (market) value of our RSUs for dividends. See Note 11 to the financial statements in Item 8 of this Annual Report for more information.

Legal Contingencies

We are subject to certain legal proceedings, as well as demands, claims and threatened litigation that arise in the normal course of our business. We review the status of each significant matter quarterly and assess our potential financial exposure. If the potential loss from any claim or legal proceeding is considered probable and the amount can be reasonably estimated, we record a liability and an expense for the estimated loss. If we determine that a loss is possible and the range of the loss can be reasonably determined, then we disclose the range of the possible loss. Significant judgment is required in the determination of whether a potential loss is probable, reasonably possible, or remote as well as in the determination of whether a potential exposure is reasonably estimable. Our accruals are based on the best information available at the time. As additional information becomes available, we reassess the potential liability related to our pending claims and litigation and may revise our estimates. Potential legal liabilities and the revision of estimates of potential legal liabilities could have a material impact on our financial position and results of operations.

Accounting for Income Taxes – Estimates of Deferred Taxes, Valuation Allowances, and Uncertain Tax Positions

We estimate our income taxes based on the various jurisdictions where we conduct business. Significant judgment is required in determining our worldwide income tax provision. The calculation of our tax liabilities involves dealing with uncertainties in the application of complex tax rules and the potential for future adjustment of our uncertain tax positions by the United States Internal Revenue Service or other taxing jurisdictions. We estimate our current tax liability and assess temporary differences that result from differing treatments of certain items for tax and accounting purposes. These differences result in deferred tax assets and liabilities, which we show on our balance sheet. We must then assess the likelihood that our deferred tax assets will be realized. To the extent we believe that realization is not likely, we establish a valuation allowance. When we establish a valuation allowance or increase this allowance in an accounting period, we record a corresponding tax expense in our statement of operations.

At July 31, 2015, we had net deferred tax assets of \$185 million which included a valuation allowance of \$30 million for loss and tax credit carryforwards related to state tax credits, state capital and operating losses, and foreign losses. We recorded the valuation allowance to reflect uncertainties about whether we will be able to utilize some of our deferred tax assets before they expire. While we believe our current valuation allowance is sufficient, we could in the future be required to increase the valuation allowance to take into account additional deferred tax assets that we may be unable to realize. We assess the need for an adjustment to the valuation allowance on a quarterly basis. The assessment is based on our estimates of future sources of taxable income for the jurisdictions in which we operate and the periods over which our deferred tax assets will be realizable. See Note 10 to the financial statements in Item 8 of this Annual Report for more information.

We recognize and measure benefits for uncertain tax positions using a two-step approach. The first step is to evaluate the tax position taken or expected to be taken in a tax return by determining if the weight of available evidence indicates that it is more likely than not that the tax position will be sustained upon audit, including resolution of any related appeals or litigation processes. For tax positions that are more likely than not of being sustained upon audit, the second step is to measure the tax benefit as the largest amount that is more than 50% likely of being realized upon settlement. Significant judgment is required to evaluate uncertain tax positions. We evaluate our uncertain tax positions on a quarterly basis. Our evaluations are based upon a number of factors, including changes in facts or circumstances, changes in tax law, correspondence with tax authorities during the course of audits and effective settlement of audit issues. Changes in the recognition or measurement of uncertain tax positions could result in material increases or decreases in our income tax expense in the period in which we make the change, which could have a material impact on our effective tax rate and operating results.

Results of Operations

Financial Overview

(Dollars in millions, except per share amounts)

| | Fiscal 2015 | Fiscal 2014 | Fiscal 2013 | 2015-2014 % Change | 2014-2013 % Change |
|---|----------------|----------------|----------------|-----------------------|-----------------------|
| Total net revenue | \$4,192 | \$4,243 | \$3,946 | (1%) | 8% |
| Operating income from continuing operations | 738 | 1,300 | 1,208 | (43%) | 8% |
| Net income from continuing operations | 413 | 853 | 807 | (52%) | 6% |
| Diluted net income per share from continuing operations | \$1.45 | \$2.94 | \$2.66 | (51%) | 11% |

Fiscal 2015 Compared with Fiscal 2014

Total net revenue decreased \$51 million or 1% in fiscal 2015 compared with fiscal 2014 due to the change to our desktop software offerings described in “*Executive Overview – Industry Trends and Seasonality*” earlier in this Item 7. Revenue in our Small Business segment decreased 2% due to the impact of this change on our QuickBooks desktop offerings, which more than offset QuickBooks Online revenue growth. The change to our desktop software offerings also impacted our Professional Tax segment, whose revenue decreased 33%. Revenue in our Consumer Tax segment increased 8% due to 7% growth in U.S. federal TurboTax units. See “*Segment Results*” later in this Item 7 for more information.

Operating income from continuing operations decreased 43% in fiscal 2015 compared with fiscal 2014 due to the impact of the change to our desktop software offerings on fiscal 2015 revenue and due to higher costs and operating expenses. Total operating expenses were \$407 million higher in the fiscal 2015 period, including increases of about \$96 million for staffing, about \$57 million for share-based compensation, and about \$38 million for outside services. We also recorded goodwill and intangible asset impairment charges of \$148 million for our Consumer Ecosystem reporting unit in operating expense in fiscal 2015. See “*Cost of Revenue*” and “*Operating Expenses*” later in this Item 7 for more information.

Net income from continuing operations decreased 52% in fiscal 2015 compared with fiscal 2014 due to the decrease in operating income and a higher effective tax rate that related to the goodwill impairment charge in the fiscal 2015 period. See “*Non-Operating Income and Expenses – Income Taxes*” later in this Item 7 for more information. Diluted net income per share from continuing operations for fiscal 2015 decreased 51% to \$1.45, in line with the decrease in net income for that period.

Fiscal 2014 Compared with Fiscal 2013

Total net revenue increased \$297 million or 8% in fiscal 2014 compared with fiscal 2013, driven by revenue growth in our Small Business and Consumer Tax segments. Revenue in our Small Business segment was up 9%. Continued growth in revenue for QuickBooks Online, QuickBooks Enterprise Solutions, and QuickBooks Plus subscription offerings was partially offset by lower QuickBooks desktop license revenue. Revenue growth for our small business payroll solutions was driven by 25% growth in online payroll subscribers and price increases for desktop payroll customers. Revenue in our Consumer Tax segment increased 7% due to 10% growth in paid federal TurboTax units, partially offset by changes in product mix. Revenue in our Professional Tax segment revenue increased 4% due to price increases and new customer growth for our higher-priced offerings.

Operating income from continuing operations increased 8% in fiscal 2014 compared with fiscal 2013 due to the increase in revenue described above partially offset by higher costs and operating expenses. Total operating expenses were \$124 million higher in the fiscal 2014 period, including increases of about \$90 million for staffing, about \$22 million for marketing programs, and about \$17 million for share-based compensation expenses, partially offset by a decrease of about \$40 million for outside services. See “*Cost of Revenue*” and “*Operating Expenses*” later in this Item 7 for more information.

Net income from continuing operations increased 6% in fiscal 2014 compared with fiscal 2013 due to the increase in operating income and a \$21 million gain on the sale of an equity investment, partially offset by a higher effective tax rate in the fiscal 2014 period. See “*Non-Operating Income and Expenses – Income Taxes*” later in this Item 7 for more information. Diluted net income per share from continuing operations for fiscal 2014 increased 11% to \$2.94 as a result of the increase in net income and the decline in weighted average diluted common shares compared with fiscal 2013.

Segment Results

The information below is organized in accordance with our three reportable segments. All of our segments operate primarily in the United States and sell primarily to customers in the United States. International total net revenue was less than 5% of consolidated total net revenue for all periods presented.

Segment operating income is segment net revenue less segment cost of revenue and operating expenses. Segment expenses do not include certain costs, such as corporate selling and marketing, product development, and general and administrative expenses and share-based compensation expenses, which are not allocated to specific segments. These unallocated costs totaled \$1.01 billion in fiscal 2015, \$870 million in fiscal 2014, and \$792 million in fiscal 2013. Unallocated costs increased in fiscal 2015 compared with fiscal 2014 and in fiscal 2014 compared with fiscal 2013 due to increases in corporate product development and selling and marketing expenses in support of the growth of our businesses and to higher share-based compensation expenses. Segment expenses also do not include amortization of acquired technology, amortization of other acquired intangible assets, and goodwill and intangible asset impairment charges. See Note 14 to the financial statements in Item 8 of this Annual Report for reconciliations of total segment operating income to consolidated operating income from continuing operations for each fiscal year presented.

We calculate revenue growth rates and segment operating margin figures using dollars in thousands. Those results may vary slightly from figures calculated using the dollars in millions presented.

Small Business

| <i>(Dollars in millions)</i> | Fiscal 2015 | Fiscal 2014 | Fiscal 2013 | 2015-2014 % Change | 2014-2013 % Change |
|------------------------------|------------------------|------------------------|------------------------|-------------------------------|-------------------------------|
| Product revenue | \$ 709 | \$ 851 | \$ 851 | | |
| Service and other revenue | 1,399 | 1,307 | 1,137 | | |
| Total segment revenue | <u>\$ 2,108</u> | <u>\$ 2,158</u> | <u>\$ 1,988</u> | (2%) | 9% |
| % of total revenue | 50% | 51% | 50% | | |
| Segment operating income | <u>\$ 696</u> | <u>\$ 852</u> | <u>\$ 806</u> | (18%) | 6% |
| % of related revenue | 33% | 39% | 41% | | |

Product revenue in our Small Business segment is derived primarily from QuickBooks desktop software products, including QuickBooks Pro, QuickBooks Premier, QuickBooks Accountant, and QuickBooks Enterprise Solutions; QuickBooks Basic Payroll and QuickBooks Enhanced Payroll; QuickBooks Point of Sale solutions; ProAdvisor Program subscriptions for the accounting professionals who serve small businesses; and financial supplies. Service and other revenue in our Small Business segment is derived primarily from QuickBooks Online and QuickBooks Online Accountant, our hosted financial and business management offerings; QuickBooks Pro Plus, QuickBooks Premier Plus, and QuickBooks Accountant Plus, our subscription offerings; QuickBooks technical support plans; small business payroll services, including Quickbooks Online Payroll, Intuit Online Payroll, Intuit Full Service Payroll, and QuickBooks Assisted Payroll; and payment processing services for small businesses.

As part of our connected services strategy, over the past several quarters we have been focusing Small Business segment resources on the enhancement and marketing of our QuickBooks Online and QuickBooks desktop subscription offerings. As a result, QuickBooks desktop license units and revenue have been declining as more customers choose our hosted and subscription offerings and we expect this trend to continue. In our payments business we are focusing resources on core offerings for QuickBooks merchants in support of our small business ecosystem approach. Over the next few quarters we anticipate declining revenue for certain non-QuickBooks payments offerings that may slow overall revenue growth in our payments business.

Fiscal 2015 Compared with Fiscal 2014

Small Business segment total net revenue decreased \$50 million or 2% in fiscal 2015 compared with fiscal 2014 due to the impact of the change to our QuickBooks desktop offerings described in “*Executive Overview – Industry Trends and Seasonality*” earlier in this Item 7, which more than offset QuickBooks Online revenue growth. Small Business Online Ecosystem revenue grew 25%, driven by customer acquisition. QuickBooks Online customers grew 57% and online payroll customers grew 18%. Active online payments customers grew 5% and online payments charge volume grew 19%. In our Small Business Desktop Ecosystem, revenue declined 10%. QuickBooks desktop unit sales were 22% lower as we continued to emphasize QuickBooks Online while QuickBooks Enterprise Solutions revenue grew 29%.

Small Business segment operating income as a percentage of related revenue decreased in fiscal 2015 compared with fiscal 2014. The decrease was due to the impact of the changes to our desktop software offerings on segment revenue and cost of revenue. We expense costs of product revenue as they are incurred for delivered software and we do not defer any of these costs when product revenue is deferred. Small Business segment operating income was also affected by about \$76 million in higher data center hosting and facilities expenses and about \$43 million in higher outside services expenses.

Fiscal 2014 Compared with Fiscal 2013

Small Business segment total net revenue increased \$170 million or 9% in fiscal 2014 compared with fiscal 2013. Small Business Online Ecosystem revenue grew 31%, driven by customer acquisition. QuickBooks Online customers grew 40% and online payroll customers grew 25%. Active online payments customers grew 4% and online payments charge volume grew 24%. In our Small Business Desktop Ecosystem, revenue from QuickBooks desktop software licenses declined 9% on 10% lower unit sales while revenue from QuickBooks Enterprise Solutions grew 25% and revenue from QuickBooks Plus subscriptions grew 16% in fiscal 2014. Revenue for certain non-core payments offerings was lower in fiscal 2014.

Small Business segment operating income as a percentage of related revenue decreased in fiscal 2014 compared with fiscal 2013. The increase in segment revenue described above was partially offset by \$64 million in higher staffing expenses due to an increase in headcount and \$33 million in higher advertising and other marketing program expenses.

Consumer Tax

| <i>(Dollars in millions)</i> | Fiscal 2015 | Fiscal 2014 | Fiscal 2013 | 2015-2014 % Change | 2014-2013 % Change |
|------------------------------|------------------------|------------------------|------------------------|-------------------------------|-------------------------------|
| Product revenue | \$ 212 | \$ 246 | \$ 254 | | |
| Service and other revenue | 1,588 | 1,417 | 1,298 | | |
| Total segment revenue | <u>\$ 1,800</u> | <u>\$ 1,663</u> | <u>\$ 1,552</u> | 8% | 7% |
| % of total revenue | <u>43%</u> | <u>39%</u> | <u>40%</u> | | |
| Segment operating income | <u>\$ 1,131</u> | <u>\$ 1,075</u> | <u>\$ 964</u> | 5% | 11% |
| % of related revenue | <u>63%</u> | <u>65%</u> | <u>62%</u> | | |

Consumer Tax service and other revenue is derived primarily from TurboTax Online tax return preparation services and electronic tax filing services. Consumer Tax product revenue is derived primarily from TurboTax desktop tax return preparation software.

Fiscal 2015 Compared with Fiscal 2014

Revenue for our Consumer Tax segment increased \$137 million or 8% in fiscal 2015 compared with fiscal 2014 due to 7% growth in U.S. federal TurboTax units excluding Free File Alliance federal units. Online U.S. federal units represented approximately 82% of total TurboTax U.S. federal units for the 2014 tax season, up from approximately 80% for the 2013 tax season.

Consumer Tax segment operating income as a percentage of related revenue decreased in fiscal 2015 compared with fiscal 2014 due to higher expenses for staffing and advertising and other marketing programs in fiscal 2015.

Fiscal 2014 Compared with Fiscal 2013

Consumer Tax segment total net revenue increased \$111 million or 7% in fiscal 2014 compared with fiscal 2013 due to 10% growth in U.S. federal TurboTax units, partially offset by changes in product mix. Online U.S. federal units represented approximately 80% of total TurboTax U.S. federal units for the 2013 tax season, up from approximately 78% for the 2012 tax season.

Consumer Tax segment operating income as a percentage of related revenue increased in fiscal 2014 compared with fiscal 2013 due to the higher revenue described above and lower expenses for advertising and other marketing programs in fiscal 2014.

Professional Tax

| <i>(Dollars in millions)</i> | Fiscal 2015 | Fiscal 2014 | Fiscal 2013 | 2015-2014 % Change | 2014-2013 % Change |
|------------------------------|------------------------|------------------------|------------------------|-------------------------------|-------------------------------|
| Product revenue | \$ 225 | \$ 362 | \$ 342 | | |
| Service and other revenue | 59 | 60 | 64 | | |
| Total segment revenue | <u>\$ 284</u> | <u>\$ 422</u> | <u>\$ 406</u> | (33%) | 4% |
| % of total revenue | <u>7%</u> | <u>10%</u> | <u>10%</u> | | |
| Segment operating income | <u>\$ 108</u> | <u>\$ 268</u> | <u>\$ 260</u> | (60%) | 4% |
| % of related revenue | <u>38%</u> | <u>64%</u> | <u>64%</u> | | |

Professional Tax segment product revenue is derived primarily from Lacerte, ProSeries, and Profile desktop tax preparation software products. Professional Tax service and other revenue is derived primarily from Intuit Tax Online tax return preparation, bank products, and related services that compliment the tax return preparation process.

Fiscal 2015 Compared with Fiscal 2014

Professional Tax segment total net revenue decreased \$138 million or 33% in fiscal 2015 compared with fiscal 2014 due to the change to our desktop software offerings described in “*Executive Overview – Industry Trends and Seasonality*” earlier in this Item 7. Professional Tax customers grew about 1% in fiscal 2015 compared with fiscal 2014.

Professional Tax segment operating income as a percentage of related revenue decreased in fiscal 2015 compared with fiscal 2014 primarily as a result of the revenue decrease described above.

Fiscal 2014 Compared with Fiscal 2013

Professional Tax segment total net revenue increased \$16 million or 4% in fiscal 2014 compared with fiscal 2013 due to price increases and new customer growth for our higher-priced offerings.

Professional Tax segment operating income as a percentage of related revenue was flat in fiscal 2014 compared with fiscal 2013 because costs and expenses grew in proportion to revenue.

Cost of Revenue

| <i>(Dollars in millions)</i> | Fiscal 2015 | % of Related Revenue | Fiscal 2014 | % of Related Revenue | Fiscal 2013 | % of Related Revenue |
|-------------------------------------|------------------------|-------------------------------------|------------------------|-------------------------------------|------------------------|-------------------------------------|
| Cost of product revenue | \$ 139 | 12% | \$ 137 | 9% | \$ 125 | 9% |
| Cost of service and other revenue | 556 | 18% | 466 | 17% | 402 | 16% |
| Amortization of acquired technology | 30 | n/a | 18 | n/a | 13 | n/a |
| Total cost of revenue | <u>\$ 725</u> | 17% | <u>\$ 621</u> | 15% | <u>\$ 540</u> | 14% |

Our cost of revenue has three components: (1) cost of product revenue, which includes the direct costs of manufacturing and shipping or electronically downloading our desktop software products; (2) cost of service and other revenue, which reflects direct costs associated with providing services, including data center and support costs related to delivering online services; and (3) amortization of acquired technology, which represents the cost of amortizing developed technologies that we have obtained through acquisitions over their useful lives.

Fiscal 2015 Compared with Fiscal 2014

Cost of product revenue as a percentage of product revenue increased in fiscal 2015 compared with fiscal 2014 due to the deferral of QuickBooks and Professional Tax desktop software revenue described in “*Executive Overview – Industry Trends and Seasonality*” earlier in this Item 7. We expense costs of product revenue as they are incurred for delivered software and we do not defer any of these costs when product revenue is deferred. Cost of service and other revenue as a percentage of service and other revenue increased slightly in fiscal 2015 compared with fiscal 2014 due to higher customer care costs for our Small Business Online Ecosystem and TurboTax Online offerings.

Fiscal 2014 Compared with Fiscal 2013

Cost of service and other revenue as a percentage of service and other revenue increased slightly in fiscal 2014 compared with fiscal 2013 due to higher customer care costs in our payments business, partially offset by growth in our TurboTax Online, QuickBooks Online, and online payroll offerings. Online revenues have relatively lower costs of revenue compared with our other service offerings.

Operating Expenses

| <i>(Dollars in millions)</i> | Fiscal 2015 | % of Total Net Revenue | Fiscal 2014 | % of Total Net Revenue | Fiscal 2013 | % of Total Net Revenue |
|--|-----------------|---------------------------------|-----------------|---------------------------------|-----------------|---------------------------------|
| Selling and marketing | \$ 1,288 | 31% | \$ 1,157 | 28% | \$ 1,122 | 28% |
| Research and development | 798 | 19% | 714 | 17% | 647 | 17% |
| General and administrative | 483 | 11% | 444 | 10% | 412 | 10% |
| Amortization of other acquired intangible assets | 12 | —% | 7 | —% | 17 | —% |
| Goodwill and intangible asset impairment charges | 148 | 4% | — | —% | — | —% |
| Total operating expenses | <u>\$ 2,729</u> | <u>65%</u> | <u>\$ 2,322</u> | <u>55%</u> | <u>\$ 2,198</u> | <u>55%</u> |

Fiscal 2015 Compared with Fiscal 2014

Total operating expenses as a percentage of total net revenue increased to 65% in fiscal 2015 from 55% in fiscal 2014 primarily due to the decrease in revenue during fiscal 2015. Revenue decreased \$51 million or 1% and total operating expenses increased \$259 million, excluding the goodwill and intangible asset impairment charges in fiscal 2015. Total net revenue results were affected by the change to our desktop software offerings described in “Executive Overview – Industry Trends and Seasonality” earlier in this Item 7. Staffing expenses increased about \$96 million due to higher headcount. Operating expenses also increased about \$57 million for share-based compensation expenses and about \$38 million for outside services. General and administrative expenses were partially offset by a \$32 million pre-tax net gain on the sale of certain assets related to our Payments business. Share-based compensation expenses were higher in fiscal 2015 due to our assumption of certain equity awards in connection with recent business combinations. Share-based compensation expenses have also been increasing over time because the market price of our common stock has generally been increasing. As described in “Critical Accounting Policies and Estimates” earlier in this Item 7, we also recorded \$148 million in goodwill and intangible asset impairment charges for our Consumer Ecosystem reporting unit to operating expense in fiscal 2015.

Fiscal 2014 Compared with Fiscal 2013

Total operating expenses as a percentage of total net revenue were flat at 55% in fiscal 2014 and fiscal 2013. Revenue grew \$297 million and total operating expenses increased \$124 million in fiscal 2014. Operating expenses increased about \$90 million for staffing expenses associated with higher headcount, about \$22 million for marketing programs in our QuickBooks and Consumer Tax businesses, and about \$17 million for share-based compensation while expenses for outside services decreased about \$40 million. Share-based compensation expenses were higher in fiscal 2014 due to our assumption of certain equity awards in connection with business combinations. Share-based compensation expenses have also been increasing over time because the market price of our common stock has generally been increasing.

Non-Operating Income and Expenses

Interest Expense

In March 2007 we issued \$500 million in senior unsecured notes that are due in March 2017. Interest expense of \$27 million in fiscal 2015, \$31 million in fiscal 2014, and \$30 million in fiscal 2013 consisted primarily of interest on these senior notes. See Note 9 to the financial statements in Item 8 of this Annual Report for more information.

Interest and Other Income

| <i>(In millions)</i> | Fiscal 2015 | Fiscal 2014 | Fiscal 2013 |
|--|----------------|----------------|----------------|
| Interest income | \$ 8 | \$ 6 | \$ 3 |
| Net gains on executive deferred compensation plan assets | 3 | 6 | 7 |
| Gain on sale of available-for-sale equity security | — | 21 | — |
| Other | (10) | (2) | (3) |
| Total interest and other income, net | <u>\$ 1</u> | <u>\$ 31</u> | <u>\$ 7</u> |

Interest and other income, net consists primarily of interest income and net gains and losses on executive deferred compensation plan assets. Higher average interest rates and stable average invested balances resulted in higher interest income in fiscal 2015 compared with fiscal 2014. Higher average invested balances and slightly higher average interest rates resulted in higher interest income in fiscal 2014 compared with fiscal 2013. In accordance with authoritative guidance, we record gains and losses associated with executive deferred compensation plan assets in interest and other income and gains and losses associated with the related liabilities in operating expenses. The total amounts recorded in operating expenses for each period are approximately equal to the total amounts recorded in interest and other income in those periods.

In fiscal 2014 we sold an available-for-sale equity security for \$26 million and recorded the gain of \$21 million in interest and other income on our statement of operations.

Income Taxes

Effective Tax Rate

Our effective tax rates for fiscal 2015, fiscal 2014, and fiscal 2013 were approximately 42%, 34%, and 32%. Excluding discrete tax items primarily related to the goodwill impairment charge, our effective tax rate for fiscal 2015 was approximately 36%. The differences between these rates and the federal statutory rate of 35% were primarily related to the tax benefit received from the domestic production activities deduction and the federal research and experimentation credit, partially offset by state income taxes. See Note 10 to the financial statements in Item 8 of this Annual Report for more information about our effective tax rates.

Net Deferred Tax Assets

At July 31, 2015, we had net deferred tax assets of \$185 million which included a valuation allowance of \$30 million for loss and tax credit carryforwards related to state tax credits, state capital and operating losses, and foreign losses. We recorded the valuation allowance to reflect uncertainties about whether we will be able to utilize some of our deferred tax assets before they expire. While we believe our current valuation allowance is sufficient, we could in the future be required to increase the valuation allowance to take into account additional deferred tax assets that we may be unable to realize. We assess the need for an adjustment to the valuation allowance on a quarterly basis. The assessment is based on our estimates of future sources of taxable income for the jurisdictions in which we operate and the periods over which our deferred tax assets will be realizable. See Note 10 to the financial statements in Item 8 of this Annual Report for more information.

Discontinued Operations

We have reclassified our statements of operations for all periods presented to reflect the businesses below as discontinued operations. See Note 7 to the financial statements in Item 8 of this Annual Report for a more complete description of these discontinued operations and the impact that they have had on our statements of operations for the fiscal periods presented.

In the fourth quarter fiscal 2015 we determined that our Demandforce, QuickBase, and Quicken businesses became long-lived assets held for sale and we classified them as discontinued operations.

We completed the sale of our Intuit Financial Services business in the first quarter of fiscal 2014 for approximately \$1.025 billion in cash and recorded a \$44 million pre-tax gain on disposal that was partially offset by a related income tax provision of approximately \$8 million, resulting in a net gain on disposal of approximately \$36 million. In the first quarter of fiscal 2014 we also completed the sale of our Intuit Health business for cash consideration that was not significant and recorded a \$4 million pre-tax loss on disposal that was more than offset by a related income tax benefit of approximately \$14 million, resulting in a net gain on disposal of approximately \$10 million.

In the first quarter of fiscal 2013 we completed the sale of our Intuit Websites business for approximately \$60 million in cash and recorded a gain on disposal of approximately \$32 million, net of income taxes.

Liquidity and Capital Resources

Overview

At July 31, 2015, our cash, cash equivalents and investments totaled \$1.7 billion, a decrease of \$217 million from July 31, 2014 due to the factors described in “*Statements of Cash Flows*” below. Our primary source of liquidity has been cash from operations, which entails the collection of accounts receivable for products and services. Our primary uses of cash have been for research and development programs, selling and marketing activities, capital projects, acquisitions of businesses, debt service costs, repurchases of our common stock under our stock repurchase programs, and the payment of cash dividends. As

discussed in “Executive Overview – Industry Trends and Seasonality” earlier in this Item 7, our business is subject to significant seasonality. The balance of our cash, cash equivalents and investments generally fluctuates with that seasonal pattern. We believe the seasonality of our business is likely to continue in the future.

The following table summarizes selected measures of our liquidity and capital resources at the dates indicated:

| <i>(Dollars in millions)</i> | July 31, 2015 | July 31, 2014 | \$ Change | % Change |
|--|--------------------------|--------------------------|----------------------|---------------------|
| Cash, cash equivalents and investments | \$ 1,697 | \$ 1,914 | \$ (217) | (11)% |
| Long-term investments | 27 | 31 | (4) | (13)% |
| Long-term debt | 500 | 499 | 1 | — % |
| Working capital | 816 | 1,200 | (384) | (32)% |
| Ratio of current assets to current liabilities | 1.5 : 1 | 1.8 : 1 | | |

We have historically generated significant cash from operations and we expect to continue to do so during fiscal 2016. Since our operations are primarily domestic, approximately 90% of our cash, cash equivalents and investments at July 31, 2015 were located in the U.S. and none of those funds were restricted. Our only significant debt consists of \$500 million in senior unsecured notes due in March 2017. We also have an unused \$500 million unsecured revolving line of credit facility available to us for general corporate purposes, including future acquisitions and stock repurchases.

We evaluate, on an ongoing basis, the merits of acquiring technology or businesses, or establishing strategic relationships with and investing in other companies. Our strong liquidity profile enables us to respond nimbly to these kinds of opportunities.

Based on past performance and current expectations, we believe that our cash and cash equivalents, investments, and cash generated from operations will be sufficient to meet anticipated seasonal working capital needs, capital expenditure requirements, contractual obligations, commitments, debt service requirements, and other liquidity requirements associated with our operations for at least the next 12 months. We expect to return excess cash generated by operations to our stockholders through repurchases of our common stock and payment of cash dividends, after taking into account our operating and strategic cash needs.

Statements of Cash Flows

The following table summarizes selected items from our statements of cash flows for fiscal 2015, fiscal 2014, and fiscal 2013. See the financial statements in Item 8 of this Annual Report for complete statements of cash flows for those periods.

| <i>(Dollars in millions)</i> | Fiscal 2015 | Fiscal 2014 | Fiscal 2013 |
|--|------------------------|------------------------|------------------------|
| Net cash provided by (used in): | | | |
| Operating activities | \$ 1,504 | \$ 1,446 | \$ 1,366 |
| Investing activities | (182) | (49) | (485) |
| Financing activities | (1,337) | (1,551) | (262) |
| Effect of exchange rate changes on cash | (26) | (6) | (3) |
| Increase (decrease) in cash and cash equivalents | <u>\$ (41)</u> | <u>\$ (160)</u> | <u>\$ 616</u> |

During fiscal 2015 we generated \$1.5 billion in cash from operations. We also received \$107 million in cash from the issuance of common stock under employee stock plans and \$156 million for net sales of investments. During the same period we used \$1.2 billion in cash for the repurchase of shares of our common stock under our stock repurchase programs, \$283 million for the payment of cash dividends, and \$261 million for capital expenditures. Over the next four fiscal years, we expect to invest a total of about \$250 million in capital improvements to expand our headquarters campus in Mountain View, California.

During fiscal 2014 we generated \$1.4 billion in cash from operations and \$1.0 billion from the sale of our Intuit Financial Services business. We also received \$165 million in cash from the issuance of common stock under employee stock plans. During the same period we used \$1.6 billion in cash for the repurchase of shares of our common stock under our stock repurchase programs, \$471 million for the acquisition of businesses (primarily Check Inc.), \$421 million for net purchases of investments, \$220 million for the payment of cash dividends, and \$186 million for capital expenditures.

During fiscal 2013 we generated \$1.4 billion in cash from operations. We also received \$165 million in cash from the issuance of common stock under employee stock plans. During the same period we used \$308 million in cash for net purchases of investments, \$292 million for the repurchase of shares of our common stock under our stock repurchase programs, \$203 million for the payment of cash dividends, and \$195 million for capital expenditures.

Stock Repurchase Programs and Dividends on Common Stock

As described in Note 11 to the financial statements in Item 8 of this Annual Report, during fiscal 2015, fiscal 2014, and fiscal 2013 we continued to repurchase shares of our common stock under a series of repurchase programs that our Board of Directors has authorized. At July 31, 2015, we had authorization from our Board of Directors to expend up to an additional \$2.6 billion for stock repurchases through May 19, 2019.

During fiscal 2015, fiscal 2014, and fiscal 2013 we also continued to pay quarterly cash dividends on shares of our outstanding common stock. In August 2015 our Board of Directors declared a quarterly cash dividend of \$0.30 per share of outstanding common stock payable on October 19, 2015 to stockholders of records at the close of business on October 12, 2015. We currently expect to continue paying comparable cash dividends on a quarterly basis; however, future declarations of dividends and the establishment of future record dates and payment dates are subject to the final determination of our Board of Directors.

Business Combinations

On June 16, 2014 we acquired all of the outstanding equity interests of Check Inc. for total cash and other consideration of approximately \$369 million. The \$369 million included approximately \$27 million for the fair value of assumed equity awards that is being charged to expense over service periods of up to four years. Check is now known as Mint Bills and is part of our Small Business segment. We have included the results of operations for Check in our consolidated results of operations from the date of acquisition. Their results of operations for periods prior to the date of acquisition were not material when compared with our consolidated results of operations. See Note 6 to the financial statements in Item 8 of this Annual Report for more information.

Commitments for Senior Unsecured Notes

On March 12, 2007 we issued \$500 million of 5.75% senior unsecured notes due on March 15, 2017 (the Notes). The Notes are redeemable by Intuit at any time, subject to a make-whole premium. Interest is payable semiannually on March 15 and September 15. At July 31, 2015, our maximum commitment for interest payments under the Notes was \$58 million. See Note 9 to the financial statements in Item 8 of this Annual Report for more information.

Unsecured Revolving Credit Facility

On February 17, 2012 we entered into an agreement with certain institutional lenders for a \$500 million unsecured revolving credit facility that will expire on February 17, 2017. See Note 8 to the financial statements in Item 8 of this Annual Report for a description of the key terms of this agreement, including the covenants. We remained in compliance with these covenants at all times during the quarter ended July 31, 2015. We may use the proceeds of any advances under this credit facility for general corporate purposes, including future acquisitions and stock repurchases. To date we have not borrowed under the credit facility. We monitor counterparty risk associated with the institutional lenders that are providing the credit facility. We currently believe that the credit facility will be available to us should we choose to borrow under it.

Cash Held by Foreign Subsidiaries

Our cash, cash equivalents and investments totaled \$1.7 billion at July 31, 2015. Of this amount, approximately 10% was held by our foreign subsidiaries and subject to repatriation tax considerations. These foreign funds were located primarily in Canada, India, and the United Kingdom. We intend to permanently reinvest a significant portion of our earnings from foreign operations, and we currently do not anticipate that we will need funds generated from foreign operations to fund our domestic operations. In the event that funds from foreign operations are needed to fund operations in the United States, if U.S. taxes have not been previously provided on the related earnings we would provide for and pay additional U.S. taxes at the time we change our intention with regard to the reinvestment of those earnings.

Off-Balance Sheet Arrangements

At July 31, 2015, we did not have any significant off-balance sheet arrangements, as defined in Item 303(a)(4)(ii) of Regulation S-K.

Contractual Obligations

The following table summarizes our known contractual obligations to make future payments at July 31, 2015:

| | Payments Due by Period | | | | Total |
|--|------------------------|---------------|---------------|----------------------|-----------------|
| | Less than 1 year | 1-3 years | 3-5 years | More than 5 years | |
| (In millions) | | | | | |
| Amounts due under executive deferred compensation plan | \$ 65 | \$ — | \$ — | \$ — | \$ 65 |
| Senior unsecured notes | — | 500 | — | — | 500 |
| Interest and fees due on long-term obligations | 29 | 29 | — | — | 58 |
| License fee payable (1) | 10 | 20 | 10 | — | 40 |
| Operating leases (2) | 74 | 130 | 97 | 221 | 522 |
| Purchase obligations (3) | 26 | 67 | — | 1 | 94 |
| Total contractual obligations (4) | <u>\$ 204</u> | <u>\$ 746</u> | <u>\$ 107</u> | <u>\$ 222</u> | <u>\$ 1,279</u> |

- (1) In May 2009 we entered into an agreement to license certain technology for \$20 million in cash and \$100 million payable over ten fiscal years. See Note 9 to the financial statements in Item 8 of this Annual Report for more information.
- (2) Includes operating leases for facilities and equipment. Includes \$143 million for facilities leases for our Demandforce and QuickBase businesses, which were classified as held for sale at July 31, 2015. We had no significant capital leases at July 31, 2015.
- (3) Represents agreements to purchase products and services that are enforceable, legally binding and specify terms, including: fixed or minimum quantities to be purchased; fixed, minimum or variable price provisions; and the approximate timing of the payments.
- (4) Other long-term obligations on our balance sheet at July 31, 2015 included non-current income tax liabilities of \$45 million which related primarily to unrecognized tax benefits. We have not included this amount in the table above because we cannot make a reasonably reliable estimate regarding the timing of settlements with taxing authorities, if any.

Recent Accounting Pronouncements

For a description of recent accounting pronouncements and the potential impact of these pronouncements on our consolidated financial statements, see “Recent Accounting Pronouncements” in Note 1 to the financial statements in Item 8 of this Annual Report.

ITEM 7A

QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Investment Portfolio

We actively monitor market conditions and developments specific to the securities in which we invest. We believe that we take a conservative approach to investing our funds in that we invest only in highly-rated securities and diversify our portfolio of investments. While we believe we take prudent measures to mitigate investment related risks, such risks cannot be fully eliminated because of market circumstances that are outside our control.

Our investments consist of instruments that meet quality standards that are consistent with our investment policy. This policy specifies that, except for direct obligations of the United States government, securities issued by agencies of the United States government, and money market funds, we diversify our investments by limiting our holdings with any individual issuer. We do not hold derivative financial instruments or European sovereign debt in our portfolio of investments. See Note 3 to the financial statements in Item 8 of this Annual Report for a summary of the amortized cost and fair value of our investments by type of issue.

The following table presents our portfolio of cash equivalents and available-for-sale debt securities as of July 31, 2015 by stated maturity. The table is classified by the original maturity date listed on the security and includes cash equivalents, which consist primarily of money market funds. At July 31, 2015, the weighted average tax adjusted interest rate earned on our money market accounts was 0.3% and the weighted average tax adjusted interest rate earned on our investments was 0.61%.

| <i>(In millions)</i> | Years Ending July 31, | | | | | | Total |
|-----------------------|-----------------------|---------------|---------------|-------------|-------------|---------------------|-----------------|
| | 2016 | 2017 | 2018 | 2019 | 2020 | 2021 and Thereafter | |
| Cash equivalents | \$ 695 | \$ — | \$ — | \$ — | \$ — | \$ — | \$ 695 |
| Investments | 435 | 442 | 156 | 3 | 1 | 27 | 1,064 |
| Long-term investments | — | — | — | — | — | 15 | 15 |
| Total | <u>\$ 1,130</u> | <u>\$ 442</u> | <u>\$ 156</u> | <u>\$ 3</u> | <u>\$ 1</u> | <u>\$ 42</u> | <u>\$ 1,774</u> |

Interest Rate Risk

Our cash equivalents and investments are subject to market risk due to changes in interest rates. Interest rate movements affect the interest income we earn on cash equivalents and investments and the value of those investments. If the Federal Reserve Target Rate had increased by 25 basis points from the level of July 31, 2015, the value of our investments at that date would have decreased by approximately \$3 million. If the Federal Reserve Target Rate had increased by 100 basis points from the level of July 31, 2015, the value of our investments at that date would have decreased by approximately \$11 million.

We are also exposed to the impact of changes in interest rates as they affect our \$500 million revolving credit facility. Advances under the credit facility accrue interest at rates that are equal to JP Morgan's alternate base rate plus a margin that ranges from 0.0% to 0.5% or the London InterBank Offered Rate (LIBOR) plus a margin that ranges from 0.9% to 1.5%, in both cases based on our senior debt credit ratings. Consequently, our interest expense would fluctuate with changes in the general level of these interest rates if we were to borrow any amounts under the credit facility. At July 31, 2015, no amounts were outstanding under the credit facility.

On March 12, 2007 we issued \$500 million of 5.75% senior unsecured notes due on March 15, 2017. We carry these senior notes at face value less unamortized discount on our balance sheets. Since these senior notes bear interest at fixed rates, we have no financial statement risk associated with changes in interest rates. However, the fair value of these notes fluctuates when interest rates change. See Note 2 and Note 9 to the financial statements in Item 8 of this Annual Report for more information.

Impact of Foreign Currency Rate Changes

The functional currencies of our international operating subsidiaries are generally the local currencies. We translate the assets and liabilities of our foreign subsidiaries at the exchange rates in effect on the balance sheet date. We translate their revenue, costs and expenses at the average rates of exchange in effect during the period. We include translation gains and losses in the stockholders' equity section of our balance sheets. We include net gains and losses resulting from foreign exchange transactions in interest and other income in our statements of operations.

Since we translate foreign currencies (primarily Canadian dollars, Indian rupees, and British pounds) into U.S dollars for financial reporting purposes, currency fluctuations can have an impact on our financial results. The historical impact of currency fluctuations has generally been immaterial. We believe that our exposure to currency exchange fluctuation risk is not significant primarily because our global subsidiaries invoice customers and satisfy their financial obligations almost exclusively in their local currencies. Although the impact of currency fluctuations on our financial results has generally been immaterial in the past and we believe that for the reasons cited above currency fluctuations will not be significant in the future, the impact of currency fluctuations could be material in the future. As of July 31, 2015, we did not engage in foreign currency hedging activities.

ITEM 8
FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

1. INDEX TO CONSOLIDATED FINANCIAL STATEMENTS

The following financial statements are filed as part of this Report:

| | Page |
|---|-------------|
| Reports of Independent Registered Public Accounting Firm | 48 |
| Consolidated Statements of Operations for each of the three years in the period ended July 31, 2015 | 50 |
| Consolidated Statements of Comprehensive Income for each of the three years in the period ended July 31, 2015 | 51 |
| Consolidated Balance Sheets as of July 31, 2015 and 2014 | 52 |
| Consolidated Statements of Stockholders' Equity for each of the three years in the period ended July 31, 2015 | 53 |
| Consolidated Statements of Cash Flows for each of the three years in the period ended July 31, 2015 | 54 |

All other schedules not listed above have been omitted because they are inapplicable or are not required.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Stockholders of Intuit Inc.

We have audited the accompanying consolidated balance sheets of Intuit Inc. as of July 31, 2015 and 2014, and the related consolidated statements of operations, comprehensive income, stockholders' equity and cash flows for each of the three years in the period ended July 31, 2015. Our audits also included the financial statement schedule listed in the Index at Item 15(a). These financial statements and schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements and schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Intuit Inc. at July 31, 2015 and 2014, and the consolidated results of its operations and its cash flows for each of the three years in the period ended July 31, 2015, in conformity with U.S. generally accepted accounting principles. Also, in our opinion, the related financial statement schedule, when considered in relation to the basic financial statements taken as a whole, presents fairly in all material respects the information set forth therein.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), Intuit Inc.'s internal control over financial reporting as of July 31, 2015, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 framework), and our report dated September 1, 2015 expressed an unqualified opinion thereon.

San Jose, California
September 1, 2015

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Stockholders of Intuit Inc.

We have audited Intuit Inc.'s internal control over financial reporting as of July 31, 2015, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 framework), (the COSO criteria). Intuit Inc.'s management is responsible for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Management's Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, Intuit Inc. maintained, in all material respects, effective internal control over financial reporting as of July 31, 2015, based on the COSO criteria.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of Intuit Inc. as of July 31, 2015 and 2014, and the related consolidated statements of operations, comprehensive income, stockholders' equity and cash flows for each of the three years in the period ended July 31, 2015 of Intuit Inc. and our report dated September 1, 2015 expressed an unqualified opinion thereon.

- (1) Because the cash flows of our discontinued operations were not material for any period presented, we have not segregated the cash flows of those businesses on these statements of cash flows. We have presented the effect of the pre-tax gains on the disposals on these statements of cash flows. See Note 7, “Discontinued Operations,” for more information.

See accompanying notes.

INTUIT INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. Description of Business and Summary of Significant Accounting Policies

Description of Business

Intuit Inc. provides business and financial management solutions for small businesses, consumers, and accounting professionals. With flagship products and services that include QuickBooks and TurboTax, we help customers solve important business and financial management problems such as running a small business, paying bills, and filing income taxes. ProSeries and Lacerte are Intuit's tax preparation offerings for professional accountants. Incorporated in 1984 and headquartered in Mountain View, California, we sell our products and services primarily in the United States.

Basis of Presentation

These consolidated financial statements include the financial statements of Intuit and its wholly owned subsidiaries. We have eliminated all significant intercompany balances and transactions in consolidation. We have reclassified certain amounts previously reported in our financial statements to conform to the current presentation, including amounts related to discontinued operations and reportable segments. See Note 7, "*Discontinued Operations*," and Note 14, "*Segment Information*," for more information.

In fiscal 2014 we acquired Check Inc. (now known as Mint Bills). We have included the results of operations for this company in our consolidated results of operations from the date of acquisition. See Note 6, "*Business Combinations*," for more information.

As discussed in Note 7, in September 2012 we sold our Intuit Websites business. In August 2013 we sold our Intuit Financial Services (IFS) business and our Intuit Health business. In the fourth quarter of fiscal 2015 we classified our Demandforce, QuickBase, and Quicken businesses as discontinued operations. We have reclassified our statements of operations and balance sheets for all periods presented to reflect these businesses as discontinued operations. Because the cash flows of these discontinued operations were not material for any period presented, we have not segregated the cash flows of these businesses on our statements of cash flows. Unless noted otherwise, discussions in these notes pertain to our continuing operations.

Seasonality

Our Consumer Tax, Professional Tax, and QuickBooks offerings have significant and distinct seasonal patterns. Sales of income tax preparation products and services are heavily concentrated in the period from November through April. Revenue from our QuickBooks offerings tends to be highest around calendar year end, during our second and third fiscal quarters. These seasonal patterns mean that our total net revenue is usually highest during our second quarter ending January 31 and third quarter ending April 30. We typically report losses in our first quarter ending October 31 and fourth quarter ending July 31, when our total net revenue is lower but core operating expenses such as research and development continue at relatively consistent levels.

Use of Estimates

In preparing our consolidated financial statements in accordance with U.S. generally accepted accounting principles (GAAP), we make certain estimates and assumptions that affect the amounts reported in our financial statements and the disclosures made in the accompanying notes. For example, we use estimates in determining the appropriate levels of reserves for product returns and rebates, the collectibility of accounts receivable, the appropriate levels of various accruals including accruals for litigation contingencies, the amount of our worldwide tax provision, and the realizability of deferred tax assets. We also use estimates in determining the remaining economic lives and carrying values of acquired intangible assets, property and equipment, and other long-lived assets. In addition, we use assumptions to estimate the fair value of reporting units and share-based compensation. Despite our intention to establish accurate estimates and use reasonable assumptions, actual results may differ from our estimates.

Revenue Recognition

We derive revenue from the sale of software subscriptions, hosted services, packaged software products, financial supplies, technical support plans, transaction fees, merchant services hardware, and multiple element arrangements that may include a combination of these items. We recognize revenue when all four revenue recognition criteria have been met: persuasive evidence of an arrangement exists, we have delivered the product or performed the service, the fee is fixed or determinable, and

collectibility is probable. Determining whether and when these criteria have been satisfied involves exercising judgment and using estimates and assumptions that can have a significant impact on the timing and amount of revenue that we recognize.

In some situations, we receive advance payments from our customers. We defer revenue associated with these advance payments and the relative fair value of undelivered elements under multiple element arrangements until we ship the products or perform the services.

We account for cash consideration (such as sales incentives) that we give to our customers or resellers as a reduction of revenue rather than as an operating expense unless we receive a benefit that we can identify and for which we can reasonably estimate the fair value.

Product Revenue

Prior to fiscal 2015, we recognized revenue from the sale of our packaged software products when legal title transferred. This generally occurred when our customers electronically downloaded products from the Internet, when we shipped the products or, in the case of certain agreements, when products were delivered to retailers. In the first quarter of fiscal 2015 we began delivering ongoing enhancements and certain connected services for QuickBooks and Professional Tax desktop solutions that we sold from that time forward. As a result, we recognize revenue for these QuickBooks desktop solutions over the period that the enhancements and connected services are provided, which is approximately three years. We recognize revenue for these Professional Tax desktop solutions as services are provided over the calendar year, once tax forms are available from taxing agencies and the agencies are able to receive electronic tax return submissions.

We recognize revenue from the sale of our financial supplies such as printed check stock and merchant services hardware such as retail point-of-sale equipment and credit card readers for mobile phones when legal title transfers. This is generally when we ship the products. We record product revenue net of our sales tax obligations.

We sell some of our QuickBooks and TurboTax desktop software products on consignment to certain retailers. We begin recognizing revenue for these consignment transactions only when the end-user sale has occurred. For software products that are sold on a subscription basis and include periodic updates, we recognize revenue ratably over the period that we provide services to the customer.

We reduce product revenue from distributors and retailers for estimated returns that are based on historical returns experience and other factors, such as the volume and price mix of products in the retail channel, return rates for prior releases of the product, trends in retailer inventory, and economic trends that might impact customer demand for our products (including the competitive environment and the timing of new releases of our product). We also reduce product revenue for the estimated redemption of rebates on certain current product sales. Our estimated reserves for distributor and retailer sales incentive rebates are based on distributors' and retailers' actual performance against the terms and conditions of rebate programs. Our reserves for end user rebates are estimated based on the terms and conditions of the specific promotional rebate program, actual sales during the promotion, and historical redemption trends by product and by type of promotional program.

Service and Other Revenue

Our service revenue consists primarily of hosted services such as QuickBooks Online, QuickBooks desktop software term licenses, TurboTax Online, payroll services, electronic merchant payment processing services, and electronic tax filing and advice services. Our service revenue also includes QuickBooks technical support plans in our Small Business segment.

We recognize revenue from hosted services as the services are performed, provided we have no other remaining obligations to these customers. We generally require customers to remit payroll tax funds to us in advance of the payroll date via electronic funds transfer. We include in total net revenue the interest that we earn on these funds between the time that we collect them from customers and the time that we remit them to outside parties. Service revenue for electronic payment processing services that we provide to merchants is recorded net of interchange fees charged by credit card associations.

We offer several QuickBooks technical support plans and recognize support revenue over the life of the plans.

Other revenue consists primarily of revenue from revenue-sharing and royalty arrangements with third-party partners. We typically recognize this revenue as earned based upon reporting provided to us by our partners.

Multiple Element Arrangements

We enter into multiple element revenue arrangements in which a customer may purchase a combination of software, upgrades, hosted services, technical support, and hardware.

Multiple Element Arrangements That Contain Software and Software-Related Elements

For multiple element arrangements that contain only software and software-related elements, such as QuickBooks desktop software and paid technical support plans, we allocate and defer revenue for the undelivered elements based on their vendor-

specific objective evidence of fair value (VSOE). VSOE is the price charged when that element is sold separately. In situations where VSOE exists for all elements (delivered and undelivered), we allocate the total revenue to be earned under the arrangement among the various elements, based on their relative fair value. For arrangements where VSOE exists only for the undelivered elements, we defer the full fair value of the undelivered elements and recognize the difference between the total arrangement fee and the amount deferred for the undelivered items as revenue. If VSOE does not exist for an undelivered service element, we recognize the revenue from the entire arrangement as the services are delivered. If VSOE does not exist for undelivered elements that are specified products or features, we defer revenue until the earlier of the delivery of all elements or the point at which we determine VSOE for these undelivered elements.

We recognize revenue related to the delivered products or services only if: (1) the above revenue recognition criteria are met; (2) any undelivered products or services are not essential to the functionality of the delivered products and services; (3) payment for the delivered products or services is not contingent upon delivery of the remaining products or services; and (4) we have an enforceable claim to receive the amount due in the event that we do not deliver the undelivered products or services.

Multiple Element Arrangements That Contain Non-Software Elements

For multiple element arrangements that contain non-software elements such as hosted services or credit card readers for mobile phones, we: (1) determine whether and when each element has been delivered; (2) determine the fair value of each element using the selling price hierarchy of vendor-specific evidence (VSOE) of fair value if available, third-party evidence (TPE) if VSOE is not available, and estimated selling price (ESP) if neither VSOE nor TPE is available; and (3) allocate the total price among the various elements using the relative selling price method. Once we have allocated the total price among the various elements, we recognize revenue when the revenue recognition criteria described above are met for each element.

VSOE generally exists when we sell the deliverable separately and we are normally able to establish VSOE for all deliverables in these multiple element arrangements; however, in certain limited instances VSOE cannot be established. This may be because we do not sell the element separately, do not price products or services within a narrow range, or have a limited sales history. When VSOE cannot be established, we attempt to establish selling price for each element based on TPE. TPE is determined based on competitor prices for similar deliverables when sold separately. When we are unable to establish selling price using VSOE or TPE, we use ESP in our allocation of arrangement consideration. ESP is the estimated price at which we would sell a product or service if it were sold on a stand-alone basis. We determine ESP for a product or service by considering multiple factors including, but not limited to, pricing practices, market conditions, competitive landscape, type of customer, geographies, stage of product lifecycle, internal costs, and gross margin objectives. Significant pricing practices that we take into consideration include historic contractually stated prices, volume discounts where applicable, and our price lists. The determination of ESP is made through consultation with and formal approval by management, taking into consideration our overall go-to-market strategy.

Shipping and Handling

We record the amounts we charge our customers for the shipping and handling of our software products as product revenue and we record the related costs as cost of product revenue in our statements of operations.

Customer Service and Technical Support

We include the costs of providing customer service under paid technical support contracts and as included in certain software subscriptions on the cost of service and other revenue line in our statements of operations. We also include the costs of customer service and technical support associated with our online or hosted offerings in cost of service and other revenue. We include the costs of customer service and free technical support related to desktop offerings in selling and marketing expense in our statements of operations. Customer service and technical support costs include costs associated with performing order processing, answering customer inquiries by telephone and through websites, e-mail and other electronic means, and providing free technical support assistance to customers. We expense the cost of providing this free support as incurred.

Software Development Costs

We expense software development costs as we incur them until technological feasibility has been established, at which time those costs are capitalized until the product is available for general release to customers. To date, our software has been available for general release concurrent with the establishment of technological feasibility and, accordingly, we have not capitalized any development costs. Costs we incur to enhance our existing products or after the general release of the service using the product are expensed in the period they are incurred and included in research and development expense in our statements of operations.

Internal Use Software

We capitalize costs related to development of hosted services that we provide to our customers and internal use of enterprise-level business and finance software in support of our operational needs. Costs incurred in the application development phase are capitalized and amortized on a straight-line basis over their useful lives, which are generally three to five years. Costs related to planning and other preliminary project activities and to post-implementation activities are expensed as incurred. We test these assets for impairment whenever events or changes in circumstances occur that could impact their recoverability.

Advertising

We expense all advertising costs as we incur them to selling and marketing expense in our statements of operations. We recorded advertising expense of approximately \$229 million for the twelve months ended July 31, 2015, \$171 million for the twelve months ended July 31, 2014, and \$182 million for the twelve months ended July 31, 2013.

Leases

We review all leases for capital or operating classification at their inception. We use our incremental borrowing rate in the assessment of lease classification and define the initial lease term to include the construction build-out period but to exclude lease extension periods. We conduct our operations primarily under operating leases. For leases that contain rent escalations, we record the total rent payable during the lease term, as defined above, on a straight-line basis over the term of the lease. We record the difference between the rent paid and the straight-line rent in a deferred rent account in other current liabilities or other long-term obligations, as appropriate, on our balance sheets.

We record landlord allowances as deferred rent liabilities in other current liabilities or other long-term obligations, as appropriate, on our balance sheets. We record landlord cash incentives as operating activity on our statements of cash flows. We record other landlord allowances as non-cash investing and financing activities on our statements of cash flows. We classify the amortization of landlord allowances as a reduction of occupancy expense in our statements of operations.

Capitalization of Interest Expense

We capitalize interest on capital projects, including facilities build-out projects and internal use computer software projects. Capitalization commences with the first expenditure for the project and continues until the project is substantially complete and ready for its intended use. We amortize capitalized interest to depreciation expense using the straight-line method over the same lives as the related assets. Capitalized interest was not significant for any period presented.

Foreign Currency

The functional currencies of our international operating subsidiaries are generally the local currencies. We translate the assets and liabilities of our foreign subsidiaries at the exchange rates in effect on the balance sheet date. We translate their revenue, costs and expenses at the average rates of exchange in effect during the period. We include translation gains and losses in the stockholders' equity section of our balance sheets. We include net gains and losses resulting from foreign exchange transactions in interest and other income in our statements of operations. Translation gains and losses and transaction gains and losses were not significant for any period presented.

Income Taxes

We estimate our income taxes based on the various jurisdictions where we conduct business. Significant judgment is required in determining our worldwide income tax provision. We estimate our current tax liability and assess temporary differences that result from differing treatments of certain items for tax and accounting purposes. These differences result in deferred tax assets and liabilities, which we show on our balance sheet. We must then assess the likelihood that our deferred tax assets will be realized. To the extent we believe that realization is not likely, we establish a valuation allowance. When we establish a valuation allowance or increase this allowance in an accounting period, we record a corresponding income tax expense in our statement of operations.

We review the need for a valuation allowance to reflect uncertainties about whether we will be able to utilize some of our deferred tax assets before they expire. The valuation allowance analysis is based on our estimates of taxable income for the jurisdictions in which we operate and the periods over which our deferred tax assets will be realizable. While we have considered future taxable income in assessing the need for a valuation allowance for the periods presented, we could be required to record a valuation allowance to take into account additional deferred tax assets that we may be unable to realize. An increase in the valuation allowance would have an adverse impact, which could be material, on our income tax provision and net income in the period in which we record the increase.

We recognize and measure benefits for uncertain tax positions using a two-step approach. The first step is to evaluate the tax position taken or expected to be taken in a tax return by determining if the weight of available evidence indicates that it is more likely than not that the tax position will be sustained upon audit, including resolution of any related appeals or litigation processes. For tax positions that are more likely than not of being sustained upon audit, the second step is to measure the tax benefit as the largest amount that is more than 50% likely of being realized upon settlement. Significant judgment is required to evaluate uncertain tax positions. We evaluate our uncertain tax positions on a quarterly basis. Our evaluations are based upon a number of factors, including changes in facts or circumstances, changes in tax law, correspondence with tax authorities during the course of audits and effective settlement of audit issues. Changes in the recognition or measurement of uncertain tax positions could result in material increases or decreases in our income tax expense in the period in which we make the change, which could have a material impact on our effective tax rate and operating results.

A description of our accounting policies associated with tax-related contingencies and valuation allowances assumed as part of a business combination is provided under “*Business Combinations*” below.

Computation of Net Income (Loss) Per Share

We compute basic net income or loss per share using the weighted average number of common shares outstanding during the period. We compute diluted net income per share using the weighted average number of common shares and dilutive potential common shares outstanding during the period. Dilutive potential common shares consist of the shares issuable upon the exercise of stock options and upon the vesting of restricted stock units (RSUs) under the treasury stock method.

We include stock options with combined exercise prices, unrecognized compensation expense and tax benefits that are less than the average market price for our common stock, and RSUs with combined unrecognized compensation expense and tax benefits that are less than the average market price for our common stock, in the calculation of diluted net income per share. We exclude stock options with combined exercise prices, unrecognized compensation expense and tax benefits that are greater than the average market price for our common stock, and RSUs with combined unrecognized compensation expense and tax benefits that are greater than the average market price for our common stock, from the calculation of diluted net income per share because their effect is anti-dilutive. Under the treasury stock method, the amount that must be paid to exercise stock options, the amount of compensation expense for future service that we have not yet recognized for stock options and RSUs, and the amount of tax benefits that will be recorded in additional paid-in capital when the awards become deductible are assumed to be used to repurchase shares.

All of the RSUs we grant have dividend rights. Dividend rights are accumulated and paid when the underlying RSUs vest. Since the dividend rights are subject to the same vesting requirements as the underlying equity awards they are considered a contingent transfer of value. Consequently, the RSUs are not considered participating securities and we do not present them separately in earnings per share.

The following table presents the composition of shares used in the computation of basic and diluted net income per share for the periods indicated.

| | Twelve Months Ended July 31, | | |
|--|------------------------------|----------------|----------------|
| | 2015 | 2014 | 2013 |
| <i>(In millions, except per share amounts)</i> | | | |
| Numerator: | | | |
| Net income from continuing operations | \$ 413 | \$ 853 | \$ 807 |
| Net income (loss) from discontinued operations | (48) | 54 | 51 |
| Net income | <u>\$ 365</u> | <u>\$ 907</u> | <u>\$ 858</u> |
| Denominator: | | | |
| Shares used in basic per share amounts: | | | |
| Weighted average common shares outstanding | <u>281</u> | <u>285</u> | <u>297</u> |
| Shares used in diluted per share amounts: | | | |
| Weighted average common shares outstanding | 281 | 285 | 297 |
| Dilutive common equivalent shares from stock options and restricted stock awards | 5 | 6 | 6 |
| Dilutive weighted average common shares outstanding | <u>286</u> | <u>291</u> | <u>303</u> |
| Basic and diluted net income per share: | | | |
| Basic net income per share from continuing operations | \$ 1.47 | \$ 2.99 | \$ 2.72 |
| Basic net income (loss) per share from discontinued operations | (0.17) | 0.19 | 0.17 |
| Basic net income per share | <u>\$ 1.30</u> | <u>\$ 3.18</u> | <u>\$ 2.89</u> |
| Diluted net income per share from continuing operations | \$ 1.45 | \$ 2.94 | \$ 2.66 |
| Diluted net income (loss) per share from discontinued operations | (0.17) | 0.18 | 0.17 |
| Diluted net income per share | <u>\$ 1.28</u> | <u>\$ 3.12</u> | <u>\$ 2.83</u> |
| Weighted average stock options and restricted stock units excluded from calculation due to anti-dilutive effect | <u>2</u> | <u>—</u> | <u>3</u> |

Cash Equivalents and Investments

We consider highly liquid investments with maturities of three months or less at the date of purchase to be cash equivalents. Cash equivalents consist primarily of AAA-rated money market funds in all periods presented. Investments consist of available-for-sale investment-grade debt securities that we carry at fair value. Except for direct obligations of the United States government, securities issued by agencies of the United States government, and money market funds, we diversify our investments by limiting our holdings with any individual issuer.

We use the specific identification method to compute gains and losses on investments. We record unrealized gains and losses on investments, net of tax, in accumulated other comprehensive income in the stockholders' equity section of our balance sheets and reflect unrealized gain and loss activity in other comprehensive income on our statement of comprehensive income. We generally classify available-for-sale debt securities as current assets based upon our ability and intent to use any and all of these securities as necessary to satisfy the significant short-term liquidity requirements that may arise from the highly seasonal nature of our businesses. Because of our significant business seasonality, stock repurchase programs, and acquisition opportunities, cash flow requirements may fluctuate dramatically from quarter to quarter and require us to use a significant amount of the investments we hold as available-for-sale securities.

Accounts Receivable and Allowances for Doubtful Accounts

Accounts receivable are recorded at the invoiced amount and are not interest bearing. We maintain an allowance for doubtful accounts to reserve for potentially uncollectible receivables. We review our accounts receivable by aging category to identify significant customers or invoices with known disputes or collectibility issues. For those invoices not specifically identified as uncollectible, we provide an allowance based on the age of the receivable. In determining the amount of the allowance, we make judgments about the creditworthiness of significant customers based on ongoing credit evaluations. We also consider our historical level of credit losses and current economic trends that might impact the level of future credit losses. When we determine that amounts are uncollectible we write them off against the allowance.

Funds Held for Customers and Customer Fund Deposits

Funds held for customers represent cash held on behalf of our customers that is invested in cash and cash equivalents and investment grade available-for-sale debt securities. Customer fund deposits consist of amounts we owe on behalf of our customers, such as direct deposit payroll funds and payroll taxes.

Property and Equipment

Property and equipment is stated at the lower of cost or realizable value, net of accumulated depreciation. We calculate depreciation using the straight-line method over the estimated useful lives of the assets, which range from two to 30 years. We amortize leasehold improvements using the straight-line method over the lesser of their estimated useful lives or remaining lease terms. We include the amortization of assets that are recorded under capital leases in depreciation expense. We review property and equipment for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. We did not record any significant property impairment charges during the twelve months ended July 31, 2015, 2014, or 2013.

Business Combinations

The acquisition method of accounting for business combinations requires us to use significant estimates and assumptions, including fair value estimates, as of the business combination date and to refine those estimates as necessary during the measurement period (defined as the period, not to exceed one year, in which we may adjust the provisional amounts recognized for a business combination).

Under the acquisition method of accounting we recognize separately from goodwill the identifiable assets acquired, the liabilities assumed, and any noncontrolling interests in an acquiree, generally at the acquisition date fair value. We measure goodwill as of the acquisition date as the excess of consideration transferred, which we also measure at fair value, over the net of the acquisition date amounts of the identifiable assets acquired and liabilities assumed. Costs that we incur to complete the business combination such as investment banking, legal and other professional fees are not considered part of consideration and we charge them to general and administrative expense as they are incurred. Under the acquisition method we also account for acquired company restructuring activities that we initiate separately from the business combination.

Should the initial accounting for a business combination be incomplete by the end of a reporting period that falls within the measurement period, we report provisional amounts in our financial statements. During the measurement period, we adjust the provisional amounts recognized at the acquisition date to reflect new information obtained about facts and circumstances that existed as of the acquisition date that, if known, would have affected the measurement of the amounts recognized as of that date and we record those adjustments to our financial statements. We apply those measurement period adjustments that we determine to be significant retrospectively to comparative information in our financial statements, including adjustments to depreciation and amortization expense.

Under the acquisition method of accounting for business combinations, if we identify changes to acquired deferred tax asset valuation allowances or liabilities related to uncertain tax positions during the measurement period and they relate to new information obtained about facts and circumstances that existed as of the acquisition date, those changes are considered a measurement period adjustment and we record the offset to goodwill. We record all other changes to deferred tax asset valuation allowances and liabilities related to uncertain tax positions in current period income tax expense. This accounting applies to all of our acquisitions regardless of acquisition date.

Goodwill, Acquired Intangible Assets and Other Long-Lived Assets

Goodwill

We record goodwill when the fair value of consideration transferred in a business combination exceeds the fair value of the identifiable assets acquired and liabilities assumed. Goodwill and other intangible assets that have indefinite useful lives are not amortized, but we test them for impairment annually during our fourth fiscal quarter and whenever an event or change in circumstances indicates that the carrying value of the asset may not be recoverable.

For goodwill, we perform a two-step impairment test. In the first step, we compare the fair value of each reporting unit to its carrying value. In accordance with authoritative guidance, we define fair value as the price that would be received from the sale of an asset or paid to transfer a liability in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. We consider and use all valuation methods that are appropriate in estimating the fair value of our reporting units and generally use a weighted combination of income and market approaches. Under the income approach, we estimate the fair value of each reporting unit based on the present value of future cash flows. We use a number of assumptions in our discounted cash flow model, including market factors specific to the business, the amount and timing of estimated future cash flows to be generated by the business over an extended period of time,

long-term growth rates for the business, and a rate of return that considers the relative risk of achieving the cash flows and the time value of money. Under the market approach, we estimate the fair value of each reporting unit based on market multiples of revenue, operating income, and earnings for comparable publicly traded companies engaged in similar businesses. If the estimated fair value of the reporting unit exceeds the carrying value of the net assets assigned to that unit, goodwill is not impaired and no further analysis is required.

If the carrying value of the net assets assigned to a reporting unit exceeds the estimated fair value of the unit, we perform the second step of the impairment test. In this step we allocate the fair value of the reporting unit calculated in step one to all of the assets and liabilities of that unit, as if we had just acquired the reporting unit in a business combination. The excess of the fair value of the reporting unit over the total amount allocated to the assets and liabilities represents the implied fair value of goodwill. If the carrying value of a reporting unit's goodwill exceeds its implied fair value, we would record an impairment loss equal to the difference. See Note 2, "*Fair Value Measurements – Assets and Liabilities Measured at Fair Value on a Non-Recurring Basis*," for a discussion of the goodwill impairment charges that we recorded for the twelve months ended July 31, 2015 and July 31, 2013.

Acquired Intangible Assets and Other Long-Lived Assets

We generally record acquired intangible assets that have finite useful lives, such as acquired technology, in connection with business combinations. We amortize the cost of acquired intangible assets on a straight-line basis over their estimated useful lives, which range from two to nine years. We review intangible assets that have finite useful lives and other long-lived assets whenever an event or change in circumstances indicates that the carrying value of the asset may not be recoverable. We estimate the recoverability of these assets by comparing the carrying amount of the asset to the future undiscounted cash flows that we expect the asset to generate. We estimate the fair value of assets that have finite useful lives based on the present value of future cash flows for those assets. If the carrying value of an asset with a finite life exceeds its estimated fair value, we would record an impairment loss equal to the difference. See Note 2, "*Fair Value Measurements – Assets and Liabilities Measured at Fair Value on a Non-Recurring Basis*," for a discussion of the acquired intangible asset impairment charges that we recorded for the twelve months ended July 31, 2015 and July 31, 2013.

Share-Based Compensation Plans

We estimate the fair value of stock options granted using a lattice binomial model and a multiple option award approach. We use historical data to estimate pre-vesting option forfeitures and record share-based compensation expense only for those awards that are expected to vest. We amortize the fair value of stock options on a straight-line basis over the requisite service periods of the awards, which are generally the vesting periods.

Restricted stock units (RSUs) granted typically vest based on continued service. We value these time-based RSUs at the date of grant using the intrinsic value method, adjusted for estimated forfeitures. We amortize the fair value of time-based RSUs on a straight-line basis adjusted for estimated forfeitures over the service period. Certain RSUs granted to senior management vest based on the achievement of pre-established performance or market goals. We estimate the fair value of performance-based RSUs at the date of grant using the intrinsic value method and the probability that the specified performance criteria would be met, adjusted for estimated forfeitures. Each quarter we update our assessment of the probability that the specified performance criteria will be achieved and adjust our estimate of the fair value of the performance-based RSUs if necessary. We amortize the fair values of performance-based RSUs over the requisite service period adjusted for estimated forfeitures for each separately vesting tranche of the award. We estimate the fair value of market-based RSUs at the date of grant using a Monte Carlo valuation methodology and amortize those fair values over the requisite service period adjusted for estimated forfeitures for each separately vesting tranche of the award. The Monte Carlo methodology that we use to estimate the fair value of market-based RSUs at the date of grant incorporates into the valuation the possibility that the market condition may not be satisfied. Provided that the requisite service is rendered, the total fair value of the market-based RSUs at the date of grant must be recognized as compensation expense even if the market condition is not achieved. However, the number of shares that ultimately vest can vary significantly with the performance of the specified market criteria. All of the RSUs we grant have dividend rights that are subject to the same vesting requirements as the underlying equity awards, so we do not adjust the intrinsic (market) value of our RSUs for dividends.

See Note 11, "*Stockholders' Equity*," for a description of our share-based compensation plans and more information on the assumptions we use to calculate the fair value of share-based compensation.

Concentration of Credit Risk and Significant Customers and Suppliers

We operate in markets that are highly competitive and rapidly changing. Significant technological changes, shifting customer needs, the emergence of competitive products or services with new capabilities and other factors could negatively impact our operating results.

We are also subject to risks related to changes in the value of our significant balance of investments. Our portfolio of investments consists of investment-grade securities. Except for direct obligations of the United States government, securities issued by agencies of the United States government and money market funds, we diversify our investments by limiting our holdings with any individual issuer.

We sell a significant portion of our products through third-party retailers and distributors. As a result, we face risks related to the collectibility of our accounts receivable. To appropriately manage this risk, we perform ongoing evaluations of customer credit and limit the amount of credit extended as we deem appropriate, but generally do not require collateral. We maintain reserves for estimated credit losses and these losses have historically been within our expectations. However, since we cannot predict future changes in the financial stability of our customers, we cannot guarantee that our reserves will continue to be adequate. No customer accounted for 10% or more of total net revenue for the twelve months ended July 31, 2015, 2014 or 2013, nor did any customer account for 10% or more of total accounts receivable at July 31, 2015 or July 31, 2014.

We rely primarily on one third-party vendor to perform the manufacturing and distribution functions for our retail desktop software products. We also have a key single-source vendor that prints and fulfills orders for most of our financial supplies business. While we believe that relying on key vendors improves the efficiency and reliability of our business operations, relying on any one vendor for a significant aspect of our business can have a significant negative impact on our revenue and profitability if that vendor fails to perform at acceptable service levels for any reason, including financial difficulties of the vendor.

Recent Accounting Pronouncements

ASU 2014-08, "Presentation of Financial Statements (Topic 205) and Property, Plant, and Equipment (Topic 360): Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity"

In April 2014 the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2014-08, "Presentation of Financial Statements (Topic 205) and Property, Plant, and Equipment (Topic 360): Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity." This update raises the threshold for a disposal to qualify as a discontinued operation and requires new disclosures for discontinued operations and disposals that do not meet the definition of a discontinued operation. ASU 2014-08 is effective prospectively for fiscal years, and interim periods within those years, beginning after December 15, 2014, which means that it will be effective for us in the first quarter of our fiscal year beginning August 1, 2015.

ASU 2014-09, "Revenue from Contracts with Customers (Topic 606)"

In May 2014 the FASB issued ASU No. 2014-09, "Revenue from Contracts with Customers (Topic 606)," and in August 2015 the FASB issued ASU 2015-14, "Revenue from Contracts with Customers (Topic 606): Deferral of the Effective Date," which defers the effective date of ASU 2014-09 by one year. ASU 2014-09 supersedes nearly all existing revenue recognition guidance under U.S. GAAP. The core principle of ASU 2014-09 is to recognize revenues when promised goods or services are transferred to customers in an amount that reflects the consideration that is expected to be received for those goods or services. ASU 2014-09 defines a five step process to achieve this core principle and, in doing so, it is possible that more judgment and estimates may be required within the revenue recognition process than is required under present U.S. GAAP. These may include identifying performance obligations in the contract, estimating the amount of variable consideration to include in the transaction price, and allocating the transaction price to each separate performance obligation. The new standard also requires additional disclosure about the nature, amount, timing and uncertainty of revenue and cash flows arising from customer contracts, including significant judgments and changes in judgments. ASU 2014-09 is effective for reporting periods beginning after December 15, 2017, which means that it will be effective for us in the first quarter of our fiscal year beginning August 1, 2018. Early adoption of one year prior to the required effective date is permitted. ASU 2014-09 allows adoption using either of two methods: (i) retrospective to each prior reporting period presented, with the option to elect certain practical expedients; or (ii) retrospective with the cumulative effect of initially applying ASU 2014-09 recognized at the date of initial application and providing certain additional disclosures. We are currently evaluating the impact of our pending adoption of ASU 2014-09 on our consolidated financial statements.

2. Fair Value Measurements

Fair Value Hierarchy

The authoritative guidance defines fair value as the price that would be received from the sale of an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. When determining fair value, we consider the principal or most advantageous market for an asset or liability and assumptions that market participants would use when pricing the asset or liability. In addition, we consider and use all valuation methods that are appropriate in estimating the fair value of an asset or liability.

The authoritative guidance establishes a fair value hierarchy that is based on the extent and level of judgment used to estimate the fair value of assets and liabilities. In general, the authoritative guidance requires us to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. An asset or liability's categorization within the fair value hierarchy is based upon the lowest level of input that is significant to the measurement of its fair value. The three levels of input defined by the authoritative guidance are as follows:

- **Level 1** uses unadjusted quoted prices that are available in active markets for identical assets or liabilities.
- **Level 2** uses inputs other than quoted prices included in Level 1 that are either directly or indirectly observable through correlation with market data. These include quoted prices in active markets for similar assets or liabilities; quoted prices for identical or similar assets or liabilities in markets that are not active; and inputs to valuation models or other pricing methodologies that do not require significant judgment because the inputs used in the model, such as interest rates and volatility, can be corroborated by readily observable market data for substantially the full term of the assets or liabilities.
- **Level 3** uses one or more unobservable inputs that are supported by little or no market activity and that are significant to the determination of fair value. Level 3 assets and liabilities include those whose fair values are determined using pricing models, discounted cash flow methodologies or similar valuation techniques and significant management judgment or estimation.

Assets and Liabilities Measured at Fair Value on a Recurring Basis

The following table summarizes financial assets and financial liabilities that we measured at fair value on a recurring basis at the dates indicated, classified in accordance with the fair value hierarchy described above.

| (In millions) | At July 31, 2015 | | | | At July 31, 2014 | | | |
|--|------------------|-----------------|--------------|------------------|------------------|-----------------|--------------|------------------|
| | Level 1 | Level 2 | Level 3 | Total Fair Value | Level 1 | Level 2 | Level 3 | Total Fair Value |
| Assets: | | | | | | | | |
| Cash equivalents, primarily money market funds | \$ 695 | \$ — | \$ — | \$ 695 | \$ 652 | \$ — | \$ — | \$ 652 |
| Available-for-sale debt securities: | | | | | | | | |
| Municipal bonds | — | 506 | — | 506 | — | 701 | — | 701 |
| Municipal auction rate securities | — | — | 15 | 15 | — | — | 21 | 21 |
| Corporate notes | — | 546 | — | 546 | — | 466 | — | 466 |
| U.S. agency securities | — | 12 | — | 12 | — | 42 | — | 42 |
| Total available-for-sale securities | — | 1,064 | 15 | 1,079 | — | 1,209 | 21 | 1,230 |
| Total assets measured at fair value on a recurring basis | <u>\$ 695</u> | <u>\$ 1,064</u> | <u>\$ 15</u> | <u>\$ 1,774</u> | <u>\$ 652</u> | <u>\$ 1,209</u> | <u>\$ 21</u> | <u>\$ 1,882</u> |
| Liabilities: | | | | | | | | |
| Senior notes (1) | <u>\$ —</u> | <u>\$ 531</u> | <u>\$ —</u> | <u>\$ 531</u> | <u>\$ —</u> | <u>\$ 556</u> | <u>\$ —</u> | <u>\$ 556</u> |

(1) Carrying value on our balance sheets at July 31, 2015 was \$500 million and at July 31, 2014 was \$499 million. See Note 9.

The following table summarizes our cash equivalents and available-for-sale debt securities by balance sheet classification and level in the fair value hierarchy at the dates shown:

| (In millions) | At July 31, 2015 | | | | At July 31, 2014 | | | |
|---------------------------------------|------------------|-----------------|--------------|------------------|------------------|-----------------|--------------|------------------|
| | Level 1 | Level 2 | Level 3 | Total Fair Value | Level 1 | Level 2 | Level 3 | Total Fair Value |
| Cash equivalents: | | | | | | | | |
| In cash and cash equivalents | \$ 533 | \$ — | \$ — | \$ 533 | \$ 507 | \$ — | \$ — | \$ 507 |
| In funds held for customers | 162 | — | — | 162 | 145 | — | — | 145 |
| Total cash and cash equivalents | <u>\$ 695</u> | <u>\$ —</u> | <u>\$ —</u> | <u>\$ 695</u> | <u>\$ 652</u> | <u>\$ —</u> | <u>\$ —</u> | <u>\$ 652</u> |
| Available-for-sale securities: | | | | | | | | |
| In investments | \$ — | \$ 889 | \$ — | \$ 889 | \$ — | \$ 1,065 | \$ — | \$ 1,065 |
| In funds held for customers | — | 175 | — | 175 | — | 144 | — | 144 |
| In long-term investments | — | — | 15 | 15 | — | — | 21 | 21 |
| Total available-for-sale securities | <u>\$ —</u> | <u>\$ 1,064</u> | <u>\$ 15</u> | <u>\$ 1,079</u> | <u>\$ —</u> | <u>\$ 1,209</u> | <u>\$ 21</u> | <u>\$ 1,230</u> |

We value our Level 1 assets, consisting primarily of money market funds, using quoted prices in active markets for identical instruments. Financial assets whose fair values we measure on a recurring basis using Level 2 inputs consist of municipal bonds, corporate notes and U.S. agency securities. We measure the fair values of these assets with the help of a pricing service that either provides quoted market prices in active markets for identical or similar securities or uses observable inputs for their pricing without applying significant adjustments. Our fair value processes include controls that are designed to ensure that we record appropriate fair values for our Level 2 investments. These controls include comparison to pricing provided by a secondary pricing service or investment manager, validation of pricing sources and models, review of key model inputs, analysis of period-over-period price fluctuations, and independent recalculation of prices where appropriate.

Financial liabilities whose fair values we measure using Level 2 inputs consist of debt. See Note 9, “*Long-Term Obligations and Commitments*,” for more information. We measure the fair value of our senior notes based on their trading prices and the interest rates we could obtain for other borrowings with similar terms.

Financial assets whose fair values we measure using significant unobservable (Level 3) inputs consist of municipal auction rate securities that are no longer liquid. We estimate the fair values of these auction rate securities using a discounted cash flow model. Using our discounted cash flow model, we determined that the fair values of the municipal auction rate securities we held at July 31, 2015, 2014, and 2013 were approximately equal to their par values and as a result we recorded no decrease in their fair values during the twelve months then ended. During the twelve months ended July 31, 2015, issuers redeemed \$6 million of these securities at par, leaving a remaining balance of \$15 million at July 31, 2015. We continue to classify them as long-term investments based on the maturities of the underlying securities at that date. We do not intend to sell our municipal auction rate securities. In addition, it is more likely than not that we will not be required to sell them before recovery at par, which may be at maturity.

There were no transfers between Level 1, Level 2, and Level 3 of the fair value hierarchy during the twelve months ended July 31, 2015, 2014 or 2013.

Assets and Liabilities Measured at Fair Value on a Non-Recurring Basis

Assets measured at fair value on a non-recurring basis include reporting units measured at fair value in a goodwill impairment test. Estimates of fair value for reporting units fall under Level 3 of the fair value hierarchy.

During the fourth quarters of fiscal 2015, fiscal 2014, and fiscal 2013 we performed our annual goodwill impairment tests. Using the methodology described in Note 1, we determined that the estimated fair values of all of our reporting units exceeded their carrying values and that they were not impaired.

During the third quarter of fiscal 2015 there was a significant decline in the revenue and operating income forecast for our Consumer Ecosystem reporting unit. As a result of this development, we performed an interim impairment test of goodwill and acquired intangible assets for that reporting unit. We concluded that the carrying value of goodwill associated with our Consumer Ecosystem reporting unit was impaired and we recorded an impairment charge of \$263 million that reduced the carrying value of goodwill to \$211 million as of April 30, 2015. The amount of the impairment charge was determined by comparing the carrying value of goodwill assigned to the reporting unit with the implied fair value of the goodwill. We used a weighted combination of a discounted cash flow model (income approach) and comparisons to publicly traded companies engaged in similar businesses (market approach) to estimate the fair value of our Consumer Ecosystem reporting unit. Key assumptions that we used in the income approach included the amount and timing of estimated future cash flows to be generated by the business over an extended period of time, long-term growth rates for the business, and a rate of return that

considered the relative risk of achieving the cash flows and the time value of money. For the market approach, we estimated the fair value of the reporting unit based on market multiples of revenue, operating income, and earnings for comparable publicly traded companies engaged in similar businesses. We believe that the assumptions used to determine the impairment amount for the goodwill of this reporting unit are reasonable.

During the fourth quarter of fiscal 2015 management approved a plan to sell our Quicken business, which was part of our Consumer Ecosystem reporting unit, and we accounted for it as discontinued operations. As a result, we reclassified a portion of the goodwill impairment charge that we recorded in the third quarter of fiscal 2015 to discontinued operations based on the relative fair values of Quicken and the remaining components of our Consumer Ecosystem reporting unit.

In March 2013 the largest customer for our Intuit Health business acquired a company that offers similar solutions and competes with us directly in that market space. As a result, we performed an interim impairment test of goodwill and acquired intangible assets during the third quarter of fiscal 2013. We concluded that the carrying amounts of goodwill and certain definite-lived acquired intangible assets associated with our Intuit Health business were impaired and recorded an impairment charge of \$46 million that reduced the carrying value of those assets to zero. For goodwill, the amount of the impairment charge was determined by comparing the carrying value of goodwill assigned to the reporting unit with the implied fair value of the goodwill. We used a weighted combination of a discounted cash flow model (income approach) and comparisons to publicly traded companies engaged in similar businesses (market approach) to estimate the fair value of our Intuit Health reporting unit. Key assumptions that we used in the income approach included the amount and timing of estimated future cash flows to be generated by the business over an extended period of time, long-term growth rates for the business, and a rate of return that considered the relative risk of achieving the cash flows and the time value of money. For the market approach, we estimated the fair value of the reporting unit based on market multiples of revenue, operating income, and earnings for comparable publicly traded companies engaged in similar businesses. For those acquired intangible assets where the unamortized balances exceeded the undiscounted future net cash flows, we measured the amount of the impairment by calculating the amount by which the carrying values exceeded the estimated fair values, which were based on projected discounted future net cash flows. We believe that the assumptions used to determine the impairment amounts for the goodwill and acquired intangible assets for this business unit are reasonable. In the fourth quarter of fiscal 2013 management approved a plan to sell our Intuit Health business, which was part of our former Other Businesses reportable segment. On August 19, 2013 we completed the sale for cash consideration that was not significant.

3. Cash and Cash Equivalents, Investments and Funds Held for Customers

The following table summarizes our cash and cash equivalents, investments and funds held for customers by balance sheet classification at the dates indicated.

| | July 31, 2015 | | July 31, 2014 | |
|---|-----------------|-----------------|-----------------|-----------------|
| | Amortized Cost | Fair Value | Amortized Cost | Fair Value |
| <i>(In millions)</i> | | | | |
| Classification on balance sheets: | | | | |
| Cash and cash equivalents | \$ 808 | \$ 808 | \$ 849 | \$ 849 |
| Investments | 890 | 889 | 1,064 | 1,065 |
| Funds held for customers | 337 | 337 | 289 | 289 |
| Long-term investments | 27 | 27 | 31 | 31 |
| Total cash and cash equivalents, investments and funds held for customers | <u>\$ 2,062</u> | <u>\$ 2,061</u> | <u>\$ 2,233</u> | <u>\$ 2,234</u> |

The following table summarizes our cash and cash equivalents, investments and funds held for customers by investment category at the dates indicated. See Note 2 for more information on our municipal auction rate securities.

| | July 31, 2015 | | July 31, 2014 | |
|---|-----------------|-----------------|-----------------|-----------------|
| | Amortized Cost | Fair Value | Amortized Cost | Fair Value |
| <i>(In millions)</i> | | | | |
| Type of issue: | | | | |
| Total cash and cash equivalents | \$ 970 | \$ 970 | \$ 994 | \$ 994 |
| Available-for-sale debt securities: | | | | |
| Municipal bonds | 507 | 506 | 700 | 701 |
| Municipal auction rate securities | 15 | 15 | 21 | 21 |
| Corporate notes | 546 | 546 | 466 | 466 |
| U.S. agency securities | 12 | 12 | 42 | 42 |
| Total available-for-sale debt securities | 1,080 | 1,079 | 1,229 | 1,230 |
| Other long-term investments | 12 | 12 | 10 | 10 |
| Total cash and cash equivalents, investments and funds held for customers | <u>\$ 2,062</u> | <u>\$ 2,061</u> | <u>\$ 2,233</u> | <u>\$ 2,234</u> |

We include realized gains and losses on our available-for-sale debt securities in interest and other income, net in our statements of operations. Gross realized gains and losses on our available-for-sale debt securities for the twelve months ended July 31, 2015, 2014 and 2013 were not significant.

We accumulate unrealized gains and losses on our available-for-sale debt securities, net of tax, in accumulated other comprehensive income in the stockholders' equity section of our balance sheets. Gross unrealized gains and losses on our available-for-sale debt securities at July 31, 2015 and July 31, 2014 were not significant.

We periodically review our investment portfolios to determine if any investment is other-than-temporarily impaired due to changes in credit risk or other potential valuation concerns. We believe that the investments that we held at July 31, 2015 were not other-than-temporarily impaired. Unrealized losses on available-for-sale debt securities at July 31, 2015 were not significant and are due to changes in interest rates, including market credit spreads, and not due to increased credit risks associated with specific securities. We do not intend to sell these investments. In addition, it is more likely than not that we will not be required to sell them before recovery at par, which may be at maturity.

The following table summarizes our available-for-sale debt securities classified by the stated maturity date of the security at the dates indicated.

| | July 31, 2015 | | July 31, 2014 | |
|--|-----------------|-----------------|-----------------|-----------------|
| | Amortized Cost | Fair Value | Amortized Cost | Fair Value |
| <i>(In millions)</i> | | | | |
| Due within one year | \$ 434 | \$ 435 | \$ 363 | \$ 363 |
| Due within two years | 443 | 442 | 443 | 443 |
| Due within three years | 156 | 156 | 303 | 303 |
| Due after three years | 47 | 46 | 120 | 121 |
| Total available-for-sale debt securities | <u>\$ 1,080</u> | <u>\$ 1,079</u> | <u>\$ 1,229</u> | <u>\$ 1,230</u> |

Available-for-sale debt securities due after three years in the table above include our municipal auction rate securities. See Note 2, "Fair Value Measurements," for more information. All of the remaining securities in that category had interest reset dates or mandatory call dates within three years of the dates indicated in the table.

4. Property and Equipment

Property and equipment consisted of the following at the dates indicated:

| (Dollars in millions) | Life in Years | July 31, | |
|--|------------------|----------|--------|
| | | 2015 | 2014 |
| Equipment | 3-5 | \$ 447 | \$ 398 |
| Computer software | 3-6 | 552 | 507 |
| Furniture and fixtures | 5 | 71 | 68 |
| Leasehold improvements | 2-16 | 286 | 273 |
| Land | NA | 7 | 6 |
| Buildings | 5-30 | 192 | 192 |
| Capital in progress | NA | 188 | 127 |
| | | 1,743 | 1,571 |
| Less accumulated depreciation and amortization | | (1,061) | (982) |
| Total property and equipment, net | | \$ 682 | \$ 589 |

NA = Not Applicable

Capital in progress at July 31, 2015 and July 31, 2014 consisted primarily of costs related to internal use software projects and land that we have purchased adjacent to our headquarters campus in Mountain View, California that contains buildings that we are in the process of demolishing and reconstructing. As discussed in Note 1, “*Description of Business and Summary of Significant Accounting Policies – Internal Use Software*,” we capitalize costs related to the development of computer software for internal use. We capitalized internal use software costs totaling \$116 million for the twelve months ended July 31, 2015; \$80 million for the twelve months ended July 31, 2014; and \$66 million for the twelve months ended July 31, 2013. These amounts included capitalized labor costs of \$89 million, \$46 million and \$56 million. Costs related to internal use software projects are included in the capital in progress category of property and equipment until project completion, at which time they are transferred to the computer software category.

5. Goodwill and Acquired Intangible Assets

Goodwill

Changes in the carrying value of goodwill by reportable segment during the twelve months ended July 31, 2015 and July 31, 2014 were as shown in the following table. Our reportable segments are described in Note 14, “*Segment Information*.”

| (In millions) | Balance July 31, 2013 | Goodwill Acquired/ Adjusted | Balance July 31, 2014 | Goodwill Acquired/ Adjusted | Goodwill Impairment Charges | Balance July 31, 2015 |
|------------------|-----------------------------|-----------------------------------|-----------------------------|-----------------------------------|-----------------------------------|-----------------------------|
| Small Business | \$ 988 | \$ 225 | \$ 1,213 | \$ 58 | (114) | \$ 1,157 |
| Consumer Tax | 19 | (2) | 17 | 1 | — | 18 |
| Professional Tax | 93 | — | 93 | (2) | — | 91 |
| Totals | \$ 1,100 | \$ 223 | \$ 1,323 | \$ 57 | \$ (114) | \$ 1,266 |

We had no accumulated goodwill impairment losses for our continuing operations at July 31, 2013. See Note 2, “*Fair Value Measurements – Assets and Liabilities Measured at Fair Value on a Non-Recurring Basis*,” for a description of the goodwill impairment charge we recorded for our Consumer Ecosystem reporting unit in fiscal 2015. The increase in goodwill in our Small Business segment during the twelve months ended July 31, 2015 was due to a number of small acquisitions, none of which were individually significant. The increase in goodwill in our Small Business segment during the twelve months ended July 31, 2014 was due to the acquisition of Mint Bills (formerly Check Inc.). See Note 6, “*Business Combinations*,” and Note 14, “*Segment Information*,” for more information.

Acquired Intangible Assets

The following table shows the cost, accumulated amortization and weighted average life in years for our acquired intangible assets at the dates indicated.

| <i>(Dollars in millions)</i> | Customer Lists | Purchased Technology | Trade Names and Logos | Covenants Not to Compete or Sue | Total |
|---------------------------------|----------------|----------------------|-----------------------|---------------------------------|---------------|
| At July 31, 2015: | | | | | |
| Cost | \$ 243 | \$ 371 | \$ 24 | \$ 32 | \$ 670 |
| Accumulated amortization | (239) | (294) | (23) | (27) | (583) |
| Acquired intangible assets, net | <u>\$ 4</u> | <u>\$ 77</u> | <u>\$ 1</u> | <u>\$ 5</u> | <u>\$ 87</u> |
| Weighted average life in years | <u>5</u> | <u>5</u> | <u>4</u> | <u>9</u> | <u>5</u> |
| At July 31, 2014: | | | | | |
| Cost | \$ 244 | \$ 336 | \$ 23 | \$ 32 | \$ 635 |
| Accumulated amortization | (231) | (227) | (19) | (25) | (502) |
| Acquired intangible assets, net | <u>\$ 13</u> | <u>\$ 109</u> | <u>\$ 4</u> | <u>\$ 7</u> | <u>\$ 133</u> |
| Weighted average life in years | <u>7</u> | <u>5</u> | <u>8</u> | <u>8</u> | <u>6</u> |

The following table shows the expected future amortization expense for our acquired intangible assets at July 31, 2015. Amortization of purchased technology is charged to cost of service and other revenue and to amortization of acquired technology in our statements of operations. Amortization of other acquired intangible assets such as customer lists is charged to amortization of other acquired intangible assets in our statements of operations. If impairment events occur, they could accelerate the timing of acquired intangible asset charges.

| <i>(In millions)</i> | Expected Future Amortization Expense |
|--|--------------------------------------|
| Twelve months ending July 31, | |
| 2016 | \$ 37 |
| 2017 | 24 |
| 2018 | 16 |
| 2019 | 7 |
| 2020 | 3 |
| Thereafter | — |
| Total expected future amortization expense | <u>\$ 87</u> |

6. Business Combinations

Check Inc. (Mint Bills)

On June 16, 2014 we acquired all of the outstanding equity interests of Check Inc. for total cash and other consideration of approximately \$369 million. The \$369 million included total purchase consideration of approximately \$342 million and \$27 million for the fair value of assumed equity awards that is being charged to expense over service periods of up to four years. Check provides a mobile application that automates and consolidates the bill payment process in one place, reducing complexity for consumers. Check is now known as Mint Bills and is part of our Small Business segment. See Note 14, “Segment Information,” for more information. We have included the results of operations for Check in our consolidated results of operations from the date of acquisition. Their results of operations for periods prior to the date of acquisition were not material when compared with our consolidated results of operations.

Under the acquisition method of accounting we allocated the fair value of the total purchase consideration of \$342 million to the tangible and identifiable intangible assets acquired and liabilities assumed based on their estimated fair values on the date of acquisition. The fair values assigned to the identifiable intangible assets acquired were based on estimates and assumptions determined by management. We recorded the excess of consideration over the aggregate fair values as goodwill. Using

information available at the time the acquisition closed, we allocated approximately \$14 million of the consideration to net tangible assets and approximately \$35 million of the consideration to identified intangible assets. We recorded the excess consideration of approximately \$293 million as goodwill, none of which is deductible for income tax purposes.

7. Discontinued Operations

Demandforce, QuickBase, and Quicken

In the fourth quarter of fiscal 2015 management having the authority to do so formally approved a plan to sell our Demandforce, QuickBase, and Quicken businesses. The decision was a result of management's desire to focus resources on our core small business and tax strategy. We determined that these businesses became long-lived assets held for sale in the fourth quarter of fiscal 2015. A long-lived asset classified as held for sale is measured at the lower of its carrying amount or fair value less cost to sell. Since the carrying value of these three businesses at July 31, 2015 was less than the estimated fair value less cost to sell, no adjustments to the carrying values of these long-lived assets were necessary at that date.

We also classified our Demandforce, QuickBase, and Quicken businesses as discontinued operations in the fourth quarter of fiscal 2015 and have therefore segregated their operating results from continuing operations in our statements of operations and on our balance sheets for all periods presented. Because operating cash flows from these businesses were not material for any period presented, we have not segregated them from continuing operations on our statements of cash flows. Demandforce and QuickBase were part of our Small Business segment and Quicken was part of our former Consumer segment.

See the table later in this Note 7 for more information on the operating results of Demandforce, QuickBase, and Quicken. The carrying amounts of the major classes of assets and liabilities of Demandforce, QuickBase, and Quicken at July 31, 2015 and July 31, 2014 were as shown in the following table.

| | July 31, | |
|----------------------------------|----------|--------|
| | 2015 | 2014 |
| <i>(In millions)</i> | | |
| Accounts receivable | \$ 19 | \$ 19 |
| Deferred income taxes | 5 | 9 |
| Prepaid and other current assets | 2 | 1 |
| Property and equipment, net | 25 | 17 |
| Goodwill | 165 | 312 |
| Purchased intangible assets, net | 43 | 66 |
| Other assets | 2 | 1 |
| Total assets | 261 | 425 |
| Accounts payable | 7 | 16 |
| Accrued compensation | 21 | 16 |
| Deferred revenue | 48 | 31 |
| Other current liabilities | 17 | 17 |
| Long-term deferred revenue | 39 | 7 |
| Long-term obligations | 29 | 27 |
| Total liabilities | 161 | 114 |
| Net assets | \$ 100 | \$ 311 |

Intuit Financial Services

On July 1, 2013 we signed a definitive agreement to sell our Intuit Financial Services (IFS) business and on August 1, 2013 we completed the sale for approximately \$1.025 billion in cash. We recorded a \$44 million pre-tax gain on the disposal of IFS that was partially offset by a related income tax provision of approximately \$8 million, resulting in a net gain on disposal of approximately \$36 million in the first quarter of fiscal 2014. The decision to sell the IFS business was a result of management's desire to focus resources on our offerings for small businesses, consumers, and accounting professionals. The IFS business comprised substantially all of our former Financial Services reportable segment.

We determined that our IFS business became a long-lived asset held for sale in the fourth quarter of fiscal 2013. A long-lived asset classified as held for sale is measured at the lower of its carrying amount or fair value less cost to sell. Since the carrying

value of IFS at July 31, 2013 was less than the estimated fair value less cost to sell, no adjustment to the carrying value of this long-lived asset was necessary at that date.

We also classified our IFS business as discontinued operations in the fourth quarter of fiscal 2013 and have therefore segregated its operating results from continuing operations in our statements of operations for all periods presented. See the table later in this Note for more information. Because operating cash flows from the IFS business were not material for any period presented, we have not segregated them from continuing operations on our statements of cash flows.

Intuit Health

In July 2013 management having the authority to do so formally approved a plan to sell our Intuit Health business and on August 19, 2013 we completed the sale for cash consideration that was not significant. We recorded a \$4 million pre-tax loss on the disposal of Intuit Health that was more than offset by a related income tax benefit of approximately \$14 million, resulting in a net gain on disposal of approximately \$10 million in the first quarter of fiscal 2014. The decision to sell the Intuit Health business was a result of management's desire to focus resources on our offerings for small businesses, consumers, and accounting professionals. Intuit Health was part of our former Other Businesses reportable segment.

We determined that our Intuit Health business became a long-lived asset held for sale in the fourth quarter of fiscal 2013. A long-lived asset classified as held for sale is measured at the lower of its carrying amount or fair value less cost to sell. Since the carrying value of Intuit Health at July 31, 2013 was less than the estimated fair value less cost to sell, no adjustment to the carrying value of this long-lived asset was necessary at that date.

We also classified our Intuit Health business as discontinued operations in the fourth quarter of fiscal 2013 and have segregated its operating results in our statements of operations for all periods presented. See the table later in this Note for more information. Because operating cash flows from the Intuit Health business were also not material for any period presented, we have not segregated them from continuing operations on our statements of cash flows.

Intuit Websites

In July 2012 management having the authority to do so formally approved a plan to sell our Intuit Websites business, which was a component of our Small Business segment. The decision was the result of a shift in our strategy for helping small businesses to establish an online presence. On August 10, 2012 we signed a definitive agreement to sell our Intuit Websites business and on September 17, 2012 we completed the sale for approximately \$60 million in cash. We recorded a gain on disposal of approximately \$32 million, net of income taxes.

We determined that our Intuit Websites business became a long-lived asset held for sale in the fourth quarter of fiscal 2012. A long-lived asset classified as held for sale is measured at the lower of its carrying amount or fair value less cost to sell. Since the carrying value of Intuit Websites at July 31, 2012 was less than the estimated fair value less cost to sell, no adjustment to the carrying value of this long-lived asset was necessary at that date.

We also classified our Intuit Websites business as discontinued operations in the fourth quarter of fiscal 2012 and have segregated its operating results in our statements of operations for all periods presented. See the table later in this Note for more information. Because operating cash flows from the Intuit Websites business were also not material for any period presented, we have not segregated them from continuing operations on our statements of cash flows.

Net Income (Loss) from Discontinued Operations

Net revenue from discontinued operations, income or loss from discontinued operations before income taxes, and the components of net income (loss) from discontinued operations were as follows for the periods indicated:

| (In millions) | Twelve Months Ended July 31, | | |
|---|------------------------------|---------------|---------------|
| | 2015 | 2014 | 2013 |
| Net revenue from discontinued operations: | | | |
| Intuit Financial Services | \$ — | \$ — | \$ 325 |
| Intuit Health | — | 1 | 16 |
| Intuit Websites | — | — | 10 |
| Demandforce | 115 | 107 | 80 |
| QuickBase | 70 | 57 | 47 |
| Quicken | 51 | 98 | 99 |
| Total net revenue from discontinued operations | <u>\$ 236</u> | <u>\$ 263</u> | <u>\$ 577</u> |
| Income (loss) from discontinued operations before income taxes: | | | |
| Intuit Financial Services | \$ — | \$ — | \$ 52 |
| Intuit Health | — | (1) | (71) |
| Demandforce | (63) | (51) | (41) |
| QuickBase | 11 | 7 | 10 |
| Quicken | (136) | 57 | 58 |
| Total income (loss) from discontinued operations before income taxes | <u>\$ (188)</u> | <u>\$ 12</u> | <u>\$ 8</u> |
| Net income (loss) from discontinued operations: | | | |
| Net income from Intuit Financial Services operations | \$ — | \$ — | \$ 34 |
| Net gain on disposal of Intuit Financial Services discontinued operations | — | 36 | 8 |
| Net loss from Intuit Health operations | — | — | (57) |
| Net gain on disposal of Intuit Health discontinued operations | — | 10 | 18 |
| Net gain on disposal of Intuit Websites discontinued operations | — | — | 32 |
| Net loss from Demandforce operations | (39) | (30) | (27) |
| Net income from QuickBase operations | 7 | 4 | 6 |
| Net income (loss) from Quicken operations | (140) | 34 | 37 |
| Tax benefit from discontinued operations | 124 | — | — |
| Total net income (loss) from discontinued operations | <u>\$ (48)</u> | <u>\$ 54</u> | <u>\$ 51</u> |

The tax benefit from discontinued operations for the twelve months ended July 31, 2015 and the net gains on disposal of Intuit Financial Services and Intuit Health for the twelve months ended July 31, 2013 were comprised of tax benefits from the anticipated sales of those businesses. See Note 10, "Income Taxes," for more information.

8. Current Liabilities

Unsecured Revolving Credit Facility

On February 17, 2012 we entered into an agreement with certain institutional lenders for a \$500 million unsecured revolving credit facility that will expire on February 17, 2017. Advances under the credit facility will accrue interest at rates that are equal to, at our election, either JP Morgan's alternate base rate plus a margin that ranges from 0.0% to 0.5% or the London InterBank Offered Rate (LIBOR) plus a margin that ranges from 0.9% to 1.5%. Actual margins under either election will be based on our senior debt credit ratings. The agreement includes customary affirmative and negative covenants, including financial covenants that require us to maintain a ratio of total debt to annual earnings before interest, taxes, depreciation and amortization (EBITDA) of not greater than 3.25 to 1.00 as of any date and a ratio of annual EBITDA to interest payable of not less than 3.00 to 1.00 as of the last day of each fiscal quarter. We remained in compliance with these covenants at all times during the twelve

months ended July 31, 2015. We may use the proceeds of any advances under this credit facility for general corporate purposes, including future acquisitions and stock repurchases. To date we have not borrowed under this credit facility.

Other Current Liabilities

Other current liabilities were as follows at the dates indicated:

| | July 31, | |
|--|---------------|---------------|
| | 2015 | 2014 |
| <i>(In millions)</i> | | |
| Reserve for product returns | \$ 12 | \$ 15 |
| Reserve for rebates | 12 | 21 |
| Current portion of license fee payable | 10 | 10 |
| Current portion of deferred rent | 8 | 6 |
| Interest payable | 10 | 10 |
| Executive deferred compensation plan liabilities | 63 | 62 |
| Other | 35 | 26 |
| Total other current liabilities | <u>\$ 150</u> | <u>\$ 150</u> |

9. Long-Term Obligations and Commitments

Long-Term Debt

On March 12, 2007 we issued \$500 million of 5.75% senior unsecured notes due on March 15, 2017 (the Notes). We carried the Notes at face value less the unamortized discount in long-term debt on our balance sheets at July 31, 2015 and July 31, 2014. The Notes are redeemable by Intuit at any time, subject to a make-whole premium, and include covenants that limit our ability to grant liens on our facilities and to enter into sale and leaseback transactions, subject to significant allowances. Interest on the Notes is payable semi-annually on March 15 and September 15. We paid \$29 million in cash for interest on the Notes during each of the twelve months ended July 31, 2015, July 31, 2014 and July 31, 2013.

Other Long-Term Obligations

Other long-term obligations were as follows at the dates indicated:

| | July 31, | |
|--|---------------|---------------|
| | 2015 | 2014 |
| <i>(In millions)</i> | | |
| Total deferred rent | \$ 49 | \$ 52 |
| Total license fee payable | 34 | 41 |
| Long-term income tax liabilities | 45 | 32 |
| Long-term deferred income tax liabilities | 50 | 44 |
| Other | 13 | 14 |
| Total long-term obligations | <u>191</u> | <u>183</u> |
| Less current portion (included in other current liabilities) | <u>(19)</u> | <u>(17)</u> |
| Long-term obligations due after one year | <u>\$ 172</u> | <u>\$ 166</u> |

In May 2009 we entered into an agreement to license certain technology for \$20 million in cash and \$100 million payable over ten fiscal years. The total present value of the arrangement at inception was approximately \$89 million. The total license fee payable in the table above includes imputed interest through the dates indicated.

Operating Lease Commitments and Unconditional Purchase Obligations

We lease office facilities and equipment under non-cancellable operating lease arrangements. Our facilities leases generally provide for periodic rent increases and many contain escalation clauses and renewal options. The leases for our corporate headquarters campus in Mountain View, California expire in 2024 and 2026, with options to extend the lease terms for an additional ten years at rates to be determined in accordance with the agreements.

In the ordinary course of business we enter into certain unconditional purchase obligations with our suppliers. These are agreements to purchase products and services that are enforceable, legally binding, and specify terms that include fixed or minimum quantities to be purchased; fixed, minimum or variable price provisions; and the approximate timing of the payments.

Annual minimum commitments under operating leases and purchase obligations at July 31, 2015 were as shown in the table below.

| <i>(In millions)</i> | Operating Lease Commitments | Purchase Obligations |
|---|--|---------------------------------|
| Fiscal year ending July 31, | | |
| 2016 | \$ 74 | \$ 26 |
| 2017 | 72 | 12 |
| 2018 | 58 | 55 |
| 2019 | 50 | — |
| 2020 | 47 | — |
| Thereafter | 221 | 1 |
| Total commitments | <u>\$ 522</u> | <u>\$ 94</u> |
| Less minimum payments to be received from non-cancellable subleases | (13) | |
| Net operating lease commitments | <u>\$ 509</u> | |

Rent expense for continuing operations totaled \$59 million for the twelve months ended July 31, 2015, \$54 million for the twelve months ended July 31, 2014, and \$50 million for the twelve months ended July 31, 2013. Rent expense includes base contractual rent and contractual variable expenses such as building maintenance, utilities, property taxes and insurance.

10. Income Taxes

The provision for income taxes from continuing operations consisted of the following for the periods indicated:

| <i>(In millions)</i> | Twelve Months Ended July 31, | | |
|---|-------------------------------------|---------------|---------------|
| | 2015 | 2014 | 2013 |
| Current: | | | |
| Federal | \$ 253 | \$ 358 | \$ 328 |
| State | 20 | 21 | 30 |
| Foreign | 7 | 10 | 5 |
| Total current | <u>280</u> | <u>389</u> | <u>363</u> |
| Deferred: | | | |
| Federal | 14 | 51 | 4 |
| State | 1 | 5 | 1 |
| Foreign | 4 | 2 | 10 |
| Total deferred | <u>19</u> | <u>58</u> | <u>15</u> |
| Total provision for income taxes from continuing operations | <u>\$ 299</u> | <u>\$ 447</u> | <u>\$ 378</u> |

Excess tax benefits associated with share-based compensation deductions are credited to stockholders' equity. The reductions of income taxes payable resulting from share-based compensation deductions that were credited to stockholders' equity were approximately \$85 million for the twelve months ended July 31, 2015, \$82 million for the twelve months ended July 31, 2014, and \$69 million for the twelve months ended July 31, 2013.

The sources of income from continuing operations before the provision for income taxes consisted of the following for the periods indicated:

| <i>(In millions)</i> | Twelve Months Ended July 31, | | |
|----------------------|-------------------------------------|-----------------|-----------------|
| | 2015 | 2014 | 2013 |
| United States | \$ 716 | \$ 1,276 | \$ 1,140 |
| Foreign | (4) | 24 | 45 |
| Total | <u>\$ 712</u> | <u>\$ 1,300</u> | <u>\$ 1,185</u> |

Differences between income taxes calculated using the federal statutory income tax rate of 35% and the provision for income taxes from continuing operations were as follows for the periods indicated:

| <i>(In millions)</i> | Twelve Months Ended July 31, | | |
|---|------------------------------|----------|----------|
| | 2015 | 2014 | 2013 |
| Income from continuing operations before income taxes | \$ 712 | \$ 1,300 | \$ 1,185 |
| Statutory federal income tax | \$ 249 | \$ 455 | \$ 415 |
| State income tax, net of federal benefit | 15 | 17 | 17 |
| Federal research and experimentation credits | (19) | (7) | (23) |
| Domestic production activities deduction | (19) | (25) | (29) |
| Share-based compensation | 15 | 8 | 6 |
| Effects of non-U.S. operations | 12 | 1 | (2) |
| Non-deductible goodwill | 40 | — | — |
| Other, net | 6 | (2) | (6) |
| Total provision for income taxes from continuing operations | \$ 299 | \$ 447 | \$ 378 |

In December 2014 the Tax Increase Prevention Act of 2014 was signed into law. The Act includes a reinstatement of the federal research and experimentation credit through December 31, 2014 that was retroactive to January 1, 2014. We recorded a discrete tax benefit of approximately \$11 million for the retroactive effect during the twelve months ended July 31, 2015. As of July 31, 2015, the federal research and experimentation credit had not been extended beyond December 31, 2014.

In January 2013 the American Taxpayer Relief Act of 2012 was signed into law. The Act includes a reinstatement of the federal research and experimentation credit through December 31, 2013 that was retroactive to January 1, 2012. We recorded a discrete tax benefit of approximately \$8 million for the retroactive effect during the twelve months ended July 31, 2013.

Significant deferred tax assets and liabilities were as follows at the dates indicated:

| <i>(In millions)</i> | July 31, | |
|---|----------|-------|
| | 2015 | 2014 |
| Deferred tax assets: | | |
| Accruals and reserves not currently deductible | \$ 36 | \$ 53 |
| Deferred rent | 10 | 8 |
| Accrued and deferred compensation | 52 | 48 |
| Loss and tax credit carryforwards | 44 | 41 |
| Share-based compensation | 52 | 50 |
| Net basis difference in investments held for sale | 122 | — |
| Other, net | 6 | 1 |
| Total deferred tax assets | 322 | 201 |
| Deferred tax liabilities: | | |
| Intangible assets | 87 | 97 |
| Property and equipment | 20 | 4 |
| Total deferred tax liabilities | 107 | 101 |
| Total net deferred tax assets | 215 | 100 |
| Valuation allowance | (30) | (20) |
| Total net deferred tax assets, net of valuation allowance | \$ 185 | \$ 80 |

The components of total net deferred tax assets, net of valuation allowances, as shown on our balance sheets were as follows at the dates indicated:

| (In millions) | July 31, | |
|---|---------------|--------------|
| | 2015 | 2014 |
| Current deferred income taxes | \$ 231 | \$ 124 |
| Long-term deferred income taxes included in other assets | 4 | — |
| Long-term deferred income taxes included in other long-term obligations | (50) | (44) |
| Total net deferred tax assets, net of valuation allowance | <u>\$ 185</u> | <u>\$ 80</u> |

We have provided a valuation allowance related to the benefits of federal and state net basis difference in investments held for sale, state capital and operating loss carryforwards, foreign operating loss carryforwards, and state tax credit carryforwards that we believe are unlikely to be realized. Changes in the valuation allowance during the twelve months ended July 31, 2015 were primarily related to an increase in the valuation allowance for state tax credit and foreign operating loss carryforwards, offset with a reduction in the valuation allowance for state capital loss carryforwards. Changes in the valuation allowance during the twelve months ended July 31, 2014 were primarily related to the reduction of the valuation allowance on the loss associated with the sale of our Intuit Health investment, partially offset by the increase of the valuation allowance related to state tax credit and state and foreign operating loss carryforwards.

The deferred tax asset for the net basis difference in the Demandforce investment held for sale was \$122 million. We recorded the related tax benefit to tax benefit from discontinued operations. See Note 7, “Discontinued Operations,” for more information.

At July 31, 2015, the deferred tax asset for the state capital loss carryforwards on the sale of Intuit Websites and Intuit Financial Services was \$4 million, on which there was a valuation allowance of \$1 million. During the twelve months ended July 31, 2015 the valuation allowance was reduced by \$2 million and the related tax benefit was recorded to tax benefit from discontinued operations. See Note 7, “Discontinued Operations,” for more information.

At July 31, 2015, we had total federal net operating loss carryforwards of approximately \$23 million that will start to expire in fiscal 2029. Utilization of the net operating losses is subject to annual limitation. The annual limitation may result in the expiration of net operating losses before utilization.

At July 31, 2015, we had total state net operating loss carryforwards of approximately \$115 million for which we have recorded a deferred tax asset of \$7 million and a valuation allowance of \$6 million. The state net operating losses will start to expire in fiscal 2016. Utilization of the net operating losses is subject to annual limitation. The annual limitation may result in the expiration of net operating losses before utilization.

At July 31, 2015, we had Singapore operating loss carryforwards of approximately \$46 million which have an indefinite carryforward period. We recorded a full valuation allowance on the related deferred tax asset.

At July 31, 2015, we had California research and experimentation credit carryforwards of approximately \$44 million. If realized, \$11 million of the carryforward will be recognized as additional paid in capital. We recorded a full valuation on the related deferred tax asset.

Unrecognized Tax Benefits

The aggregate changes in the balance of our gross unrecognized tax benefits were as follows for the periods indicated:

| (In millions) | Twelve Months Ended July 31, | | |
|--|------------------------------|--------------|--------------|
| | 2015 | 2014 | 2013 |
| Gross unrecognized tax benefits, beginning balance | \$ 40 | \$ 39 | \$ 38 |
| Increases related to tax positions from prior fiscal years, including acquisitions | 15 | 4 | 5 |
| Decreases related to tax positions from prior fiscal years | (1) | (8) | (12) |
| Increases related to tax positions taken during current fiscal year | 5 | 5 | 9 |
| Settlements with tax authorities | (3) | — | (1) |
| Gross unrecognized tax benefits, ending balance | <u>\$ 56</u> | <u>\$ 40</u> | <u>\$ 39</u> |

The total amount of our unrecognized tax benefits at July 31, 2015 was \$56 million. Net of related deferred tax assets, unrecognized tax benefits were \$37 million at that date. If we were to recognize these net benefits, our income tax expense would reflect a favorable net impact of \$37 million. We do not believe that it is reasonably possible that there will be a significant increase or decrease in unrecognized tax benefits over the next 12 months.

We file U.S. federal, U.S. state, and foreign tax returns. Our major tax jurisdictions are U.S. federal and the State of California. For U.S. federal tax returns we are no longer subject to tax examinations for years prior to fiscal 2010. For California tax returns we are no longer subject to tax examinations for years prior to fiscal 2009. We are currently under examination by the Internal Revenue Service for fiscal 2010 through fiscal 2012.

We recognize interest and penalties related to unrecognized tax benefits within the provision for income taxes. Amounts accrued at July 31, 2015 and July 31, 2014 for the payment of interest and penalties were not significant. The amounts of interest and penalties that we recognized during the twelve months ended July 31, 2015, 2014 and 2013 were also not significant.

11. Stockholders' Equity

Stock Repurchase Programs

Intuit's Board of Directors has authorized a series of common stock repurchase programs. Shares of common stock repurchased under these programs become treasury shares. Under these programs, we repurchased 13.8 million shares of our common stock for \$1.2 billion during the twelve months ended July 31, 2015; 22.5 million shares for \$1.6 billion during the twelve months ended July 31, 2014; and 4.8 million shares for \$292 million during the twelve months ended July 31, 2013. At July 31, 2015, we had authorization from our Board of Directors to expend up to an additional \$2.6 billion for stock repurchases through May 19, 2019. Future stock repurchases under the current program are at the discretion of management, and authorization of future stock repurchase programs is subject to the final determination of our Board of Directors.

To facilitate our stock repurchase program, from time to time we repurchase shares in the open market. On August 23, 2013 we entered into an accelerated share repurchase (ASR) agreement with a large financial institution to repurchase \$1.4 billion of Intuit's common stock on an accelerated basis. On August 23, 2013 we paid \$1.4 billion to the financial institution and received an initial delivery of 17.6 million shares of Intuit common stock. On December 23, 2013 we received a final delivery of 2.6 million shares of Intuit common stock. We treated the ASR as a forward contract indexed to our own common stock. The forward contract met all of the applicable criteria for equity classification, so we did not account for it as a derivative instrument. We have reflected the shares delivered to us by the financial institution as treasury shares as of the date they were physically delivered in computing weighted average shares outstanding for both basic and diluted net loss per share.

Our treasury shares are repurchased at the market price on the trade date; accordingly, all amounts paid to reacquire these shares have been recorded as treasury stock on our balance sheets. Repurchased shares of our common stock are held as treasury shares until they are reissued or retired. When we reissue treasury stock, if the proceeds from the sale are more than the average price we paid to acquire the shares we record an increase in additional paid-in capital. Conversely, if the proceeds from the sale are less than the average price we paid to acquire the shares, we record a decrease in additional paid-in capital to the extent of increases previously recorded for similar transactions and a decrease in retained earnings for any remaining amount.

In the past we have satisfied option exercises and restricted stock unit vesting under our employee equity incentive plans by reissuing treasury shares, and we may do so again in the future. During the second quarter of fiscal 2014 we began issuing new shares of common stock to satisfy option exercises and RSU vesting under our 2005 Equity Incentive Plan. We have not yet determined the ultimate disposition of the shares that we have repurchased in the past, and consequently we continue to hold them as treasury shares.

Dividends on Common Stock

During fiscal 2015 we declared and paid cash dividends that totaled \$1.00 per share of outstanding common stock or approximately \$283 million. In August 2015 our Board of Directors declared a quarterly cash dividend of \$0.30 per share of outstanding common stock payable on October 19, 2015 to stockholders of records at the close of business on October 12, 2015. Future declarations of dividends and the establishment of future record dates and payment dates are subject to the final determination of our Board of Directors.

Description of 2005 Equity Incentive Plan

Our stockholders initially approved our 2005 Equity Incentive Plan (2005 Plan) on December 9, 2004. On January 23, 2014 our stockholders approved an Amended and Restated 2005 Equity Incentive Plan (Restated 2005 Plan) that expires on October 29, 2023. Under the Restated 2005 Plan, we are permitted to grant incentive and non-qualified stock options, restricted stock awards, restricted stock units (RSUs), stock appreciation rights and stock bonus awards to our employees, non-employee directors, and consultants. The Compensation and Organizational Development Committee of our Board of Directors or its delegates determine who will receive grants, when those grants will be exercisable, their exercise price and other terms. We are permitted to issue up to 115.0 million shares under the Restated 2005 Plan. The plan provides a fungible share reserve. Each stock option granted on or after November 1, 2010 reduces the share reserve by one share and each restricted stock award or

restricted stock unit granted reduces the share reserve by 2.3 shares. Stock options forfeited and returned to the pool of shares available for grant increase the pool by one share for each share forfeited. Restricted stock awards and RSUs forfeited and returned to the pool of shares available for grant increase the pool by 2.3 shares for each share forfeited. At July 31, 2015, there were approximately 17.2 million shares available for grant under this plan. Stock options granted under the 2005 Plan and the Restated 2005 Plan typically vest over three years based on continued service and have a seven year term. RSUs granted under those plans typically vest over three years based on continued service. Certain RSUs granted to senior management vest based on the achievement of pre-established performance or market goals.

Description of Employee Stock Purchase Plan

On November 26, 1996 our stockholders initially adopted our Employee Stock Purchase Plan (ESPP) under Section 423 of the Internal Revenue Code. The ESPP permits our eligible employees to make payroll deductions to purchase our stock on regularly scheduled purchase dates at a discount. Our stockholders have approved amendments to the ESPP to permit the issuance of up to 23.8 million shares under the ESPP, which expires upon the earliest to occur of (a) termination of the ESPP by the Board, or (b) issuance of all the shares of Intuit's common stock reserved for issuance under the ESPP. Offering periods under the ESPP are six months in duration and composed of two consecutive three-month accrual periods. Shares are purchased at 85% of the lower of the closing price for Intuit common stock on the first day of the offering period or the last day of the accrual period.

Under the ESPP, employees purchased 892,632 shares of Intuit common stock during the twelve months ended July 31, 2015; 1,044,961 shares during the twelve months ended July 31, 2014; and 1,172,822 shares during the twelve months ended July 31, 2013. At July 31, 2015, there were 4,638,773 shares available for issuance under this plan.

Share-Based Compensation Expense

The following table summarizes the total share-based compensation expense that we recorded in operating income from continuing operations for the periods shown.

| | Twelve Months Ended July 31, | | |
|---|------------------------------|----------------|----------------|
| | 2015 | 2014 | 2013 |
| <i>(In millions except per share amounts)</i> | | | |
| Cost of service and other revenue | \$ 6 | \$ 7 | \$ 4 |
| Selling and marketing | 69 | 53 | 55 |
| Research and development | 80 | 59 | 50 |
| General and administrative | 87 | 67 | 57 |
| Total share-based compensation expense from continuing operations | 242 | 186 | 166 |
| Income tax benefit | (75) | (60) | (55) |
| Decrease in net income from continuing operations | <u>\$ 167</u> | <u>\$ 126</u> | <u>\$ 111</u> |
| Decrease in net income per share from continuing operations: | | | |
| Basic | <u>\$ 0.59</u> | <u>\$ 0.44</u> | <u>\$ 0.37</u> |
| Diluted | <u>\$ 0.58</u> | <u>\$ 0.43</u> | <u>\$ 0.37</u> |

The table above excludes share-based compensation expense for our discontinued operations, which totaled \$15 million during the twelve months ended July 31, 2015, \$18 million during the twelve months ended July 31, 2014, and \$29 million during the twelve months ended July 31, 2013. Because we have not reclassified our statements of cash flows to segregate discontinued operations, these amounts are included in share-based compensation expense on our statements of cash flows for that period.

Determining Fair Value

Valuation and Amortization Method. We estimate the fair value of stock options granted using a lattice binomial model and a multiple option award approach. Our stock options have various restrictions, including vesting provisions and restrictions on transfer, and are often exercised prior to their contractual maturity. We believe that lattice binomial models are more capable of incorporating the features of our stock options than closed-form models such as the Black Scholes model. The use of a lattice binomial model requires the use of extensive actual employee exercise behavior and a number of complex assumptions including the expected volatility of our stock price over the term of the options, risk-free interest rates and expected dividends. We amortize the fair value of options on a straight-line basis over the requisite service periods of the awards, which are generally the vesting periods.

Restricted stock units (RSUs) granted typically vest based on continued service. We value these time-based RSUs at the date of grant using the intrinsic value method, adjusted for estimated forfeitures. We amortize the fair value of time-based RSUs on a straight-line basis adjusted for estimated forfeitures over the service period. Certain RSUs granted to senior management vest based on the achievement of pre-established performance or market goals. We estimate the fair value of performance-based RSUs at the date of grant using the intrinsic value method and the probability that the specified performance criteria will be met, adjusted for estimated forfeitures. Each quarter we update our assessment of the probability that the specified performance criteria will be achieved and adjust our estimate of the fair value of the performance-based RSUs if necessary. We amortize the fair values of performance-based RSUs over the requisite service period adjusted for estimated forfeitures for each separately vesting tranche of the award. We estimate the fair value of market-based RSUs at the date of grant using a Monte Carlo valuation methodology and amortize those fair values over the requisite service period adjusted for estimated forfeitures for each separately vesting tranche of the award. The Monte Carlo methodology that we use to estimate the fair value of market-based RSUs at the date of grant incorporates into the valuation the possibility that the market condition may not be satisfied. Provided that the requisite service is rendered, the total fair value of the market-based RSUs at the date of grant must be recognized as compensation expense even if the market condition is not achieved. However, the number of shares that ultimately vest can vary significantly with the performance of the specified market criteria.

All of the RSUs we grant have dividend rights that are subject to the same vesting requirements as the underlying equity awards, so we do not adjust the market price of our stock on the date of grant for dividends.

Expected Term. The expected term of options granted represents the period of time that they are expected to be outstanding and is a derived output of the lattice binomial model. The expected term of stock options is impacted by all of the underlying assumptions and calibration of our model. The lattice binomial model assumes that option exercise behavior is a function of the option's remaining vested life and the extent to which the market price of our common stock exceeds the option exercise price. The lattice binomial model estimates the probability of exercise as a function of these two variables based on the history of exercises and cancellations on all past option grants made by us.

Expected Volatility. We estimate the volatility of our common stock at the date of grant based on the implied volatility of one-year and two-year publicly traded options on our common stock. Our decision to use implied volatility was based upon the availability of actively traded options on our common stock and our assessment that implied volatility is more representative of future stock price trends than historical volatility.

Risk-Free Interest Rate. We base the risk-free interest rate that we use in our option valuation model on the implied yield in effect at the time of option grant on constant maturity U.S. Treasury issues with equivalent remaining terms.

Dividends. We use an annualized expected dividend yield in our option valuation model. We paid quarterly cash dividends during fiscal 2015, fiscal 2014, and fiscal 2013 and currently expect to continue to pay cash dividends in the future.

Forfeitures. We estimate forfeitures at the time of grant and revise those estimates in subsequent periods if actual forfeitures differ from those estimates. We use historical data to estimate pre-vesting option forfeitures and record share-based compensation expense only for those awards that are expected to vest.

We used the following assumptions to estimate the fair value of stock options granted and shares purchased under our Employee Stock Purchase Plan for the periods indicated:

| | Twelve Months Ended July 31, | | |
|---------------------------------------|------------------------------|---------------|---------------|
| | 2015 | 2014 | 2013 |
| Assumptions for stock options: | | | |
| Expected volatility (range) | 22% - 24% | 22% - 24% | 22% - 27% |
| Weighted average expected volatility | 23% | 23% | 23% |
| Risk-free interest rate (range) | 1.13% - 1.47% | 1.01% - 1.40% | 0.49% - 1.05% |
| Expected dividend yield | 0.93% - 1.05% | 0.92% - 1.06% | 1.02% - 1.18% |
| Assumptions for ESPP: | | | |
| Expected volatility (range) | 20% - 23% | 19% - 22% | 20% - 24% |
| Weighted average expected volatility | 21% | 21% | 22% |
| Risk-free interest rate (range) | 0.01% - 0.15% | 0.02% - 0.08% | 0.05% - 0.11% |
| Expected dividend yield | 0.96% - 1.19% | 0.94% - 1.15% | 1.04% - 1.17% |

Share-Based Awards Available for Grant

A summary of share-based awards available for grant under our 2005 Equity Incentive Plan for the fiscal periods indicated was as follows:

| <i>(Shares in thousands)</i> | Shares Available for Grant |
|--|---|
| Balance at July 31, 2012 | 21,760 |
| Options granted | (2,607) |
| Restricted stock units granted (1) | (9,310) |
| Share-based awards canceled/forfeited/expired (1)(2) | 2,277 |
| Balance at July 31, 2013 | 12,120 |
| Additional shares authorized | 19,000 |
| Options granted | (2,206) |
| Restricted stock units granted (1) | (8,959) |
| Share-based awards canceled/forfeited/expired (1)(2) | 4,248 |
| Balance at July 31, 2014 | 24,203 |
| Options granted | (1,981) |
| Restricted stock units granted (1) | (8,053) |
| Share-based awards canceled/forfeited/expired (1)(2) | 3,014 |
| Balance at July 31, 2015 | 17,183 |

-
- (1) RSUs granted from the pool of shares available for grant under our 2005 Equity Incentive Plan reduce the pool by 2.3 shares for each share granted. RSUs forfeited and returned to the pool of shares available for grant increase the pool by 2.3 shares for each share forfeited.
- (2) Stock options and restricted stock units canceled, expired or forfeited under our 2005 Equity Incentive Plan are returned to the pool of shares available for grant. Stock options and restricted stock units canceled, expired or forfeited under older expired plans are not returned to the pool of shares available for grant.

Stock Option Activity and Related Share-Based Compensation Expense

A summary of activity under all share-based compensation plans for the fiscal periods indicated was as follows:

| | Options Outstanding | |
|---|---------------------|---|
| | Number of Shares | Weighted Average Exercise Price Per Share |
| <i>(Shares in thousands)</i> | | |
| Balance at July 31, 2012 | 18,061 | \$37.49 |
| Granted | 2,607 | 62.93 |
| Exercised | (5,826) | 32.79 |
| Canceled or expired | (636) | 44.60 |
| Balance at July 31, 2013 | 14,206 | 43.77 |
| Granted | 2,206 | 82.15 |
| Assumed in connection with acquisitions | 261 | 5.16 |
| Exercised | (5,041) | 37.74 |
| Canceled or expired | (694) | 54.77 |
| Balance at July 31, 2014 | 10,938 | 52.67 |
| Granted | 1,981 | 106.86 |
| Exercised | (3,704) | 41.65 |
| Canceled or expired | (502) | 62.32 |
| Balance at July 31, 2015 | 8,713 | \$69.13 |

Information regarding stock options outstanding as of July 31, 2015 is summarized below:

| | Number of Shares (in thousands) | Weighted Average Remaining Contractual Life (in Years) | Weighted Average Exercise Price per Share | Aggregate Intrinsic Value (in millions) |
|-------------------------------------|---------------------------------|--|---|---|
| Options outstanding | 8,713 | 5.50 | \$69.13 | \$332 |
| Options vested and expected to vest | 8,282 | 5.36 | \$67.86 | \$326 |
| Options exercisable | 4,389 | 3.50 | \$51.55 | \$244 |

Options expected to vest are unvested shares net of expected forfeitures. The aggregate intrinsic values at July 31, 2015 are calculated as the difference between the exercise price of the underlying options and the market price of our common stock for shares that were in-the-money at that date. In-the-money options at July 31, 2015 were options that had exercise prices that were lower than the \$105.77 market price of our common stock at that date.

Additional information regarding our stock options and ESPP shares is shown in the table below.

| | Twelve Months Ended July 31, | | |
|---|------------------------------|----------|----------|
| | 2015 | 2014 | 2013 |
| <i>(In millions except per share amounts)</i> | | | |
| Weighted average fair value of options granted (per share) | \$ 19.39 | \$ 21.34 | \$ 11.24 |
| Total fair value of options vested | \$ 33 | \$ 20 | \$ 41 |
| Aggregate intrinsic value of options exercised | \$ 191 | \$ 177 | \$ 166 |
| Share-based compensation expense for stock options and ESPP | \$ 54 | \$ 43 | \$ 44 |
| Total tax benefit for stock option and ESPP share-based compensation | \$ 12 | \$ 11 | \$ 13 |
| Cash received from option exercises | \$ 154 | \$ 190 | \$ 191 |
| Cash tax benefits realized related to tax deductions for non-qualified option exercises and disqualifying dispositions under all share-based payment arrangements | \$ 68 | \$ 63 | \$ 60 |

At July 31, 2015, there was \$67 million of unrecognized compensation cost related to non-vested stock options that we will amortize to expense in the future. Unrecognized compensation cost will be adjusted for future changes in estimated forfeitures. We expect to recognize that cost over a weighted average vesting period of 2.4 years.

Restricted Stock Unit Activity and Related Share-Based Compensation Expense

A summary of restricted stock unit (RSU) activity for the periods indicated was as follows:

| <i>(Shares in thousands)</i> | Number of Shares | Weighted Average Grant Date Fair Value |
|--|------------------|--|
| Nonvested at July 31, 2012 | 9,607 | \$46.79 |
| Granted | 4,048 | 62.76 |
| Vested | (3,670) | 43.00 |
| Forfeited | (801) | 48.16 |
| Nonvested at July 31, 2013 | 9,184 | 55.23 |
| Granted | 3,896 | 71.37 |
| Assumed or granted in connection with acquisitions | 782 | 71.00 |
| Vested | (2,820) | 53.98 |
| Forfeited | (1,587) | 61.76 |
| Nonvested at July 31, 2014 | 9,455 | 62.46 |
| Granted | 3,501 | 100.18 |
| Assumed or granted in connection with acquisitions | 292 | 91.87 |
| Vested | (3,155) | 67.00 |
| Forfeited | (1,177) | 62.32 |
| Nonvested at July 31, 2015 | 8,916 | \$76.64 |

Additional information regarding our RSUs is shown in the table below.

| <i>(In millions)</i> | Twelve Months Ended July 31, | | |
|---|------------------------------|--------|--------|
| | 2015 | 2014 | 2013 |
| Total fair value of RSUs vested | \$ 282 | \$ 204 | \$ 224 |
| Share-based compensation for RSUs | \$ 188 | \$ 143 | \$ 122 |
| Total tax benefit related to RSU share-based compensation expense | \$ 63 | \$ 49 | \$ 42 |
| Cash tax benefits realized for tax deductions for RSUs | \$ 96 | \$ 134 | \$ 77 |

At July 31, 2015, there was \$446 million of unrecognized compensation cost related to non-vested RSUs that we will amortize to expense in the future. Unrecognized compensation cost will be adjusted for future changes in estimated forfeitures. We expect to recognize that cost over a weighted average vesting period of 2.3 years.

Accumulated Other Comprehensive Loss

Comprehensive income consists of two elements, net income and other comprehensive income (loss). Other comprehensive income (loss) items are recorded in the stockholders' equity section of our balance sheets and excluded from net income. Our other comprehensive income (loss) consists of unrealized gains and losses on marketable debt and equity securities classified as available-for-sale and foreign currency translation adjustments for subsidiaries with functional currencies other than the U.S. dollar.

The following table shows the components of accumulated other comprehensive loss, net of income taxes, in the stockholders' equity section of our balance sheets at the dates indicated.

| <i>(In millions)</i> | July 31, | |
|--|----------------|---------------|
| | 2015 | 2014 |
| Unrealized gains on available-for-sale debt securities | \$ — | \$ 1 |
| Foreign currency translation adjustments | (30) | (3) |
| Total accumulated other comprehensive loss | <u>\$ (30)</u> | <u>\$ (2)</u> |

12. Benefit Plans

Executive Deferred Compensation Plan

In December 2004 we initially adopted our 2005 Executive Deferred Compensation Plan, which became effective January 1, 2005. We adopted this plan to meet the requirements for deferred compensation under Section 409A of the Internal Revenue Code. The plan provides that executives who meet minimum compensation requirements are eligible to defer up to 75% of their salaries, bonuses and commissions. We have agreed to credit the participants' contributions with earnings that reflect the performance of certain independent investment funds. We may also make discretionary employer contributions to participant accounts in certain circumstances. The timing, amounts and vesting schedules of employer contributions are at the sole discretion of the Compensation and Organizational Development Committee of our Board of Directors or its delegate. The benefits under this plan are unsecured. Participants are generally eligible to receive payment of their vested benefit at the end of their elected deferral period or after termination of their employment with Intuit for any reason or at a later date to comply with the restrictions of Section 409A. Discretionary company contributions and the related earnings vest completely upon the participant's disability, death or a change of control of Intuit. We made no employer contributions to the plan for any period presented.

We had liabilities related to this plan of \$63 million at July 31, 2015 and \$62 million at July 31, 2014. We have matched the plan liabilities with similar performing assets, which are primarily investments in life insurance contracts. These assets are recorded in other long-term assets while liabilities related to obligations are recorded in other current liabilities on our balance sheets.

401(k) Plan

In the United States, employees who participate in the Intuit Inc. 401(k) Plan may currently contribute up to 50% of pre-tax compensation, subject to Internal Revenue Service limitations and the terms and conditions of the plan. We match a portion of employee contributions, currently 125% up to six percent of salary, subject to Internal Revenue Service limitations. Matching

contributions were \$44 million for the twelve months ended July 31, 2015; \$43 million for the twelve months ended July 31, 2014; and \$40 million for the twelve months ended July 31, 2013.

13. Litigation

Intuit has been contacted by regulatory authorities, including Congress, the Federal Trade Commission, the SEC, the Department of Justice and certain state Attorneys General, in connection with the increase during the 2015 tax season in attempts by criminals using stolen identity information to file fraudulent tax returns and claim refunds at the state and federal levels. Intuit is cooperating with all such government inquiries, including formal requests for information. In addition, we are the subject of certain actions, including putative class action lawsuits by individuals who claim to have suffered damages in connection with the foregoing events. We believe that the allegations contained within these lawsuits are without merit, and we intend to vigorously defend against them.

Intuit is subject to certain routine legal proceedings, including class action lawsuits like those described above, as well as demands, claims, government inquiries and threatened litigation, that arise in the normal course of our business, including assertions that we may be infringing patents or other intellectual property rights of others. We currently believe that, in addition to any amounts accrued, the amount of potential losses, if any, for any pending claims of any type (either alone or combined) will not have a material impact on our consolidated financial statements. The ultimate outcome of any litigation is uncertain and, regardless of outcome, litigation can have an adverse impact on Intuit because of defense costs, negative publicity, diversion of management resources and other factors. Our failure to obtain necessary license or other rights, or litigation arising out of intellectual property claims could adversely affect our business.

14. Segment Information

We have defined three reportable segments, described below, based on factors such as how we manage our operations and how our chief operating decision maker views results. We define the chief operating decision maker as our Chief Executive Officer and our Chief Financial Officer. Our chief operating decision maker organizes and manages our business primarily on the basis of product and service offerings.

Small Business. Our Small Business segment includes the following offerings, which target small businesses and the accounting professionals who serve them.

- QuickBooks financial and business management online services and desktop software; QuickBooks technical support; and financial supplies.
- QuickBooks Accountant, QuickBooks Accountant Plus, and QuickBooks Online Accountant as well as the QuickBooks ProAdvisor Program, all of which are intended for the accounting professionals who serve small businesses.
- Small business payroll products and services, including online payroll offerings such as Quickbooks Online Payroll and Intuit Online Payroll; desktop payroll offerings such as QuickBooks Basic Payroll and QuickBooks Enhanced Payroll; and full service payroll offerings such as Intuit Full Service Payroll and QuickBooks Assisted Payroll.
- Payment processing services for small businesses, including merchant services such as credit and debit card processing; Web-based transaction processing services for online merchants; secure online payments for small businesses and their customers through the Intuit Commerce Network; GoPayment mobile payment processing services; and QuickBooks Point of Sale solutions.

Consumer Tax. Consumer Tax targets consumers and includes TurboTax income tax preparation products and services and electronic tax filing services.

Professional Tax. Our Professional Tax segment targets professional accountants in the U.S. and Canada and includes Lacerte, ProSeries, ProFile and Intuit Tax Online professional tax preparation products and services, electronic tax filing services, bank product transmission services, and training services.

All of our segments operate primarily in the United States and sell primarily to customers in the United States. International total net revenue was less than 5% of consolidated total net revenue for the twelve months ended July 31, 2015, 2014 and 2013.

We include expenses such as corporate selling and marketing, product development, and general and administrative expenses and share-based compensation expenses, which are not allocated to specific segments, in unallocated corporate items. Unallocated corporate items also include amortization of acquired technology, amortization of other acquired intangible assets, and goodwill and intangible asset impairment charges.

The accounting policies of our reportable segments are the same as those described in the summary of significant accounting policies in Note 1. Except for goodwill and acquired intangible assets, we do not generally track assets by reportable segment and, consequently, we do not disclose total assets by reportable segment. See Note 5, “*Goodwill and Acquired Intangible Assets*,” for goodwill by reportable segment.

The following table shows our financial results by reportable segment for the periods indicated. Results for all periods presented have been adjusted to exclude results for our Demandforce, QuickBase, and Quicken businesses, which we classified as discontinued operations in the fourth quarter of fiscal 2015. Demandforce and QuickBase were part of the Small Business segment, and Quicken was part of the Consumer Ecosystem product line in the former Consumer segment. The remaining components of the Consumer Ecosystem product line are included in the Small Business segment for all periods presented and the former Consumer segment is now called the Consumer Tax segment. Results for all periods presented also exclude results for our Intuit Financial Services and Intuit Health businesses, which we classified as discontinued operations in the fourth quarter of fiscal 2013, and our Intuit Websites business, which we classified as discontinued operations in the fourth quarter of fiscal 2012. See Note 7, “*Discontinued Operations*,” for more information.

| | Twelve Months Ended July 31, | | |
|--|------------------------------|-----------------|-----------------|
| | 2015 | 2014 | 2013 |
| <i>(In millions)</i> | | | |
| Net revenue: | | | |
| Small Business segment | \$ 2,108 | \$ 2,158 | \$ 1,988 |
| Consumer Tax segment | 1,800 | 1,663 | 1,552 |
| Professional Tax segment | 284 | 422 | 406 |
| Total net revenue | <u>\$ 4,192</u> | <u>\$ 4,243</u> | <u>\$ 3,946</u> |
| Operating income from continuing operations: | | | |
| Small Business segment | 696 | 852 | 806 |
| Consumer Tax segment | 1,131 | 1,075 | 964 |

| Total operating income from continuing operations | <u>\$ 738</u> | <u>\$ 1,300</u> | <u>\$ 1,208</u> |

15. Selected Quarterly Financial Data (Unaudited)

The following tables contain selected quarterly financial data for the twelve months ended July 31, 2015 and July 31, 2014. We have classified our Demandforce, QuickBase, Quicken, Intuit Financial Services, Intuit Health, and Intuit Websites businesses as discontinued operations and as a result have segregated their operating results from continuing operations in our statements of operations and in these tables. See Note 7, “Discontinued Operations,” for more information.

| | Fiscal 2015 Quarter Ended | | | |
|--|---------------------------|------------------|----------------|----------------|
| | October 31 | January 31 | April 30 | July 31 |
| <i>(In millions, except per share amounts)</i> | | | | |
| Total net revenue | \$ 612 | \$ 749 | \$ 2,135 | \$ 696 |
| Cost of revenue | 159 | 188 | 202 | 176 |
| All other costs and expenses | 562 | 650 | 867 | 650 |
| Operating income (loss) from continuing operations | (109) | (89) | 1,066 | (130) |

Notes: The table above excludes balances and activity for our discontinued operations for all periods presented.

ITEM 9**CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE**

None.

ITEM 9A**CONTROLS AND PROCEDURES*****Evaluation of Disclosure Controls and Procedures***

Based upon an evaluation of the effectiveness of disclosure controls and procedures, Intuit's Chief Executive Officer (CEO) and Chief Financial Officer (CFO) have concluded that as of the end of the period covered by this Annual Report on Form 10-K our disclosure controls and procedures as defined under Exchange Act Rules 13a-15(e) and 15d-15(e) were effective to provide reasonable assurance that information required to be disclosed in our Exchange Act reports is recorded, processed, summarized, and reported within the time periods specified by the Securities and Exchange Commission and is accumulated and communicated to management, including the CEO and CFO, as appropriate to allow timely decisions regarding required disclosure.

Management's Report on Internal Control over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Exchange Act Rules 13a-15(f) and 15d-15(f). Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we conducted an evaluation of the effectiveness of our internal control over financial reporting as of July 31, 2015 based on the guidelines established in *Internal Control – Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Based on the results of this evaluation, our management has concluded that our internal control over financial reporting was effective as of July 31, 2015 to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external reporting purposes in accordance with generally accepted accounting principles. We reviewed the results of management's assessment with the Audit and Risk Committee of Intuit's Board of Directors.

Ernst & Young LLP, an independent registered public accounting firm, has audited the effectiveness of our internal control over financial reporting as of July 31, 2015. Their report is included in Item 8 of this Annual Report on Form 10-K.

Changes in Internal Control over Financial Reporting

During our most recent fiscal quarter, there has not occurred any change in our internal control over financial reporting that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Inherent Limitations on Effectiveness of Controls

Our management, including our Chief Executive Officer and Chief Financial Officer, believes that our disclosure controls and procedures and internal control over financial reporting are designed to provide reasonable assurance of achieving their objectives and that they are effective at the reasonable assurance level. However, no matter how well conceived and executed, a control system can provide only reasonable and not absolute assurance that the objectives of the control system are met. The design of any control system must reflect the fact that there are resource constraints and the benefits of controls must be considered relative to their costs. There are also limitations that are inherent in any control system. These limitations include the realities that breakdowns can occur because of errors in judgment or mistakes, and that controls can be circumvented by individual persons, by collusion of two or more people, or by management override of the controls. Because of these inherent limitations in a cost effective control system, misstatements due to error or fraud may occur and not be detected.

ITEM 9B**OTHER INFORMATION**

None.

PART III

ITEM 10

DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

Except for the information about our executive officers shown below, the information required by this Item 10 is incorporated by reference from the information contained in our Proxy Statement to be filed with the U.S. Securities and Exchange Commission in connection with the solicitation of proxies for our 2016 Annual Meeting of Stockholders (the “2016 Proxy Statement”) under the sections entitled “Our Board of Directors and Nominees – Directors Standing for Election,” “Corporate Governance,” and “Security Ownership of Certain Beneficial Owners and Management – Section 16(a) Beneficial Ownership Reporting Compliance.”

We maintain a Code of Conduct and Ethics that applies to all employees, including all officers. We also maintain a Board of Directors Code of Ethics that applies to all members of our Board of Directors. Our Code of Conduct and Ethics and Board of Directors Code of Ethics incorporate guidelines designed to deter wrongdoing and to promote honest and ethical conduct and compliance with applicable laws and regulations. Our Code of Conduct and Ethics and Board of Directors Code of Ethics are published on our Investor Relations website at http://investors.intuit.com/files/doc_governance/2015/INT_Intuit_Code-2015_Final.pdf and http://investors.intuit.com/files/doc_downloads/Corp_Gov/BOD_Code_of_Ethics.pdf, respectively. We disclose amendments to certain provisions of our Code of Conduct and Ethics and Board of Directors Code of Ethics, or waivers of such provisions granted to executive officers and directors, on this website.

EXECUTIVE OFFICERS

The following table shows Intuit’s executive officers as of July 31, 2015 and their areas of responsibility. Their biographies follow the table.

| Name | Age | Position |
|---------------------|-----|--|
| Brad D. Smith | 51 | President, Chief Executive Officer and Director |
| Scott D. Cook | 63 | Chairman of the Executive Committee |
| Laura A. Fennell | 54 | Executive Vice President, General Counsel and Corporate Secretary |
| Sasan K. Goodarzi | 47 | Executive Vice President and General Manager, Consumer Tax Group |
| H. Tayloe Stansbury | 54 | Executive Vice President and Chief Technology Officer |
| Daniel A. Wernikoff | 43 | Executive Vice President and General Manager, Small Business Group |
| R. Neil Williams | 62 | Executive Vice President and Chief Financial Officer |
| Mark J. Flournoy | 49 | Vice President, Corporate Controller and Chief Accounting Officer |

Mr. Smith has been President and Chief Executive Officer and a member of the Board of Directors since January 2008. He was Senior Vice President and General Manager, Small Business Division from May 2006 to December 2007 and Senior Vice President and General Manager, QuickBooks from May 2005 to May 2006. He also served as Senior Vice President and General Manager, Consumer Tax Group from March 2004 until May 2005 and as Vice President and General Manager of Intuit’s Accountant Central and Developer Network from February 2003 to March 2004. Prior to joining Intuit in February 2003, Mr. Smith was Senior Vice President of Marketing and Business Development at ADP, a provider of business outsourcing solutions, where he held several executive positions from 1996 to 2003. Mr. Smith also serves on the board of directors of Nordstrom, Inc. Mr. Smith holds a Bachelor’s degree in Business Administration from Marshall University and a Master’s degree in Management from Aquinas College.

Mr. Cook, a founder of Intuit, has been an Intuit director since March 1984 and is currently Chairman of the Executive Committee. He served as Intuit’s Chairman of the Board from February 1993 through July 1998. From April 1984 to April 1994, he served as Intuit’s President and Chief Executive Officer. Mr. Cook also serves on the board of directors of The Procter & Gamble Company. Mr. Cook holds a Bachelor of Arts degree in Economics and Mathematics from the University of Southern California and a Master’s degree in Business Administration from Harvard Business School.

Ms. Fennell has been Executive Vice President, General Counsel and Corporate Secretary since August 2015 and previously served as Senior Vice President, General Counsel and Corporate Secretary from February 2007. She leads Intuit’s legal, corporate affairs, privacy, information security, and data services teams. Ms. Fennell joined Intuit as Vice President, General Counsel and Corporate Secretary in April 2004. Prior to joining Intuit, Ms. Fennell spent nearly eleven years at Sun Microsystems, Inc., most recently as Vice President of Corporate Legal Resources, as well as Acting General Counsel. Prior to

joining Sun, she was an associate attorney at Wilson Sonsini, Goodrich & Rosati PC. Ms. Fennell sits on the board of directors of the Children's Discovery Museum of San Jose. Ms. Fennell holds a Bachelor of Science degree in Business Administration from California State University, Chico and a Juris Doctor from Santa Clara University.

Mr. Goodarzi has been Executive Vice President and General Manager of Intuit's Consumer Tax Group since August 2015 and from August 2013 to July 2015 served as Senior Vice President and General Manager of the Consumer Tax Group. He rejoined Intuit in August 2011 as Senior Vice President and Chief Information Officer, serving in that capacity until July 2013, prior to which he had served as Chief Executive Officer of Nexant Inc., a privately held provider of intelligent grid software and clean energy solutions, since November 2010. During his previous tenure at Intuit from 2004 to 2010, Mr. Goodarzi led several business units including Intuit Financial Services and the professional tax division. Prior to joining Intuit, Mr. Goodarzi worked for Invensys, a global provider of industrial automation, transportation and controls technology, serving as global president of the products group. He also held a number of senior leadership roles in the automation control division at Honeywell and served as the chief executive officer and co-founder of a technology startup, Lazer Cables Inc. Mr. Goodarzi holds a Bachelor's degree in Electrical Engineering from the University of Central Florida and a Master's degree in Business Administration from the Kellogg School of Management at Northwestern University.

Mr. Stansbury has been Executive Vice President and Chief Technology Officer since August 2015 and joined Intuit in May 2009 as Senior Vice President and Chief Technology Officer. Mr. Stansbury previously served as chief information officer of VMware. Earlier he was executive vice president of Ariba and held executive engineering and general management roles at Calico Commerce and Xerox, led developer tools engineering groups at Borland International and Sun Microsystems, and researched intelligent systems at Xerox PARC. Mr. Stansbury holds a Bachelor's degree in Applied Mathematics from Harvard University.

Mr. Wernikoff has been Executive Vice President and General Manager of Intuit's Small Business Group since August 2015 and from April 2014 to July 2015 served as Senior Vice President and General Manager of the Small Business Group. He previously was the Senior Vice President and General Manager of Intuit's Small Business Financial Solutions Group from August 2013. From August 2010 to July 2013, he served as General Manager of Intuit's Financial Management Solutions business unit and was promoted from Vice President to Senior Vice President in August 2011. Mr. Wernikoff joined Intuit in March 2003 and was promoted to Vice President in August 2007. He held various executive roles in Payments, QuickBooks and Financial Management Solutions from August 2007 to August 2010. Mr. Wernikoff's previous experience includes leadership positions at Charles Schwab, Bank One Corp., and First Chicago Capital Markets. Mr. Wernikoff holds a Bachelor's degree in Finance from Miami University of Ohio and a Master's degree in Business Administration from the University of Pittsburgh.

Mr. Williams has been Executive Vice President and Chief Financial Officer since August 2015 and joined Intuit in January 2008 as Senior Vice President and Chief Financial Officer. He is responsible for all financial aspects of the company, including corporate strategy and business development, investor relations, financial operations and real estate. Beginning in 2001, he served as Executive Vice President of Visa U.S.A., Inc., the leading payments company in the U.S., and then from November 2004 to September 2007 served as Chief Financial Officer, leading all financial functions for the company and its subsidiaries. During the same period, Mr. Williams held the dual role of Chief Financial Officer for Inovant LLC, Visa's global IT organization responsible for global transactions processing and technology development. Mr. Williams also serves on the boards of directors of Amyris, Inc. and RingCentral, Inc. Mr. Williams holds a Bachelor's degree in Business Administration from the University of Southern Mississippi and he is a certified public accountant.

Mr. Flournoy was appointed as Vice President and Chief Accounting Officer in February 2014. He joined Intuit in 2003 as director of general accounting and internal controls and was named Corporate Controller in 2012. From 1996 to 2003, Mr. Flournoy served as a corporate controller for various private and public companies in California. He began his career in public accounting at Ernst & Young, where he served from 1992 to 1996. Mr. Flournoy holds a Bachelor's degree in Business Administration – Finance from the University of Southern California and a secondary Bachelor's degree in Accounting from San Diego State University.

ITEM 11
